The Army Nurse Corps In World War II:

G.I. Nightingales Barbara Tomblin, 2003-11-28 Weaving together information from official sources and personal interviews Barbara Tomblin gives the first full length account of the U S Army Nurse Corps in the Second World War She describes how over 60 000 army nurses all volunteers cared for sick and wounded American soldiers in every theater of the war serving in the jungles of the Southwest Pacific the frozen reaches of Alaska and Iceland the mud of Italy and northern Europe or the heat and dust of the Middle East Many of the women in the Army Nurse Corps served in dangerous hospitals near the front lines 201 nurses were killed by accident or enemy action and another 1 600 won decorations for meritorious service These nurses address the extreme difficulties of dealing with combat and its effects in World War II and their stories are all the more valuable to women s and military historians because they tell of the war from a very different viewpoint than that of male officers Although they were unable to achieve full equality for American women in the military during World War II army nurses did secure equal pay allowances and full military rank and they proved beyond a doubt their ability and willingness to serve and maintain excellent standards of nursing care under difficult and often dangerous conditions *And If I Perish* Evelyn Monahan, Rosemary Neidel-Greenlee, 2004-11-09 In World War II 59 000 women voluntarily risked their lives for their country as U S Army nurses When the war began some of them had so little idea of what to expect that they packed party dresses but the reality of service quickly caught up with them whether they waded through the water in the historic landings on North African and Normandy beaches or worked around the clock in hospital tents on the Italian front as bombs fell all around them For more than half a century these women s experiences remained untold almost without reference in books historical societies or military archives After years of research and hundreds of hours of interviews Evelyn M Monahan and Rosemary Neidel Greenlee have created a dramatic narrative that at last brings to light the critical role that women played throughout the war From the North African and Italian Campaigns to the Liberation of France and the Conquest of Germany U S Army nurses rose to the demands of war on the frontlines with grit humor and great heroism A long overdue work of history *And If I Perish* is also a powerful tribute to these women and their inspiring legacy *The Army Nurse Corps* Judith A. Bellafaire, 1993 **The Army Nurse Corps** Judith A. Bellafaire, 2015-07-30 World War II was the largest and most violent armed conflict in the history of mankind However the half century that now separates us from that conflict has exacted its toll on our collective knowledge While World War II continues to absorb the interest of military scholars and historians as well as its veterans a generation of Americans has grown to maturity largely unaware of the political social and military implications of a war that more than any other united us as a people with a common purpose Highly relevant today World War II has much to teach us not only about the profession of arms but also about military preparedness global strategy and combined operations in the coalition war against fascism During the next several years the U S Army will participate in the nation s 50th anniversary commemoration of World War II The commemoration will include

the publication of various materials to help educate Americans about that war The works produced will provide great opportunities to learn about and renew pride in an Army that fought so magnificently in what has been called the mighty endeavor World War II was waged on land on sea and in the air over several diverse theaters of operation for approximately six years The following essay on the critical support role of the Army Nurse Corps supplements a series of studies on the Army's campaigns of that war

They Called Them Angels Kathi Jackson,2000-06-30 A topical presentation of

firsthand accounts from some of the thousands of army and navy nurses who served both stateside and overseas during World War II this book tells the stories of the brave women who used any and all resources to save as many lives as possible

Although military nurses could have made more money as civilians thousands chose to leave the warmth and security of home to care for the young men who went off to war They were not saints but vibrant women whose performance changed the face of both military and civilian nursing Jackson s account follows both army and navy nurses from the time they joined the military through their active service to their lives today The jobs done by military nurses were valuable and varied Some worked in clean stateside hospitals Some found themselves nursing in tents or bombed out buildings Others entered hospitals so recently occupied by Axis forces that Nazi propaganda still covered the walls While often treating ordinary accidents and illnesses they were responsible for men with wounds so disfiguring that it took all of their willpower to maintain the hopeful attitude that the men so desperately required From the humorous account of a nurse in her forties who joined the war effort despite the smirks of those much younger to the sorrow shared when men and women were separated and became prisoners of war these are the stories of women who lived under extraordinary circumstances in an amazing time women who even today bear emotional scars along with their lasting pride **Army Nurse** Clora Harland,2021-06-08
