Ed., 2015-02-23 **civilIESation** The Undeniable Truth is an in depth look at what we are who we are and the ultimate purpose of our existence The cosmos is a grand miracle and though we dont know its origin or purpose one thing does remain true and that is that the entire cosmos is made up of energy the energy of creation The Earth is a living biosphere that is a product of the atomic expansion of the universe The Earths containment system allows for the sustainability of life During the early stages of civilization life was reckless barbaric and uncontained It would take thousands of years for the primitive energy to evolve into a sophisticated civilized energy One of the key factors for a shift in human behavior was through the conception of ego energy The ego would be responsible for the governing power of civilization known as The Mass of Collective Energy **CivilIESation** explores illusionary perceptions projections and reflections of the ego **CivilIESation** is a presentation of conscious awareness The Art of War Sun Tzu, 2015-11-17 This Chinese treatise on war was written by Sun Tzu in the 6th century B C Each one of the 13 chapters is devoted to a different aspect of warfare making it the definitive work on military strategies and tactics of its time Studied by generals from Napoleon to Rommel it is still one of the most influential works on the subject and is required reading in most military academies around the world Although it was meant to be a practical guide to warfare in the age of chariots this seminal work on the philosophy of successful leadership is as applicable to contemporary business as it is to war and has become increasingly popular among today s corporate and political leaders This deluxe edition of this classic work includes a 21st century study guide filled with practices and exercises that will help you dig deep into the inherent wisdom of this powerful text **How to Win the War Against Yourself Today** Adam Spitler, 2025-08-01 **Insanity** best describes the year 2025 This presents a new challenge of preserving our own sanity This is an inside job This book was designed to help get on track and refine yourself in a positive way People are driven by fear and desperation which cannot end well We can empower ourselves for resilience and wellbeing This will create a forcefield of protection and all around security This book offers another view and pathway through the simple but complex realm of how your mind can keep you well A process made simple allowing for the ability to watch and observe emotions and thoughts The thought processing is a subconscious program dialed in and locked tight I m suggesting a quick release from thoughts that can drag you down and keep you down The book explains how the past is altered enroute to the now and forwarded to the future The author calls this the PPF loop He explains how this is the motion of time as most of us know it Real time is immovable and cannot be budged This is how and why we live within the program of the past which constantly gets forwarded to the future perpetually replicating what we do not want With guilt we suggest sin rather than seeing it as ego beating us down and keeping us stuck The book clears up the spring and breaks things down into a simple understanding of why we think the way we do Looking at the modern world and the chaos within it can lead to fear and panic How we interpret and perceive this will affect how we react and how

it ends Meditation cannot be achieved when too many people are telling you how to do it That s authoritarian Meditation is about freedom It s a process of stopping time and holding a thought or no thought To change time by realizing you can stop the movement from the past through the present into your future This transforms time into eternity The book looks at the chemistry of the brain and how it all ties together Wave energy which everything emits including light and smell which is translated into vibrations released and received by fellow humans and animals This relates to attraction success and well being The book helps to understand self sabotage Instinct and behavior Habit reversal dopamine and motivation personal dialog with yourself refining thoughts and how to shut things down as a means of self preservation Sugar and depression Nutrition and depression Addictions and destructions and how to wipe them out The dangers of boredom and the need for excitement laughter and play
