The Eclipse of Community; an Interpretation of American Studies, by Maurice R. Stein Maurice Robert Stein, Community Matters in Xinjiang, 1880-1949 Ildikó Bellér-Hann, 2008 Drawing on a wide range of historical sources presenting both emic and etic views this book offers an insight into aspects of social life among the Uyghur in pre socialist Xinjiang and substantiates the concept of tradition which modern Uyghurs draw upon to construct their ethnic identity

Community Development Abstracts Sociological Abstracts, inc., New York, 1964 *Anti-Capital: Human, Social and Cultural* Jacek Tittenbrun, 2016-04-15 The notion of capital has enjoyed a rich career in the social sciences its use across a range of subjects and in diverse academic and professional contexts having served to establish its conceptual status as given With particular attention to human and social capital including cultural capital this book traces the roots of this theoretical and conceptual trend to economics revealing the proliferation of various forms of capital to be based upon an encroachment of the conceptual apparatus of economics into other social sciences Offering an in depth critical analysis of the concepts of human and social capital as well as their surrounding theories Anti Capital Human Social and Cultural proposes an alternative theoretical framework whilst better explaining the realities that they mask in economic terms A rigorous exploration of the most popular forms of capital in the contemporary social sciences this book will be of interest to scholars and students of sociology political and social theory demography and economics

After the Disaster , The Americanization of Social Science David Haney, 2008-01-28 A highly readable introduction to and overview of the postwar social sciences in the United States The Americanization of Social Science explores a critical period in the evolution of American sociology s professional identity from the late 1940s through the early 1960s David Paul Haney contends that during this time leading sociologists encouraged a professional secession from public engagement in the name of establishing the discipline s scientific integrity According to Haney influential practitioners encouraged a willful withdrawal from public sociology by separating their professional work from public life He argues that this separation diminished sociologists capacity for conveying their findings to wider publics especially given their ambivalence towards the mass media

as witnessed by the professional estrangement that scholars like David Riesman and C Wright Mills experienced as their writing found receptive lay audiences He argues further that this sense of professional insularity has inhibited sociology's participation in the national discussion about social issues to the present day Urban People and Places Daniel Joseph Monti, Michael Ian Borer, Lyn C. Macgregor, 2014-02-10 Providing a thorough and comprehensive survey of the contemporary urban world that is accessible to students Urban People and Places The Sociology of Cities Suburbs and Towns will give balanced treatment to both the process by which cities are built i.e. urbanization and the ways of life practiced by people that live and work in more urban places i.e. urbanism unlike most core texts in this area Whereas most texts focus on the socio-economic causes of urbanization this text analyses the cultural component how the physical construction of places is in part a product of cultural beliefs ideas and practices and also how the culture of those who live work and play in various places is shaped structured and controlled by the built environment Inasmuch as the primary focus will be on the United States global discussion is composed with an eye toward showing how U.S. cities suburbs and towns are different and alike from their counterparts in Africa Asia and Central and South America
