The Aristocrats:

The Aristocrats Gertrude Franklin Horn Atherton, 1901 **Los Angeles Magazine** ,2005-06 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian Capitals, Aristocrats, and Cougars Alan Livingstone MacLeod, 2021-10-05 A fascinating and in depth look at Victoria s largely unknown professional hockey players in the early twentieth century and the historical context in which they played For most hockey fans hailing from Canada s westernmost province the sport s most coveted prize the Stanley Cup has remained frustratingly elusive for nearly a century But what many people do not know is that the west coast and in particular the city of Victoria was once a hockey mecca where superstars flourished Hall of Famers were made and big victories yes even the Stanley Cup of 1925 were won Capitals Aristocrats and Cougars is a deep dive into the world of professional hockey in Victoria from 1911 to 1925 an era that saw forty nine men take their turns in one of the city s newly minted teams It was also an era of unprecedented social economic and political change a period that spanned the First World War and redefined Canada s national identity With meticulous research and encyclopedic knowledge author historian and consummate hockey fan Alan Livingstone MacLeod chronicles the key players coaches arena builders and team visionaries who contributed to this long forgotten chapter of hockey history and puts them all in the context of what was going on in the world at the time This in depth account is sure to delight history buffs and hockey fans alike The People [ed. by J. Barker]. Joseph Barker, **The Reformer's Almanac, and Companion to the Almanacs, 1848** Joseph Barker, 1848 Contains information about the Chartist Movement labor reform social reform and emigration to the United States **Maneuvers** Mark Wilkinson, 2023-10-28 As an international student Jake Dawson finds himself in the middle of a political overthrow The status quo is challenged and the seditionists take control of the economic engines of society Jake defies the shifting landscape ignores the cancellation of his visa and remains with his friends to stop the transformation of the foreign culture he s come to love A man of power and influence with whom Jake shares a common interest clashes with his ideology Their crossing paths force Jake to challenge his moral values and decide how far into the dark conflict he will travel He knows his lone journey will change the lives of those around him Does he have the right to do so While he s aware his action may help his friends he fails to see the drastic change he ll force upon of his own life His maneuvering will shift not only the landscape of the country but the history of their entire world **Politics and Philosophy** Mikko Lahtinen, 2009 Louis Althusser s interpretation of Niccol Machiavelli has never really been studied in any detail as an analysis of political action and intervention The same is also true for Althusser s notion of aleatory

materialism Instead these have conventionally been studied from the viewpoint of a philosophical perspective in which politics is excluded The objective of the present book thus runs against many of the prevailing views on Althusser Here the emphasis is placed on Althusser's advancement of a theory of materialist politics The main argument put forward is that for Althusser it was essential to reflect on how the conjunctural understanding of history and reality could offer a theoretical starting point for a subversive political strategy

Antwerp Royal Museum Annua l2013-2014 Paul Vandebroek, 2016-12-28 At various points over the course of the 20th century the Belgian State and its various ministries and provinces consciously chose to subsidise not only the fine arts but also the applied and decorative arts and in particular the art of weaving tapestry On the one hand orders were placed for World Exhibitions and for Belgian embassies and on the other competitions were held for tapestries to be hung in important locations such as the United Nations and NATO headquarters and the exhibitions that were organized by the various ministries over the years They provided an overview of the ways in which this branch of the arts was changing as well as representative work by the best tapestry designers The exhibitions organized by the provincial authorities give quite a different image There were the highly conventional exhibitions of Brabantine tapestries to promote the craftsmanship of the province and there were the more innovative textile exhibitions Taken as a whole the commissions competitions and exhibitions give a good overview of what was happening in Belgium in the field of tapestry over the period 1945-1980 They also make it clear what image was being projected abroad that of a country with rich traditions master craftsmanship in weaving and in the 1970s some affiliation to the latest developments in European textile art

Boethius' Consolation of Philosophy as a Product of Late Antiquity Antonio Donato, 2013-09-12 In the last fifty years the field of Late Antiquity has advanced significantly Today we have a picture of this period that is more precise and accurate than before However the study of one of the most significant texts of this age Boethius' Consolation of Philosophy has not benefited enough from these advances in scholarship Antonio Donato aims to fill this gap by investigating how the study of the Consolation can profit from the knowledge of Boethius' cultural political and social background that is available today The book focuses on three topics Boethius' social political background his notion of philosophy and its sources and his understanding of the relation between Christianity and classical culture These topics deal with issues that are of crucial importance for the exegesis of the Consolation The study of Boethius' social political background allows us to gain a better understanding of the identity of the character Boethius and to recognize his role in the Consolation Examination of the possible sources of Boethius' notion of philosophy and of their influence on the Consolation offers valuable instruments to evaluate the role of the text's philosophical discussions and their relation to its literary features Finally the long standing problem of the lack of overt Christian elements in the Consolation can be enlightened by considering how Boethius relies on a peculiar understanding of philosophy's goal and its relation to Christianity that was common among some of his predecessors and contemporaries

