## **The Apostles Of Mobility The Theory And Practice Of Armoured Warfare:**

*The Apostles of Mobility* Michael Carver, 1979      The Four Apostle of Mobility Micheal Carver, 1979      *Mobility, shock, and firepower: The Emergence of the U.S. Army's Armor Branch, 1917-1945* Robert S. Cameron, The following pages provide a narrative analysis of the U S Army s development of armored organizations and their related doctrine materiel and training activities in the period 1917 1945 The development of new armor doctrines and organizations to exploit emerging technologies concepts and missions is the heart of this work How that transition was accomplished during the brief space of about twenty years the accepted duration of a single generation is a story worthy of careful examination as our Army gropes with managing similar transformations today      *Through Mobility We Conquer* George F. Hofmann, 2006-07-03 The U S Cavalry which began in the nineteenth century as little more than a mounted reconnaissance and harrying force underwent intense growing pains with the rapid technological developments of the twentieth century From its tentative beginnings during World War I the eventual conversion of the traditional horse cavalry to a mechanized branch is arguably one of the greatest military transformations in history Through Mobility We Conquer recounts the evolution and development of the U S Army s modern mechanized cavalry and the doctrine necessary to use it effectively The book also explores the debates over how best to use cavalry and how these discussions evolved during the first half of the century During World War I the first cavalry theorist proposed combining arms coordination with a mechanized force as an answer to the stalemate on the Western Front Hofmann brings the story through the next fifty years when a new breed of cavalymen became cold war warriors as the U S Constabulary was established as an occupation security police force Having reviewed thousands of official records and manuals military journals personal papers memoirs and oral histories many of which were only recently declassified George F Hofmann now presents a detailed study of the doctrine equipment structure organization tactics and strategy of U S mechanized cavalry during the changing international dynamics of the first half of the twentieth century Illustrated with dozens of photographs maps and charts Through Mobility We Conquer examines how technology revolutionized U S forces in the twentieth century and demonstrates how perhaps no other branch of the military underwent greater changes during this time than the cavalry      **Great Warrior Leaders/thinkers** , 1989      The Politics of Command John Nelson Rickard, 2010-01-01 In December 1943 Lieutenant General A G L McNaughton resigned from command of the 1st Canadian Army amidst criticism of his poor generalship and of his abrasive personality Despite McNaughton s importance to the Canadian Army during the first four years of the Second World War little has been written about the man himself or the circumstances of his resignation In *The Politics of Command* the first full length study of the subject since 1969 John Nelson Rickard analyzes McNaughton s performance during exercise SPARTAN in March 1943 and assesses his relationships with key figures such as Sir Alan F Brooke Bernard Paget and Harry Crerar This detailed re examination of McNaughton s command argues that the long accepted reasons for his relief of duty require extensive modification Based on a wide range of

sources The Politics of Command will redefine how military historians and all Canadians look not only at Andy McNaughton but the Canadian Army as well      **Mobility, Shock, and Firepower** Robert S. Cameron, 2008 Captures the multifaceted development of the Armored Force from its inauspicious beginnings in World War 1 to its fully mature operational status at the close of World War 2 Provides an excellent case study in force transformation Gives attention to training maneuvers conducted in the interwar period Source material includes reports memorandums and correspondence of the majors lieutenant colonels and colonels associated with armored development since World War I      *Operation Agreement* John Sadler, 2016-06-16 The Special Interrogation Group SIG was the most exceptional of Special Forces Created to raid behind enemy lines posing as German troops the SIG was largely made up of German Jews who were all too aware of the dangers they faced capture meant either death or deportation to a concentration camp In 1942 Operation Agreement saw the SIG tasked with taking part in a raid on Tobruk where they were to make up the land based element of the attack Disguised as POWs under escort by German speaking SIGs the group covered close to 1 700 miles of desert to reach their target The ruse worked perfectly and the SIG went on to destroy a number of coastal guns before eventually being overwhelmed by Axis forces This is the history of the SIG revealing startling details about the group and offering moving insights into the Jewish volunteers putting their lives on the line to fight against the evils of Nazism      *A Military History of Modern South Africa* Ian van der Waag, 2018-03-14 The story of a century of conflict and change from the Second Boer War to the anti apartheid movement and the many battles in between Twentieth century South Africa saw continuous often rapid and fundamental socioeconomic and political change The century started with a brief but total war Less than ten years later Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa The Union Defence Force later the SADF was deployed during most of the major wars of the century as well as a number of internal and regional struggles the two world wars Korea uprising and rebellion on the part of Afrikaner and black nationalists and industrial unrest The century ended as it started with another war This was a flash point of the Cold War which embraced more than just the subcontinent and lasted a long thirty years The outcome included the final withdrawal of foreign troops from southern Africa the withdrawal of South African forces from Angola and Namibia and the transfer of political power away from a white elite to a broad based democracy This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars rebellions uprisings and protests of the period It deals in the first instance with the evolution of South African defense policy the development of the armed forces and the people who served in and commanded them It also places the narrative within the broader national past to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars      Military Training in the British Army, 1940-1944 Dr Timothy Harrison Place, Timothy Harrison Place, 2016-01-20 In this study the author traces the reasons for the British Army s tactical weakness in Normandy to flaws in its training in Britain The armour suffered from failures of

