Power, Authority, and Legitimacy in Studies of the Andean Past Karen Spalding, Thomas Carl Patterson, American Anthropological Association. Annual Meeting, 1994

The Ethics of Anthropology and Amerindian Research Richard J. Chacon, Rubén G. Mendoza, 2011-12-15 The decision to publish scholarly findings bearing on the question of Amerindian environmental degradation warfare and or violence is one that weighs heavily on anthropologists This burden stems from the fact that documentation of this may render descendant communities vulnerable to a host of predatory agendas and hostile modern forces Consequently some anthropologists and community advocates alike argue that such culturally and socially sensitive and thereby politically volatile information regarding Amerindian induced environmental degradation and warfare should not be reported This admonition presents a conundrum for anthropologists and other social scientists employed in the academy or who work at

the behest of tribal entities This work documents the various ethical dilemmas that confront anthropologists and researchers in general when investigating Amerindian communities The contributions to this volume explore the ramifications of reporting and specifically of non reporting instances of environmental degradation and warfare among Amerindians Collectively the contributions in this volume which extend across the disciplines of archaeology anthropology ethnohistory ethnic studies philosophy and medicine argue that the non reporting of environmental mismanagement and violence in Amerindian communities generally harms not only the field of anthropology but the Amerindian populations themselves

The Discovery and Conquest of Peru Pedro de Cieza de Leon,1999-02-11 Dazzled by the sight of the vast treasure of gold and silver being unloaded at Seville s docks in 1537 a teenaged Pedro de Cieza de Le n vowed to join the Spanish effort in the New World become an explorer and write what would become the earliest historical account of the conquest of Peru Available for the first time in English this history of Peru is based largely on interviews with Cieza s conquistador compatriates as well as with Indian informants knowledgeable of the Incan past Alexandra Parma Cook and Noble David Cook present this recently discovered third book of a four part chronicle that provides the most thorough and definitive record of the birth of modern Andean America It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro the imprisonment and death of the Inca Atahualpa the Indian resistance and the ultimate Spanish domination Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume **Art, Nature, and Religion in the Central Andes** Mary Strong,2012-05-01

From prehistory to the present the Indigenous peoples of the Andes have used a visual symbol system that is art to express their sense of the sacred and its immanence in the natural world Many visual motifs that originated prior to the Incas still appear in Andean art today despite the onslaught of cultural disruption that native Andeans have endured over several centuries Indeed art has always been a unifying power through which Andeans maintain their spirituality pride and culture while resisting the oppression of the dominant society In this book Mary Strong takes a significantly new approach to Andean art that links prehistoric to contemporary forms through an ethnographic understanding of Indigenous Andean culture In the first part of the book she provides a broad historical survey of Andean art that explores how Andean religious concepts have been expressed in art and how artists have responded to cultural encounters and impositions ranging from invasion and conquest to international labor migration and the internet In the second part Strong looks at eight contemporary art types the scissors dance danza de tijeras home altars retablos carved gourds mates ceramics ceramica painted boards tablas weavings textiles tinware hojalateria and Huamanga stone carvings piedra de Huamanga She includes prehistoric and historic information about each art form its religious meaning the natural environment and sociopolitical processes that help to shape its expression and how it is constructed or performed by today s artists many of whom are quoted in the book

Antiquarianisms Benjamin Anderson,Felipe Rojas,2017-05-31 Antiquarianism and collecting have been associated

intimately with European imperial and colonial enterprises although both existed long before the early modern period and both were and continue to be practiced in places other than Europe. Scholars have made significant progress in the documentation and analysis of indigenous antiquarian traditions but the clear cut distinction between indigenous and colonial archaeologies has obscured the intense and dynamic interaction between these seemingly different endeavours. This book concerns the divide between local and foreign antiquarianisms focusing on case studies drawn primarily from the Mediterranean and the Americas. Both regions host robust pre modern antiquarian traditions that have continued to develop during periods of colonialism. In both regions moreover colonial encounters have been mediated by the antiquarian practices and preferences of European elites. The two regions also exhibit salient differences. For example Europeans claimed the antiquities of the eastern Mediterranean as part of their own classical heritage whereas they perceived those of the Americas as essentially alien even as they attempted to understand them by analogy to the classical world. These basic points of comparison and contrast provide a framework for conjoint analysis of the emergence of hybrid or cross bred antiquarianisms. Rather than assuming that interest in antiquity is a human universal this book explores the circumstances under which the past itself is produced and transformed through encounters between antiquarian traditions over common objects of interpretation.

The Global Prehistory of Human Migration Immanuel Ness, 2014-08-29. Previously published as the first volume of *The Encyclopedia of Global Human Migration* this work is devoted exclusively to prehistoric migration covering all periods and places from the first hominin migrations out of Africa through the end of prehistory. Presents interdisciplinary coverage of this topic including scholarship from the fields of archaeology, anthropology, genetics, biology, linguistics and more. Includes contributions from a diverse international team of authors representing 17 countries and a variety of disciplines. Divided into two sections covering the Pleistocene and Holocene each section examines human migration through chapters that focus on different regional and disciplinary lenses.

