good players but losing some matches to men below my class The year following my graduation the new Captain of my Alma Mater s team asked me if I would aid him in developing the squad for next year Well Fools rush in where angels fear to tread so I said Yes At that point my tennis education began The youngsters comprising our tennis squad all knew me well and felt at perfect liberty to ask me as many questions as they could think up I was besieged with requests to explain why Jones missed a forehand drive down the side line or Smith couldn t serve well or Brown failed to hit the ball at all Frankly I did not know but I answered them something at the moment and said to myself it was time I learned some fundamentals of tennis So I began to study the reasons why certain shots are missed and others made Why certain balls are hit so much faster though with less effort than others and why some players are great while most are only good I am still studying but my results to date have resulted in a definite system to be learned and it is this which I hope to explain to you in my book Tennis has a language all its own The idioms of the game should be learned as all books on the game are written in tennis parlance The technical terms and their counterpart in slang need to be understood to thoroughly grasp the idea in any written tennis account I do not believe in using a great deal of space carefully defining each blade of grass on a court or each rule of the game It gets nowhere I do advocate teaching the terms of the game