Solon Bernard Randall,2003-12-15 Describes the life and accomplishments of the Athenian leader who brought about major changes in the government and legal system that paved the way for democratic rule and places him in the context of his times **A History of Modern Tibet, Volume 3** Melvyn C. Goldstein,2013-12-07 Continues A history of modern Tibet Volume 2 The calm before the storm 1951 1955 *The Making of Modern English Society from 1850* Janet Roebuck,1982 In the second half of the nineteenth century and the first half of the twentieth century a variety of forces emerged which changed society in many profound and subtle ways The Making of Modern English Society from 1850 uses the findings of recent historical and sociological research contemporary literature and a wide range of historical sources to form a clear picture of the main patterns of the social changes which took place in this turbulent period Jane Roebuck shows how in these hundred years the whole fabric of society altered more rapidly and radically than in ant preceding century She gives and account of the dramatic change which occurred in all spheres of national liked She demonstrates how the drift towards socialism which began in the nineteenth century gathered momentum in the twentieth and how massive social chance was on produce of the two world wars In the field of economics the author considers the development of the maturing but still primitive industrial economy of the mid nineteenth century into a modern economy based on mass production and mass consumption She also describes the change in emphasis from desire for world power to concern for domestic prosperity and welfare services The Politics of Aristocratic Empires John H. Kautsky,2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order **Journal of Education and School World** ,1896 **BUREAUCRACY IN CHINA** YANAN WANG,2019-09-04 This book being included in China s Modern Academic

Work Series is the first scientific and systematic work analyzing Chinese traditional politics with Marxist methodology. Meanwhile it serves as the theoretical weapon in criticizing bureaucracy. Yanan Wang, the author of the book, interpreted bureaucracy which had been in China for over 2000 years through the lens of dialectical materialism. This is a book with well organized contents and meticulously arranged arguments. The layout of the book is organized as follows: First, the author gave definition as well as classification of bureaucracy which is followed by a brief comment on bureaucracy in other countries in the world. Second, the author demonstrated the forms of bureaucracy in China, made a profound analysis of the societal and economic foundations of bureaucracy in China, the feudal system of landlord economy, and expounded two leverages backing developed bureaucracy: Dual Taxation system and Imperial Examination system. Moreover, the author elaborated on the political and socio-economic lives of peasants, bureaucrats, and hereditary powerful family in traditional system of Chinese bureaucracy. The author finalized the book with a demonstration of the collapse of traditional old bureaucracy and the evolvement and transformation from the old to new bureaucracy, and with a forecast of the future of Chinese bureaucracy.

East Kalimantan Burhan Djabier Magenda, 2010. In recent studies of Indonesia's regional politics, one important aspect has largely been neglected: the role of the local aristocracies which dominated many of the regions outside Java from the precolonial period through to the formation of the independent Republic of Indonesia in 1949. In his work, Burhan Magenda has begun to remedy this neglect. He has studied the aristocracies in various regions of the Outer Islands from the colonial period through into the New Order government of President Suharto. In covering their history, he has examined the strategies used by the local aristocrats to survive and attempt to continue their domination of political power in their regions. The focus of this present monograph is East Kalimantan, where the local aristocracy was commercial in nature, tracing its origin back to the establishment of a spice trade route in the sixteenth century. The decline in the nineteenth century of the main harbor principality of Borneo, Banjarmasin, on the south coast, opened the way for other states on the island to play a greater role; in particular, the sultanate of Kutai in eastern Borneo. Burhan Magenda's well documented study opens a new perspective of fundamental importance to our understanding of both the past and current political and economic development of East Kalimantan and of its relationship with the central power in Jakarta. It provides an illuminating analysis of strategies by which members of the aristocracy have succeeded in surviving under widely varying conditions. Clearly, despite the challenges they have encountered over the past 45 years, these aristocrats have shown a surprising political resilience. Audrey Kahin, Ithaca, August 1991.