experience Disagreements between General Montgomery and the War Office exacerbated matters **False Necessity** Roberto Mangabeira Unger,1987-08-28 *Arik David Landau,2014-11-11* A commander in the Israeli Army from its inception in 1948 and a politician whose tenure bridged numerous governments as both a general and a politician Ariel Sharon championed the construction of Israeli settlements in the West Bank and Gaza But in his later years as prime minister he took a dramatic turn and became the driving force behind Israel's unilateral disengagement In this first truly comprehensive biography David Landau the former editor in chief of Haaretz paints a vivid picture of the most dramatic and imposing Israeli political and military leader of the last forty years and takes a penetrating look at how Sharon transformed his country like no one else **Field Marshal Bernard Law Montgomery, 1887-1976** Colin F. Baxter,1999-10-30 In the desperate summer of 1942 Hitler seemed to be on the verge of victory in Russia and the Middle East With Rommel nearing Cairo a little known lieutenant general Bernard Montgomery took charge of what Churchill called a baffled and bewildered British 8th Army Assuming command Montgomery issued his famous order Here we will stand and fight If we can't stay here alive then let us stay here dead and led the Army to one of the Allies' greatest victories El Alamein Monty became an instantly recognizable Allied leader but as a man with strong views unbending principles and outspoken frankness he was both loved and disliked praised and criticized This bibliography presents and evaluates the extensive body of literature that has grown up around the controversial Field Marshal Any serious study of World War II military campaigns must confront Field Marshal Bernard Montgomery an individualist with both admirers and detractors This book provides an extensive historiographical overview of the literature in Part I and a bibliography of significant works in Part II It is a basic reference and research guide for the student scholar and general reader **Camp Colt to Desert Storm** George F. Hofmann,Donn A. Starry,2014-04-23 The tank revolutionized the battlefield in World War II In the years since additional technological developments including nuclear weapons ballistic missiles computer assisted firing and satellite navigation have continued to transform the face of combat The only complete history of U.S. armed forces from the advent of the tank in battle during World War I to the campaign to drive Iraq out of Kuwait in 1991 Camp Colt to Desert Storm traces the development of doctrine for operations at the tactical and operational levels of war and translates this fighting doctrine into the development of equipment

**Transition in Power** Peter J. Hugill,2018-08-15 Hegemonic transitions are never clear and they usually emerge from a period of multi polarity in the world system Two types of state tend to contend for power trading states and territorial states although most states are never pure and tend to contain within them multiple polities with different agendas This book describes the hegemonic transition between two major trading states Britain and America British decline began in the late Victorian era but the transition to American power was slow and other states also sought hegemony Transitions between trading states focus on economic struggle though struggles between trading and territorial states and between territorial states are marked by armed conflict In 1919 President Woodrow Wilson saw three arenas of competition developing between

Britain and America in international transportation international communication and petroleum But Britain was challenged economically by America as early as 1861 via the Morrill Tariff her economic hegemony was gone by the 1880s and she was defeated by 1947 From the 1880s on both America and Germany sought to replace Britain as hegemonic power not only through their implementation of protectionist economic policies but also through the adoption of revised versions of the world economy through new technologies and in the case of Germany military power Britain struggled to stay in place Britain's world economy was that of a pure trading state Maritime trade in organic materials was organized through global capitalism and control over submarine cable telecommunications rather than territorial possession America's rise was greatly helped by being a capitalist power in possession of a secure territorial base in the mid section of the North American continent but America suffered from multiple polities competing for power with the South particularly problematic Germany developed a radically new world economy that synthesized resources using organic chemistry German science and technology began to diffuse to American corporate laboratories before World War One After that war diffusion to American laboratories and universities was massive and helped secure American hegemony

Peter J. Hugill, 1999-04-09 He traces the steps that led to the British surrender of world hegemony to the United States at the end of World War II

The Sources of Military Doctrine Barry R. Posen, 2014-09-10 Barry R Posen explores how military doctrine takes shape and the role it plays in grand strategy that collection of military economic and political means and ends with which a state attempts to achieve security Posen isolates three crucial elements of a given strategic doctrine its offensive defensive or deterrent characteristics its integration of military resources with political aims and the degree of military or operational innovation it contains He then examines these components of doctrine from the perspectives of organization theory and balance of power theory taking into account the influence of technology and geography Looking at interwar France Britain and Germany Posen challenges each theory to explain the German Blitzkrieg the British air defense system and the French Army's defensive doctrine often associated with the Maginot Line This rigorous comparative study in which the balance of power theory emerges as the more useful not only allows us to discover important implications for the study of national strategy today but also serves to sharpen our understanding of the origins of World War II

**The Path to Blitzkrieg** Robert M. Citino, 2007-12-26 Essential background to the German blitzkrieg of World War II Complements the stories of panzer aces like Otto Carius and Michael Wittmann In the wake of World War I the German army lay in ruins defeated in the war sundered by domestic upheaval and punished by the Treaty of Versailles A mere twenty years later Germany possessed one of the finest military machines in the world capable of launching a stunning blitzkrieg attack against Poland in 1939 Well known military historian Robert M Citino shows how Germany accomplished this astonishing reversal and developed the doctrine tactics and technologies that its military would use to devastating effect in World War II
