Dent Jr.,2020-03-19 THE DOWNTURN IS HERE Harry Dent has been predicting for some time that we are about to enter a prolonged downturn one that will be looked at by historians as a classic economic depression due to demographic factors one of the largest generations in history the baby boomers are leaving the workplace either due to planned retirement or involuntarily due to layoffs or not being able to find work which will have a profound impact on all sectors of our economy This economic downturn could have been swifter and the pain much less had the Fed allowed it to happen naturally However due to several rounds of quantitative easing essentially pumping free money into the economy the Fed has not only delayed the inevitable but they have ensured that the downturn will be much longer and much more severe than it could have been Harry Dent believes that the Fed cannot keep the bubble from popping much longer and when it does pop every individual will need to be prepared for a period he calls an economic winter In this book you ll learn the personal and business strategies that will be essential to protect and preserve your assets and the few areas of the economy that will still do well during this winter period This is essential reading for everyone especially during a crisis **Storm of the Century** Willie Drye,2019-08 In 1934 hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West The Roosevelt Administration was making a genuine effort to help these down and out vets many of whom suffered from what is known today as post traumatic stress disorder But the attempt to help them turned into a tragedy The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low lying Florida Keys In late August 1935 a small stealthy tropical storm crossed the Bahamas causing little damage When it entered the Straits of Florida however it exploded into one of the most powerful hurricanes on record But US Weather Bureau forecasters could only guess at its exact position and their calculations were well off the mark The hurricane that struck the Upper Florida Keys on the evening of September 2 1935 is still the most powerful hurricane to make landfall in the US Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm s way The train was slammed by the storm surge soon after it reached Islamorada Only the 160 ton locomotive was left upright on the tracks About 400 veterans were left unprotected in flimsy work camps Around 260 of them were killed This is their story with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity **Journals of the Senate of Canada** Canada.