Art and Vision in the Inca Empire Adam Herring, 2015-05-22. This book offers a new art historical interpretation of pre contact Inca culture and power and includes over sixty color images.

The Archaeology of Wak'as Tamara L. Bray, 2015-02-15. In this edited volume Andean wak'as (idols, statues, sacred places, images and oratories) play a central role in understanding Andean social philosophies, cosmologies, materialities, temporalities and constructions of personhood. Top Andean scholars from a variety of disciplines cross regional theoretical and material boundaries in their chapters offering innovative methods and theoretical frameworks for interpreting the cultural particulars of Andean ontologies and notions of the sacred. Wak'as were understood as agentive nonhuman persons within many Andean communities and were fundamental to conceptions of place, alimentation, fertility, identity and memory and the political construction of ecology and life cycles. The ethnohistoric record indicates that wak'as were thought to speak, hear and communicate both among themselves and with humans. In their capacity as nonhuman persons they shared familial relations with members of the community for instance young women were wed to local wak'as made of stone and wak'as had

sons and daughters who were identified as the mummified remains of the community's revered ancestors Integrating linguistic ethnohistoric ethnographic and archaeological data The Archaeology of Wak'as advances our understanding of the nature and culture of wak'as and contributes to the larger theoretical discussions on the meaning and role of the sacred in ancient contexts **Archaeology of Wak'as** Tamara L. Bray, 2014-08-15 In this edited volume Andean wak'as idols statues sacred places images and oratories play a central role in understanding Andean social philosophies cosmologies materialities temporalities and constructions of personhood Top Andean scholars from a variety of disciplines cross regional theoretical and material boundaries in their chapters offering innovative methods and theoretical frameworks for interpreting the cultural particulars of Andean ontologies and notions of the sacred Wak'as were understood as agentic nonhuman persons within many Andean communities and were fundamental to conceptions of place alimentary fertility identity and memory and the political construction of ecology and life cycles The ethnohistoric record indicates that wak'as were thought to speak hear and communicate both among themselves and with humans In their capacity as nonhuman persons they shared familial relations with members of the community for instance young women were wed to local wak'as made of stone and wak'as had sons and daughters who were identified as the mummified remains of the community's revered ancestors Integrating linguistic ethnohistoric ethnographic and archaeological data The Archaeology of Wak'as advances our understanding of the nature and culture of wak'as and contributes to the larger theoretical discussions on the meaning and role of the sacred in ancient contexts **The Nasca** Helaine Silverman, Donald Proulx, 2002-03-01 This well illustrated concise text will serve as a benchmark study of the Nasca people and culture for years to come **Ancient People of the Andes** Michael A. Malpass, 2016-06-09 In Ancient People of the Andes Michael A. Malpass describes the prehistory of western South America from initial colonization to the Spanish Conquest All the major cultures of this region from the Moche to the Inkas receive thoughtful treatment from their emergence to their demise or evolution No South American culture that lived prior to the arrival of Europeans developed a writing system making archaeology the only way we know about most of the prehispanic societies of the Andes The earliest Spaniards on the continent provided first person accounts of the latest of those societies and as descendants of the Inkas became literate they too became a source of information Both ethnohistory and archaeology have limitations in what they can tell us but when we are able to use them together they are complementary ways to access knowledge of these fascinating cultures Malpass focuses on large anthropological themes why people settled down into agricultural communities the origins of social inequalities and the evolution of sociopolitical complexity Ample illustrations including eight color plates visually document sites societies and cultural features Introductory chapters cover archaeological concepts dating issues and the region's climate The subsequent chapters divided by time period allow the reader to track changes in specific cultures over time [The ^AOxford Handbook of the Incas](#) Sonia Alconini, R. world Using archaeology ethnohistory and art history the central goal of this handbook is to bring together recent research conducted by experts from different fields that study the Inca empire from its origins and expansion to its demise and continuing influence in contemporary times

Constructions of Time and History in the Pre-Columbian Andes

Edward Swenson, Andrew Roddick, 2018-03-15 *Constructions of Time and History in the Pre-Columbian Andes* explores archaeological approaches to temporalities social memory and constructions of history in the pre-Columbian Andes The authors examine a range of indigenous temporal experiences and ideologies including astronomical cyclical generational eschatological and mythical time This nuanced interdisciplinary volume challenges outmoded anthropological theories while building on an emic perspective to gain greater understanding of pre-Columbian Andean cultures Contributors to the volume rethink the dichotomy of past and present by understanding history as indigenous Andeans perceived it recognizing the past as a palpable and living presence We live in history not apart from it Within this framework time can be understood as a current rather than as distinct points moments periods or horizons The Andes offer a rich context by which to evaluate recent philosophical explorations of space and time Using the varied materializations and ritual emplacements of time in a diverse sampling of landscapes *Constructions of Time and History in the Pre-Columbian Andes* serves as a critique of archaeology's continued and exclusive dependence on linear chronologies that obscure historically specific temporal practices and beliefs Contributors Tamara L Bray Zachary J Chase Mar a Jos Culquichic n Venegas Terence D Altroy Giles Spence Morrow
