

The Easterners

David Colum Reisman

The Easterners:

Myths and Legends of the Eastern Front Boris Sokolov, 2020-01-19 This English translation of the original Russian work is thought provoking challenging the official version of what happened during World War II Firetrench The memory of the Second World War on the Eastern Front still referred to in modern Russia as the Great Patriotic War is an essential element of Russian identity and history as alive today as it was in Stalin s time It is represented as a defining episode a positive historical myth that sustains the Russian national idea and unites the majority of Russian citizens As a result as Boris Sokolov shows in this powerful and thought provoking study the heroic and tragic side of the war is highlighted while the dark side the incompetent negligent and even criminal way the war was run is overlooked Although almost eighty years have passed since the defeat of Nazi Germany he demonstrates that many of the fabrications put forward during the war and immediately afterwards persist into the present day In a sequence of incisive chapters he uncovers the truth about famous wartime episodes that have been consistently misrepresented His bold reinterpretation should go some way towards dispelling the enduring myths about the Great Patriotic War It is necessary reading for anyone who is keen to understand how it continues to be distorted in Russia today **The Making of the Avicennan Tradition** David Colum

Reisman, 2002-12-01 Presenting a detailed analysis of the manuscripts contents structure and historical transmission of The Discussions this volume is a collection of correspondence written by eleventh century philosopher Avicenna his students and colleagues The first chapter contains a study of the extant manuscripts complete with palaeographical and codicological details The second chapter traces the transmission of the texts that now constitute The Discussions and offers convincing arguments for their posthumous collection The third chapter presents biographical studies of Avicenna s students Bahmanyar and Ibn Zayla and his colleague Ab l Q sim al Kirm n in order to develop the historical and intellectual contexts of these philosophical discussions The fourth chapter develops theories for the dating and original sequence of the individual letters on the basis of textual evidence **The Eastern Underwriter** ,1920 *Timor Leste* Andrea Katalin Molnar, 2009-12-17

This book provides a comprehensive overview of Southeast Asia s newest nation Timor Leste and the challenges it faces building a stable future It provides a comprehensive political history of the country covering the Portuguese period Indonesian occupation the United Nation transition period independence in 2002 through to the present day East and West René Guénon, 2004-05 In East and West Gu non diagnoses the fundamental abnormality of Western civilization vis vis the traditional civilizations of the East suggests avenues by which the West might be re oriented toward the fundamental metaphysical principles it has largely abandoned and outlines the possible role of a restoration of true intellectuality in this task Of course East and West are no longer what they were in Guenon s time The aggressive rationalism and materialism of post Christian Western culture has become a worldwide phenomenon and no longer corrodes the philosophical and cultural underpinnings of the West only it has infiltrated distorted forms of Eastern spirituality and metaphysics incited

fundamentalist reactions the world over and thanks to the pervasive internet wields previously unheard of influence And so today we have an East largely inflamed with a desire to surpass the West in materialism and a West sodden with moral and spiritual degeneracy Nonetheless fruitful exchanges between traditional Christianity and Eastern religions have also taken place on an unprecedented scale though marred by an ongoing temptation to ill informed syncretism In such a milieu Gu non s East and West read with an eye to events of recent decades delivers a stunning intellectual punch But the East is always the East the place where the sun rises the point of recollection and return to the Source And the West is always the West the place of the full manifestation of possibilities including the most degenerate of the tendency to dissipation and dissolution the point where the sun sets In postmodern global culture we are all more or less forced to be Westerners outwardly our only recourse under these circumstances may be to become Easterners within Harper's Magazine ,1922 *Globalization and National Identities* P. Kennedy,C. Danks,2001-06-05 Drawing on original research from social scientists working on twelve countries this book explores the key issues faced by nations and citizens as they struggle to rediscover reaffirm or reconstruct their sense of national identities in the face of globalizing forces Some nations and peoples experience the fragmentation of once certain identities as threatening and likely to generate political and social breakdown Others encounter globalization as a challenge which brings uncertainties but also opportunities for adaptation the evolution of hybrid identities or new forms of protest **Language and Identity in the Middle East and North Africa** Yasir Suleiman,2013-12-16 The question of identity in relation to language has hardly been dealt with in the Middle East and North Africa in spite of the centrality of these issues to a variety of scholarly debates concerning this strategically important part of the world The book seeks to cover a variety of themes in this area *Plugged: How The Beam and Hyperconnectivity Changed the Way We Think* Johnny B. Truant,Sean Platt,Sterling Gibson, PLUGGED is a future history written by fictional author Sterling Gibson a Malcolm Gladwell esque work of fiction written as if it were nonfiction exploring the sci fi world of The Beam Are We Who We Were Throughout the 21st Century our world at least for those of us inside the NAU has become increasingly connected So much so that we really are now thinking as a single fluid organism changing not just how we live our daily lives but who we are as a species In Sterling Gibson s newest thoughtful exploration one of the NAU s most renowned thinkers explores and illuminates how hyperconnectivity and The Beam have changed us forever *Nostradamus And Prophecies of The Next Milleneum* A.
