The Art Of Ajanta New Perspectives:

The Art of Ajanta Ratan Parimoo,1991 **Ajanta: History and Development, Volume 7 Bagh, Dandin, Cells and Cell Doorways** Walter Spink,2017-01-09 Walter Spink's intense concern with the development of the Ajanta caves and their architectural sculptural and painted features finds its most insistent reflection in his present richly illustrated study In part 1 Spink explains the many connections between the Bagh caves and its sister site Ajanta He particularly emphasizes the leading role that Bagh plays in establishing the short chronology and in the crucial matter of Buddhist shrine development from the aniconic to iconic forms of worship In part 2 along with his colleague Professor Naomichi Yaguchi who also provided the photographs and the newly informative plans the authors show how over the course of a mere decade better and better ways were discovered to fit the doors in the cells where the monks lived Such an analysis reveals the vigor of the conceptual and technical changes that characterize Ajanta's evolution from its start in the early 460s to its traumatic collapse in about 470 Moving from Ajanta's beginning to its ending the evolution of door fittings parallels the precise and dramatic development of Indian history in the remarkable course of the emperor Harisena's reign *The Art of Ajanta* Ratan Parimoo,1991 **Ajanta, Handbook of the Paintings** Dieter Schlingloff,2013 *Ajanta: History and Development, Volume 2 Arguments about Ajanta* Walter Spink,2018-11-12 Volume Two begins with writings by some of the most important critics of Walter Spink's conclusions interspersed with his own responses using a thorough analysis of the great Cave 26 to support his assertions The author then turns to matters of patronage and to the surprising fact that unlike most other Buddhist sites Ajanta was purely elitist developed by less than a dozen major patrons Its brief heyday traumatically ended however with the death of the great emperor Harisena in about 477 creating political chaos Ajanta's anxious patrons now joined in a headlong rush to get their shrines dedicated in order to obtain the expected merit before they fled the region abandoning their caves to the monks and local devotees remaining at the now doomed site These intrusive new patrons now filled the caves with their own helter skelter votive offerings paying no heed to the well laid plans of the years before A similar pattern of patronage is to be found in the redecoration of the earlier Hinayana caves where the careful planning of the work being done during Harisena's reign is suddenly interrupted by a host of individual votive donations The volume ends with a new and useful editing of Ajanta inscriptions by Richard S Cohen [New Perspectives on Brücke Expressionism](#) Christian Weikop,2017-07-05 *New Perspectives on Brücke Expressionism* Bridging History brings together highly renowned international art historians in a scholarly work that offers the first full length reassessment in English of the importance of the Brücke group to German modernism specifically and to international modernism more generally It challenges interrogates and updates existing orthodoxies in the field of Brücke studies by deploying new research combined with innovative interpretative approaches This is an exciting volume of essays with an interlinking tripartite structure that charts the significance of this pioneering German avant garde group in relation to various critical themes namely cultural and material

identity collectivity and selfhood as well as defamation and rehabilitation The book is unique in the field in that it seeks to excavate specific historical research relating to the activities of the Br cke as a bohemian yet nonetheless enterprising artists community and considers the contributions of the key members in relation to the dynamics of that group rather than simply on an individual basis It thoroughly explores the historiography of the Br cke artists reception throughout the turbulent history of the twentieth century up until the present day

The Vākāṭakas Hans T. Bakker, 2023-07-31 For now more than half a century scholars of the history of Western art have become familiar with the idea that art is embedded in a social and cultural context which imbues it with meaning and as such may be viewed as a source which generates knowledge concerning this context this again may result in a better understanding of the artefact itself This synthetic method of investigation known under the name of iconology has proved to be of great value in the research of the history of culture The present book is an essay in which the classical age of India is studied by exploring textual as well as archaeological sources that relate to the kingdom of the V k akas the southern neighbours of the Guptas in the fourth and fifth centuries AD A great number of inscriptions and Hindu sculptures have been discovered and published during the last two decades Among these inscriptions the one found in the Kevala Narasi ha Temple on Ramtek Hill R magiri deserves special mention as it throws a flood of light on the political history of the V k akas and their relationship with the Guptas This book draws on the new sculptural and epigraphical evidence in presenting a history of the V k aka kingdom The Hindu sculptures found in the eastern V k aka realm are brought together for the first time in an illustrated catalogue their findspots are surveyed their iconography is studied and their link with Ajanta is pointed out

