The Archaeology Of The Transjordan In The Bronze And Iron Ages:

The Archaeology of the Transjordan in the Bronze and Iron Ages Rudolph Henry Dornemann, 1983 **The Late Bronze Age and Early Iron Ages of Central Transjordan** Patrick E. McGovern, Robin Brown, 1986 A critical transition period in the archaeology and history of Palestine the Late Bronze Age and Early Iron Age is described in detail from the perspective of a group of sites in the Baq ah Valley A major emphasis is on how scientific techniques including magnetic location of undisturbed burial deposits and analytical reconstruction of very early industries can be effectively integrated into an archaeological project Contrary to traditional views the evidence supports a relatively peaceful development within a single cultural tradition rather than the intrusion of a new people or segment of the existing population by invasion migration or revolt University Museum Monograph 65 **Excavations at Tall Jawa, Jordan, Volume 1 The Iron Age Town** Michèle Daviau, 2022-05-20 Located in a strategic position on the southern flank of the Ammonite hill country overlooking the Madaba Plain the earliest settlement at Tall Jawa dates to the Iron I period 1100 900 BC This settlement was redesigned during Iron Age II 900 600 BC and consisted of a walled town surrounded by a casemate style fortification system and a multi chambered gate complex Major buildings standing to the second storey are described in detail with their furnishings and contents A marked change in architecture ceramic technology and high status artefacts mark the high point of Tall Jawa during the period of the Assyrian empire 730 600 BC The major features of each structure are illustrated both in the text and on a CD ROM This volume presents the final report of six seasons of excavations at Tall Jawa in central Jordan The particular focus of this report is the architecture and stratigraphy of the settlements which occupied the site during the Iron Age 1100 600 BC

Coogan, 2018-07-17 James A Sauer was for many years the Director of the American Center of Oriental Research in Amman Jordan leading it to the preeminent place it now occupies as a research institution dedicated to the archaeology and history of Transjordan This volume honors him with more than 50 contributions from colleagues and friends With this volume the Harvard Semitic Museum inaugurates a new series entitled Studies in the Archaeology and History of the Levant The Oxford Handbook of the Archaeology of the Levant Margarete Laura Steiner, Ann E. Killebrew, 2014 This Handbook offers an overview of the archaeology of the Levant Written by leading scholars in the field it integrates the treatment of the archaeology of the region within its larger cultural and social context and focuses chronologically on the Neolithic through to the Persian periods

Early History of the Israelite People Thomas L. Thompson, 1992 Archaeological Sources **New Insights into the Iron Age Archaeology of Edom, Southern Jordan** Erez Ben-Yosef, Thomas E. Levy, Mohammad Najjar, 2014-12-31 Situated south of the Dead Sea near the famous Nabatean capital of Petra the Faynan region in Jordan contains the largest deposits of copper ore in the southern Levant The Edom Lowlands Regional Archaeology Project ELRAP takes an anthropological archaeology approach to the deep time study of culture change in one of the Old World s most important locales for studying

technological development Using innovative digital tools for data recording curation analyses and dissemination the researchers focused on ancient mining and metallurgy as the subject of surveys and excavations related to the Iron Age ca 1200 500 BCE when the first local historical state level societies appeared in this part of the eastern Mediterranean basin This comprehensive and important volume challenges the current scholarly consensus concerning the emergence and historicity of the Iron Age polity of biblical Edom and some of its neighbors such as ancient Israel Excavations and radiometric dating establish a new chronology for Edom adding almost 500 more years to the Iron Age including key periods of biblical history when David Solomon and the Egyptian pharaoh Shoshenq I are alleged to have interacted with Edom Included is a 7 gigabyte DVD with over 55 000 files of additional data and photographs from the project

Early History of the Israelite People Thomas L. Thompson, 2000-01-01 This is a groundbreaking book on the origins of Israel taking into account the contexts of geography anthropology and sociology and drawing on a careful analysis of archaeological and written evidence Thompson argues that none of the traditional models for the origin of biblical Israel in terms of conquest peaceful settlement or revolution are viable The ninth and eighth century BC State of Israel is a product of the Mediterranean economy The development of the ethnic concept of biblical Israel finds its context in history first at the time of the Persian renaissance The volume presents a clear historical context and an interpretative matrix for the Bible

