The Economics And Politics Of Health:

The Economics and Politics of Health Rita Ricardo-Campbell, 2018-02-01 This study analyzes the entire health scene providing valuable insights into the working of the health care practices and offering policy recommendations for more effective distribution. Although the study focuses mainly on cost containment, it also explores the relationship between health and medical care, the expansion of the demand for medical care and the over-regulated supply and the economic differences between emergency and non-emergency care. The Politics of Health Legislation Paul J. Feldstein, 1988 Now in its third edition, *The Politics of Health Legislation: An Economic Perspective* has been significantly updated with the most current information regarding healthcare legislative and regulatory outcomes.

The Political Economy of Health and Healthcare Joan Costa-Font, Gilberto Turati, Alberto Batinti, 2020-05-28 The healthcare sector is one of the fastest growing areas of social and public spending worldwide and it is expected to increase its government shares of GDP in the near future. Truly global in its scope, this book presents a unified structured understanding of how the design of a country's health institutions influence its healthcare activities and outcomes. Building on the public choice tradition in political economy, the authors explore how patient/citizens interact with their country's political institutions to determine the organisation of the health system. The book discusses a number of institutional influences of a health system such as federalism, the nature of collective action, electoral competition, constitutional designs, political ideologies, the welfare effects of corruption and lobbying, and more generally the dynamics of change. Whilst drawing on the theoretical concepts of political economy, this book describes an institution-grounded analysis of health systems in an accessible way. We hope it will appeal to both undergraduate and graduate students studying health economics, health policy, and public policy. More generally, it can help health policy community to structure ideas about policy and institutional reform.

Application of the Political Economy to Rural Health Disparities Monica M. Taylor, 2018-03-13 This thought-provoking monograph analyzes the longstanding political and economic structures underlying entrenched health inequities in rural areas worldwide. Bypassing familiar data on the subject, it critiques existing approaches to why core social determinants of health are underrepresented in rural communities and synthesizes knowledge from health behaviors to spatial politics to make creative, equitable suggestions for intervention. The author reviews classic

economic and current sociopolitical theory to pinpoint governments decision making processes behind resource allocation as they translate into poor service access service quality and health outcomes In reply corrective policy measures are recommended to address these conditions at the root cause level in keeping with global goals of improved health for all Included in the coverage Rural health disparities the political economy Rural health disparities the economic argument Social disorganization in rural communities Rural health disparities and social disorder public policy responses The political economy an era of institutional cynicism With its forceful argument for dealing with a growing but often invisible crisis Application of the Political Economy to Rural Health Disparities makes a significant text for graduate and undergraduate programs in public and international affairs planning and public policy public health public administration and economics Public health and advocacy organizations will also benefit from the book s vision **Markets and Medicine** Susan Giaimo,2009-11-16 Explores diverse governmental and institutional solutions to containing health care costs **The Routledge Handbook of the Political Economy of Health and Healthcare** David Primrose,Rodney D. Loepky,Robin Chang,2024-02-28 This handbook provides a comprehensive and critical overview of the gamut of contemporary issues around health and healthcare from a political economy perspective Its contributions present a unique challenge to prevailing economic accounts of health and healthcare which narrowly focus on individual behaviour and market processes Instead the capacity of the human body to reach its full potential and the ability of society to prevent disease and cure illness are demonstrated to be shaped by a broader array of political economic processes The material conditions in which societies produce distribute exchange consume and reproduce and the operation of power relations therein influence all elements of human health from food consumption and workplace safety to inequality healthcare and housing and even the biophysical conditions in which humans live This volume explores these concerns across five sections First it introduces and critically engages with a variety of established and cutting edge theoretical perspectives in political economy to conceptualise health and healthcare from neoclassical and behavioural economics to Marxist and feminist approaches The next two sections extend these insights to evaluate the neoliberalisation of health and healthcare over the past 40 years highlighting their individualisation and commodification by the capitalist state and powerful corporations The fourth section examines the diverse manifestation of these dynamics across a range of geographical contexts The volume concludes with a section devoted to outlining more progressive health and healthcare arrangements which transcend the limitations of both neoliberalism and capitalism This volume will be an indispensable reference work for students and scholars of political economy health policy and politics health economics health geography the sociology of health and other health related disciplines Chapters 1-8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons CC BY-NC-ND 4.0 license *American Health Care Policy* RONALD L.
