**The Anthropological Imagination** Muriel Dimen, 1977     *Demons in the Consulting Room* Adrienne Harris, Margery Kalb, Susan Klebanoff, 2016-08-05

*Demons in the Consulting Room* Echoes of Genocide Slavery and Extreme Trauma in Psychoanalytic Practice is the second of two volumes addressing the overwhelming often unmetabolizable feelings related to mourning both on an individual and mass scale. Authors in this volume explore the potency of ghosts, ghostliness, and the darker, often grotesque aspects of these phenomena. While ghosts can be spectral presences that we feel protective of, demons haunt in a particularly virulent way, distorting experience, our sense of reality, and our character. Bringing together a collection of clinical and theoretical papers, *Demons in the Consulting Room* reveals how the most extreme types of trauma can continue to have effects across generations and how these effects manifest in the consulting room. Essays in this volume consider traumas that have affected multiple generations of people, such as the Holocaust, experiences in the gulags, and the experience of slavery. Authors here consider the clinical challenges of working with the demonic force in severe childhood abuse and the effects of serious and prolonged physical injury and illness. Inevitably, there is in such difficult clinical work the combined effects of hauntings in the analysts and in patients, and often in the surrounding culture. In this book, distinguished psychoanalysts explore the myriad forms of ghosts and the demonic which interfere and disrupt the endlessly difficult psychic work of mourning. It will be of interest to psychotherapists and psychoanalysts as well as social workers, family therapists, psychologists, and psychiatrists. *Demons in the Consulting Room* will appeal to those specializing in bereavement and trauma, and on a broader level to sociologists and historians interested in understanding means of coping with loss and grief on both an individual and larger scale basis.

**Women in Families** Monica McGoldrick, Carol M. Anderson, Froma Walsh, 1989

This comprehensive book ideal as a basic text in family therapy and women's studies addresses the question of how women experience family life from a variety of perspectives. It covers gender issues in family therapy, theory, practice, and training; women in context; ethnicity and life cycle issues; marriage; motherhood; sisterhood; women alone; lesbian couples; and such special issues as work, addiction, and mental illness.

**Sexuality, Intimacy, Power** Muriel Dimen, 2023-11-28

This book offers Dimen's classic take on psychosexuality, drawing on relational theory, feminism, and postmodernism, with a new foreword by Virginia Goldner and Velleda Ceccoli honouring the late Muriel Dimen and introducing a new audience to her profound legacy. For Dimen, the shift from dualism to multiplicity that has reshaped a range of disciplines can also be brought to bear on our thinking about sexuality. She urges us to return to the open-mindedness hiding between the lines and buried in the footnotes of Freud's writings, and to replace the determinism into which his thought has hardened with more fluid notions of contingency, paradox, and thirdness. By unveiling the colloquy among psychoanalysis, social theory, and feminism, Dimen challenges clinicians and academicians alike to rethink ideas about gender, eroticism, and perversion. She explores, among other topics, the relations between lust and libido, the limitations of Darwinian thought in theorizing homosexuality, the body

as projective test and the intimate tangle of love and hate between women Generous clinical examples illustrate the ways in which a radical re visioning of psychosexuality benefits therapists and patients alike A brilliant example of contemporary psychoanalytic theory at its destabilizing best Sexuality Intimacy Power covers both clinical insights and theoretical rethinking that is invaluable for psychoanalysts psychotherapists and students of women s gender and queer studies

**Feminist Nightmares: Women At Odds** Susan Ostrov Weisser,1994-10-01 Though all women are women no woman is only a woman wrote Elizabeth Spelman in *The Inessential Woman* Gone are the days when feminism translated simply into the advocacy of equality for women Women s interests are not always aligned race class and sexuality complicate the equation In recent years feminist ideologies have become increasingly diverse Today one feminist s most ardent political opponent may well be another feminist As feminism grows increasingly diverse the time has come to ask a painful and frequently avoided question what does it mean for women to oppress women This pathbreaking provocative anthology addresses this troublesome dilemma from various feminist perspectives offering an interdisciplinary collection of writings that widens our understanding of oppression to take into account women who are at odds The book examines the social political and psychological ramifications of this phenomenon as evidenced in a range of texts from women s antislavery writing to women s anti abortion writing from mother daughter incest stories to maternal surrogacy narratives from the Bible to the popular romance nove from Jane Austen to Alice Walker The value of the volume is perhaps best summed up by an early response to the idea This is a book that should never be written feminists should concentrate on how men oppress women Ironically it is precisely because the subject triggers such responses the authors argue that a volume such as *Feminist Nightmares* has become a necessity

An Ethnographic Approach to Peacebuilding Gearoid Millar, 2014-04-24 This book aims to outline and promote an ethnographic approach to evaluating international peacebuilding interventions in transitional states While the evaluation of peacebuilding and transitional justice efforts has been a growing concern in recent years too often evaluations assess projects based on locally irrelevant measures reinforce the status quo distribution of power in transitional situations and uncritically accept the implicit conceptions of the funders planners and administrators of such projects This book argues that evaluating the effects of peacebuilding interventions demands an understanding of the local and culturally variable context of intervention Throughout the book the author draws on real world examples from extensive fieldwork in Sierra Leone to argue that local experiences should be considered the primary measure of a peacebuilding project s success An ethnographic approach recognizes diversity in conceptions of peace justice development and reconciliation and takes local approaches and local critiques of the international agenda seriously It can help to empower local actors hold the international peacebuilding industry accountable to its supposed beneficiaries and challenge the Western centric ideas of what peace entails and how peacebuilding is achieved This book will be of much interest to students and scholars of peacebuilding peace and conflict studies transitional justice African politics ethnography International Relations and security studies as well as practitioners working in the field