The Vākāṭaka Heritage , 2021-11-01 In what is often considered to be the heyday of classical Indian culture the 4th and 5th centuries AD the dynasty of the V k akas emerged as one of the major patrons of religion and art Covering the greater part of the northern Deccan the V k aka kingdoms were situated at the crossroads of the main north south and west east caravan routes This situation in the heart of the South Asian subcontinent may partly explain the prosperity of the V k aka kingdoms and certainly accounts for their cultural diversity and

richness to which the Hindu temples on and around the Ramgiri Ramtek Hill and the Buddhist Caves at Ajanta still bear witness Here at the crossroads of the Indo Aryan north and Dravidian south the northern culture of the Gupta kingdom reached the Deccan and developed a character of its own The articles collected in this volume intend to augment our knowledge of how the Vedic culture came into being which forces and influences contributed to its flourishing and how its achievements informed the historical and cultural developments after its fall Richly illustrated contributions address the Vedic Heritage from a variety of disciplines history Kulke von Stietencron archaeology Kennet numismatics Raven political and religious history Willis Bakker iconography Brown Yokochi and art history Williams Spink Wood Stadtner and Nigam

Himalayan Bronzes Chandra L. Reedy,1997 Himalayan Bronzes focuses on a complete study of 340 medieval period copper alloy sculptures from the Himalayan regions of Afghanistan northern Pakistan Kashmir Himachal Pradesh Nepal and Tibet For more than 1 500 years artists in isolated valleys in and adjacent to the mountains of the Himalayas have created magnificent copper based statues representing deities and spiritual leaders of the Hindu Buddhist and Bon Po religions Author Chandra L Reedy s multidisciplinary approach to the study of these statues integrates methods and techniques from art history art conservation geology chemistry statistics archaeology and ethnography to answer art historical and anthropological questions Her guiding premise is that gathering and combining several types of information will result in more and better answers than any one type alone **Ajanta** Dieter Schlingloff,2000 Holy Ground: Where Art and Text Meet Hans T. Bakker,2019-12-16 The 31 selected and revised articles in the volume Holy Ground Where Art and Text Meet written by Hans Bakker between 1986 and 2016 vary from theoretical subjects to historical essays on the classical culture of India They combine two mainstreams the Sanskrit textual tradition including epigraphy and the material culture as expressed in works of religious art and iconography The study of text and art in close combination in the actual field where they meet provides a great potential for understanding The history of holy places is therefore one of the leitmotifs that binds these studies together One article The Ramtek Inscriptions II was co authored by Harunaga Isaacson two articles on Moksadharma 187 and 239 241 and The Quest for the Pasupata Weapon by Peter C Bisschop **A Dictionary of Archaeology** Ian Shaw,Robert Jameson,2008-04-15 This dictionary provides those studying or working in archaeology with a complete reference to the field **Popular Buddhist Texts from Nepal** Todd T. Lewis,2000-09-07 This book demonstrates how popular ritual texts and story narratives have shaped the religious life and culture of the only surviving South Asian Mahayana Buddhist society the Newars of Kathmandu It begins with an account of the Newar Buddhist community s history and its place within the religious environment of Nepal and proceeds to build around five popular translations several of which were known across Asia the Srngabheri Avadana the Simhalasarthabahu Avadana the Tara the Mahakala Vratas and the Pancaraksa Lewis documents how the respective texts have been domesticated in Nepal s art and architecture healing traditions and rituals He shows how they provide paradigmatic case studies that transcend the Nepalese context illustrating

universal practices or issues in all Buddhist communities such as gender relations and stupa veneration the role of merchants ethnicity violence devotions to celestial bodhisattvas by kings and women and the role of mantra recitations and healing rituals in the lives of Buddhists Accessions List, South Asia Library of Congress Office, New Delhi,1992 *Ajanta:*

Arguments about Ajanta Walter M. Spink,2005 Annotation Volume Two begins with the contentious yet challenging views of Hans Bakker and Richard Cohen both of whom are involved with an overview of Ajanta s development This is explored further in shorter essays by Karl Khandalavala Arvind Jamkhedkar and Brahmanand Deshpande At the same time the author presents a detailed analysis of the form and development of Cave 26 as a model upon which his other arguments are built

Bibliography of Asian Studies ,1996 **Archaeology as History in Early South Asia** Himanshu Prabha Ray,Carla M. Sinopoli,2004 Contributed articles presented at a workshop **Revealing India's Past** Ajay Mitra Shastri,R. K. Sharma,Devendra Handa,2005 Contributed articles
