*Experiences of Single-Mother Doctoral Students as They Navigate Between the Educational System, Societal Expectations, and Parenting Their Children: A Phenomenological Approach* Meshkin B. AmiriRad, 2016-11-28 Among many factors perhaps their confidence was shaped by cultural mantras in the United States which proclaim that this is a country of opportunity where it is possible to pursue one's dreams and reach the top of one's potential as one of the participants indicated Of relevance there are a multitude of good reasons for women to leave abusive relationships in order to reach their full potential and this was what many single mother doctoral students have had to do On one hand societal expectations are on their side encouraging them to leave the relationship On the other hand when they do leave they often experience a crippling lack of cultural societal and programmatic support When they left these relationships and decided to pursue their doctorates while being single parents to their children they were often marginalized by their universities doctoral programs and faculty by peers and by what should have been their support systems

O Mother, Where Art Thou? Julie Kelso, 2016-06-16 According to Kelso the Book of Chronicles silences women in specific ways most radically through their association with maternity Drawing on the work of two feminist philosophers Luce Irigaray and Michelle Boulous Walker she argues that we may discern two principal strategies of silencing women in Chronicles disavowal and repression of the maternal body In its simplest form the silencing of women takes place through both an explicit and implicit strategy of excluding them from the central action Largely banished from the central action they are hardly able to contribute to the

production of Israel's past. On a more complex level however women are most effectively silenced through their association with maternity because the maternal body is both disavowed and repressed in *Chronicles*. The association of women with maternity along with the disavowal and repression of the maternal body as origin of the masculine subject effects and guarantees the silence of the feminine enabling man to imagine himself as sole producer of his world. These strategies of silencing the feminine need to be understood in relation to the relative absence of women from the narrative world of *Chronicles*. Kelso argues that *Chronicles* depends on the absence and silence of women for its imaginary coherence. This argument is enabled by Irigarayan theory. But more importantly Kelso suggests that Irigaray also offers us a viable mode not method of reading writing listening and speaking as woman whatever that might mean in relation to the so called origins of western culture specifically the Hebrew Bible or Old Testament. She argues that Irigaray enables a not only rigorous feminist critique of patriarchy and its many texts but also somewhat more charitably a mode of reading that enables women to read the past differently seeking out what remains to be discovered especially the forgotten future in the past.

*Motherhood in Black and White* Ruth Feldstein, 2000. The women have a big part to play citizenship motherhood and race in New Deal liberalism. Racism as an American psychology masculinity and maternal failure in the 1940s. Politics in an age of anxiety. Cold War liberalism and dangers to Americans. I wanted the whole world to see constructions of motherhood in the death of Emmett Till. Imitation reconsidered consuming images in the late 1950s. Pathologies and mystiques revising motherhood and liberalism in the 1960s.

**Specters of Mother India** Mrinalini Sinha, 2006-07-12. A historical analysis of a book inspired controversy that in its dimensions rivalled Herndon and Murray's *The Bell Curve* and Rushdie's *The Satanic Verses* and brought forth a new political collectivity in India's women.

**Remembering the Phallic Mother** Marcia Ian, 1993. In a reinterpretation of the history of fetishism as a concept Ian traces the significance of the trope of the phallic mother from early psychoanalytic discourse through Klein Kristeva and Lacan across key works of modernist literature by Wilde Eliot Joyce Lawrence Genet and others and in recent feminist theory gender theory and postmodern critical theory.

treating odontogenic infections He She may be involved in the management of oral complications during and after cancer therapy since with improved techniques for delivering chemotherapy many patients who have cancer are being treated in their community rather than travelling to cancer centres More often such patients are seen by general dentist for routine dental care after cancer therapy Chemotherapy Radiotherapy and Newer treatment of cancer were introduce and recognize as a chief treatment These treatment modality have been involved in medical and dental field more than ninety years Chemotherapy typically involves the use of several antineoplastic anticancer drugs to treat cancer though some people are treated with single medications While the drugs in this family are toxic to cancer cells many are also toxic to healthy cells which give rise to numerous side effects A few drugs used in chemotherapy enhance immune function while some alter hormonal activity Chemotherapy aims to eliminate the clonogenic cells completely The inevitable damage to normal cells from cytotoxic therapy is tolerated by prompt and efficient repair of normal cells as opposed to that of tumour cells Chemotherapy and radiotherapy target actively dividing cells and the two most susceptible stages are the M phase and S phase of the cell cycle Ionizing radiation is used for both therapeutic and diagnostic purposes For therapy high energy radiation in megavoltage range is preferred where as for diagnosis kilovolt age energy is used The radiotherapy is based on the principle that rapidly proliferating cells are more sensitive to ionizing radiation compared to normal cells This differential cell kill is used for the treatment of tumors A dose of radiation that is sufficient to kill cancer cells will produce considerable if not permanent damage to the normal tissues The malignant cells which have a high rate of mitosis are highly susceptible to the action of radiation However the normal cells recover but not the malignant tissues Thus the aim of radiotherapy is to deliver a homogenous dose of radiation to an accurately localized tissue target volume in order to produce tumor control with minimal effect on the surrounding normal structures Radiotherapy is a specialty which took birth at the end of the 19th century with the discovery of x rays by Sir Wilhelm Conrad Roentgen on Friday the 8th November 1895 This book updates the oral health care professional on how to prepare a patient for cancer therapy and identify and manage short term and long term complications of cancer therapy Book range from the use of new therapeutic agents such as keratinocyte growth factor that reduces the incidence of mucositis during chemotherapy and radiotherapy to learning how to recognize infections in patients who are immunocompromised to understanding the socio economic costs of oral complications We hope that that these practical and evidence based guidelines will be readily accessible and useful to cancer specialist in the management of patient who develop oral complications of cancer therapy Dr Pradeep Kumar Jha Reader cum HOD Oral Medicine Radiology Patna Dental College GDC Patna Bihar India      American Motherhood Della Thompson Lutes,1901      **The Smart Mother's Guide to a Better Pregnancy** Linda Burke-Galloway,2008 How to minimize risks avoid complications and have a healthy baby