The Transjordanian Palimpsest Jeremy M. Hutton, 2009-06-02 This study analyzes several passages in the Former Prophets 2 Sam 19 12 44 2 Kgs 2 1 18 Judg 8 4 28 from a literary perspective and argues that the text presents Transjordan as liminal in Israel's history a place from which Israel's leaders return with inaugurated or renewed authority It then traces the redactional development of Samuel Kings that led to this literary symbolism and proposes a hypothesis of continual updating and combination of texts beginning early in Israel's monarchy and continuing until the final formation of the Deuteronomistic History Several source documents may be isolated including three narratives of Saul's rise two distinct histories of David's rise and a court history that was subsequently revised with pro Solomonic additions These texts had been combined already in a Prophetic Record during the 9th c B C E with A F Campbell which was received as an integrated unit by the Deuteronomistic Historian The symbolic geography of the Jordan River and Transjordan which even extends into the New Testament was therefore not the product of a deliberate theological formulation but rather the accidental by product of the contingency of textual redaction that had as its main goal the historical presentation of Israel's life in the land

The Dawn of Israel Lester L. Grabbe, 2022-11-17 In this companion volume to his bestselling *Ancient Israel What Do We Know and How Do We Know It* Lester L. Bronze and early Iron Age the Egyptian New Kingdom the Amarna letters the Sea Peoples the question of the exodus the early settlements in the hill country of Palestine and the first mention of Israel in the Merenptah inscription Archaeology and the contribution of the social sciences both feature heavily as does inscriptional and iconographic material As such this volume provides a fascinating portrayal of ancient Israel and this definitive work by one of the world's leading biblical historians will be of interest to all students and scholars of biblical history

A Companion to the Archaeology of the Ancient Near East D. T. Potts, 2012-05-21 A COMPANION TO THE ARCHAEOLOGY OF THE ANCIENT NEAR EAST A Companion to the Archaeology of the Ancient Near East is a comprehensive and authoritative overview of ancient material culture from the late Pleistocene to Late Antiquity This expansive two volume work includes 58 new essays from an international community of ancient Near East scholars With coverage extending from Asia Minor the eastern Mediterranean and Egypt to the Caucasus Central Asia and the Indo Iranian borderlands the book highlights the enormous variation in cultural developments across roughly 11 000 years of human endeavor In addition to chapters devoted to specific regions and particular periods many contributors concentrate on individual industries and major themes in ancient Near Eastern archaeology ranging from metallurgy and agriculture to irrigation and fishing Controversial issues including the nature and significance of the antiquities market ethical considerations in archaeological praxis the history of the foundation of departments of antiquities and ancient attitudes towards the past make this a unique collection of studies that will be of interest to scholars students and interested readers alike

Early History of the Israelite People Thompson, 2024-07-15 Through a review of historical scholarship of the past century and an analysis of data drawn from archaeological excavations and surveys and from written and historical records from the late second and early first millennium the author reconstructs the historical basis of Israel's origins within the contexts of geography anthropology and sociology Thompson argues that none of the traditional models for the origin of biblical Israel in terms of conquest peaceful settlement or revolution are viable The indigenous nature of the Israelite people has roots that lead back to the late Neolithic period The Iron I period is not the period in which the origins of Israel are to be sought Rather the geographical and regional expansion of settlements in this period reflects an economic response to drought conditions that affected the entire East Mediterranean basin The ninth and eighth century states of Samaria and Jerusalem had separate and independent origins rooted in the development of a Mediterranean economy and an expansion of trade brought about by Assyrian interests The development of the ethnic concept of biblical Israel with its roots in the United Monarchy finds its context in history first at the time of the Persian renaissance guided by the theological concepts of exile and restoration Finally Thompson argues that biblical Israel is historically the creation of the tradition itself in the Persian period and attempts to outline both a historical context and an interpretative matrix for the Bible
