The Architecture Of Italy:

The Architecture of Modern Italy Terry Kirk, 2005-06-02 The history of design in Italy is explored in this authoritative and comprehensive work Design periods include the era of Piranesi the eclecticism of the 19th century the futurism of the early 20th century the dogmatic fascism of the interwar period the designs of Pier Luigi Nervi and on to the present day **Art and Architecture in Italy, 1600-1750** Rudolf Wittkower, Joseph Connors, Jennifer Montagu, 1999-01-01 This classic survey of Italian Baroque art and architecture focuses on the arts in every center between Venice and Sicily in the early high and late Baroque periods The heart of the study however lies in the architecture and sculpture of the exhilarating years of Roman High Baroque when Bernini Borromini and Cortona were all at work under a series of enlightened popes Wittkower's text is now accompanied by a critical introduction and substantial new bibliography This edition will also include color illustrations for the first time This is the second book in the three volume survey **The Architecture of Italy** Doreen Yarwood, 1970

Architecture in Italy, 1400 to 1600 Ludwig Heinrich Heydenreich, Wolfgang Lotz, 1974 In 15th century Florence Brunelleschi's buildings and Alberti's treatise first established the principles of Italian Renaissance architecture in practice and theory This survey ranges from Brunelleschi's dome for the Florence Cathedral to the works of Bramante and Leonardo in the Quattrocento **The Architecture of the Italian Renaissance** Peter Murray, 1986 Guides the reader from the earliest revivals of Roman style to the villas of Palladio and Vignola Each of the great architects is clearly and sensitively discussed 202 illustrations The Architecture of Modern Italy Terry Kirk, 2005-06-02 Modern Italy may sound like an oxymoron For Western civilization Italian culture represents the classical past and the continuity of canonical tradition while modernity is understood in contrary terms of rupture and rapid innovation Charting the evolution of a culture renowned for its historical past into the 10 modern era challenges our understanding of both the resilience of tradition and the elasticity of modernity We have a tendency when imagining Italy to look to a rather distant and definitely premodern setting The ancient forum medieval cloisters baroque piazzas and papal palaces constitute our ideal itinerary of Italian civilization The Campo of Siena Saint Peter's all of Venice and San Gimignano satisfy us with their seemingly unbroken panoramas onto historical moments untouched by time but elsewhere modern intrusions alter and obstruct the view to the landscapes of our expectations As seasonal tourist or seasoned historian we edit the encroachments time and change have wrought on our image of Italy The learning of history is always a complex task one that in the Italian environment is complicated by the changes wrought everywhere over the past 250 years Culture on the peninsula continues to evolve with characteristic vibrancy Italy is not a museum To think of it as such as a disorganized yet phenomenally rich museum unchanging in its exhibits is to misunderstand the nature of the Italian cultural condition and the writing of history itself *Architecture of Italy* Jean Castex, 2008-01-30 Covering all regions of Italy from Turin's Palace of Labor in northern Italy to the Monreale Cathedral and Cloister in Sicily and all periods of Italian architecture from the first century Colosseum in Rome to the Casa

Rustica apartments built in Milan in the 1930s this volume examines over 70 of Italy's most important architectural landmarks Writing in an authoritative yet engaging style Jean Castex professor of architectural history at the Versailles School of Architecture describes the features functions and historical importance of each structure Besides identifying location style architects and periods of initial construction and major renovations the cross referenced and illustrated entries also highlight architectural and historical terms explained in the Glossary and conclude with a useful listing of further information resources The volume also offers ready reference lists of entries by location architectural style and time period as well as a general bibliography a detailed subject index and a comprehensive introductory overview of Italian architecture Entries cover major architectural structures as well as smaller sites including everything from the well known dome of St Peter's at the Vatican to the Fiat Lingotto Plant in Turin Ideal for college and high school students as well as for interested general readers this comprehensive look at the architecture of Italy is an indispensable addition to every architectural reference collection

Art and Architecture in Italy 1250-1400 John White, John Reeves White, 1993-01-01 The 14th century in Italian art is a very rich one and Professor White's book gives architecture equal weight with painting and sculpture The story of the Gothic style and the prehistory of the Renaissance is given all the facts are related but also the works of art are described with insight and for their own sakes and not simply as data for fitting into schemes and theories Among the great names are those of Arnolfo di Cambio the Pisani Cavallini Cimabue Duccio Giotto Simone Martini and the Lorenzetti among the buildings S Croce S Maria Novella the cathedral and the Palazzo Vecchio in Florence and the cathedrals of Siena Orvieto and Milan as well as churches castles and civic buildings from the Val d'Aosta to Sicily The third edition of this work includes colour illustrations and incorporates textual revisions and an updated bibliography
