*Knops: Usually made separately from the lid, the weakest point is where the ceramic is narrowest. If there are signs of previous restoration, the knop should not be used for picking up the lid.*

*Hammer: Cracks in or near the handle should be treated, and the piece not used. Because handles are high profile, unsightly chips on them would reduce value overall.*

*Gilding: Easily worn by wear and washing. It can be retouched with watergilding or bronze or mica pigments which might not exactly match original.*
