The American Nation Civil War To Present Annotated Teachers Edition

John A. Garraty, Mark C. Carnes

The American Nation Civil War To Present Annotated Teachers Edition:

Schoolbook Nation Joseph Moreau, 2010-02-22 A superior book Many readers will be surprised to see that today's arguments about history education follow the culture wars that go back to almost the beginning of the republic Moreau's writing is engaging with brilliant flashes of insight as well as balance and wit Gary B Nash Director of the National Center for History in the Schools Taking Frances FitzGerald's textbook study *America Revised* as a point of departure Joseph Moreau in *Schoolbook Nation* challenges FitzGerald's premise that the 1960s were the beginning of the end of the glory days of American history education Moreau recounts how in the late twentieth century cultural commentators such as historian Arthur Schlesinger Jr and politician Newt Gingrich preached that a new identity crisis had shaken American history in the sixties and that the grand unified view of our past had given way to various interest groups who dismantled the old national narrative while demanding a more inclusive curriculum for their children Moreau discovered however that American history while grand has never been unified Delving into more than 100 history books from the last 150 years the author reveals that the efforts of pressure groups to influence the history curriculum are nearly as old as the mustiest textbook For those who would influence textbooks and teaching Protestant elites in the 1870s Irish Americans in the 1920s and conservative politicians today the sky has always been falling according to Moreau *Schoolbook Nation* offers a history lesson of its own when the story of the past is written or rewritten truth is often a victim With its comprehensive treatment of the subjects of honesty and politics in the teaching of history this is an essential book on the side of truth in a complex debate *Books in Print Supplement*, 2002 **Data Book of Social Studies Materials and Resources**, 1989 **Lee and His Generals**

Lawrence Lee Hewitt, Thomas E. Schott, 2012-06-25 A legendary professor at Louisiana State University T Harry Williams not only produced such acclaimed works as *Lincoln and the Radicals* *Lincoln and His Generals* and a biography of Huey Long that won both the Pulitzer Prize and the National Book Award but he also mentored generations of students who became distinguished historians in their own right In this collection ten of those former students along with one author greatly inspired by Williams's example offer incisive essays that honor both Williams and his career long dedication to sound imaginative scholarship and broad historical inquiry The opening and closing essays fittingly enough deal with Williams himself a biographical sketch by Frank J Wetta and a piece by Roger Spiller that place Williams in larger historical perspective among writers on Civil War generalship The bulk of the book focuses on Robert E Lee and a number of the commanders who served under him starting with Charles Roland's seminal article *The Generalship of Robert E Lee* the only one in the collection that has been previously published Among the essays that follow Roland's are contributions by Brian Holden Reid on the ebb and flow of Lee's reputation George C Rable on Stonewall Jackson's deep religious commitment A Wilson Greene on P G T Beauregard's role in the Petersburg Campaign and William L Richter on James Longstreet as postwar pariah Together these gifted historians raise a host of penetrating and original questions about how we are to

understand America's defining conflict in our own time just as T. Harry Williams did in his. And by encompassing such varied subjects as military history, religion, and historiography, Lee and His Generals demonstrates once more what a fertile field Civil War scholarship remains. Lawrence Lee Hewitt is professor of history emeritus at Southeastern Louisiana University. Most recently he and Arthur W. Bergeron, now deceased, coedited three volumes of essays under the collective title *Confederate Generals in the Western Theater*. Thomas E. Schott served for many years as a historian for the U.S. Air Force and U.S. Special Operations Command. He is the author of *Alexander H. Stephens of Georgia: A Biography*, which won both the Society of American Historians Award and the Jefferson Davis Award.

History Education 101 Wilson J. Warren, D. Antonio Cantu, 2008-01-01

Historians and teacher educators nationwide are now engaged in discussions about the importance of history teacher preparation. Interest within the history profession about the teaching of K-12 history has increased significantly during the past two decades, particularly since the controversy over the National Standards for History's publication. This attention is evident not only in the historical professions' various publications but also in the federal government's multi-million-dollar Teaching American History Program and the No Child Left Behind Act. Professional historians are increasingly committed to improving the teaching of history at the K-12 level through many forms of collaboration.

History Education 101's thirteen essays are organized into three sections: context, practice, and new directions. The essays' contributors are tenured faculty who teach history teaching methods courses in colleges and universities throughout the United States. They focus on how history education has been and will be taught to new K-12 teachers throughout the United States. Perhaps more than ever, it is critical for Americans to understand the role of higher education in the preparation of future middle and high school history teachers. This book provides important insights for academics in history and education departments as well as other individuals who are concerned with the status and improvement of history teaching in the schools, particularly current and future elementary and secondary teachers and administrators.

The American Nation John A. Garraty, Mark C. Carnes, 1999-10

Remembering Reconstruction Carole Emberton, Bruce E. Baker, 2017-04-12

Academic studies of the Civil War and historical memory abound, ensuring a deeper understanding of how the war's meaning has shifted over time and the implications of those changes for concepts of race, citizenship, and nationhood. The Reconstruction era, by contrast, has yet to receive similar attention from scholars. *Remembering Reconstruction* ably fills this void, assembling a prestigious lineup of Reconstruction historians to examine the competing social and historical memories of this pivotal and violent period in American history. Many consider the period from 1863, beginning with slave emancipation, to 1877, when the last federal troops were withdrawn from South Carolina and Louisiana, an unfinished revolution for civil rights, racial identity formation, and social reform. Despite the cataclysmic aftermath of the war, the memory of Reconstruction in American consciousness and its impact on the country's fraught history of identity, race, and reparation has been largely neglected. The essays in *Remembering Reconstruction* advance and broaden our perceptions of the complex revisions in the nation's

collective memory Notably the authors uncover the impetus behind the creation of black counter memories of Reconstruction and the narrative of the tragic era that dominated white memory of the period Furthermore by questioning how Americans have remembered Reconstruction and how those memories have shaped the nation s social and political history throughout the twentieth century this volume places memory at the heart of historical inquiry

The Nation ,1890 **Gentlemen and Scholars** , Historians have dubbed the period from the Civil War to World War I the age of the university suggesting that colleges in contrast to universities were static institutions out of touch with American society Bruce Leslie challenges this view by offering compelling evidence for the continued vitality of colleges using case studies of four representative colleges from the Middle Atlantic region Bucknell Franklin and Marshall Princeton and Swarthmore A new introduction to this classic reflects on his work in light of recent scholarship especially that on southern universities the American college in the international context the experience of women and liberal Protestantism s impact on the research university According to Leslie nineteenth century colleges were designed by their founders and supporters to be instruments of ethnic denominational and local identity The four colleges Leslie examines in detail here were representative of these types each serving a particular religious denomination or lifestyle Over the course of this period however these colleges like many others were forced to look beyond traditional sources of financial support toward wealthy alumni and urban benefactors This development led to the gradual reorientation of these schools toward an emerging national urban Protestant culture Colleges that responded to and exploited the new currents prospered Those that continued to serve cultural distinctiveness and localism risked financial sacrifice Leslie develops his argument from a close study of faculties curricula financial constituencies student bodies and campus life The book will be valuable to those interested in American history higher education as well as the particular institutions studied This book continues the story started by Veysey s *Emergence of the American University* Its innovative approach should encourage scholars to study colleges and universities as parts of local communities rather than as freestanding entities Leslie s findings will substantially revise currently accepted accounts of the history of education in the late nineteenth century Louise L Stevenson Franklin and Marshall College W Bruce Leslie is professor of history at the State University of New York at Brockport

Teaching the Harlem Renaissance Michael Soto,2008 *Teaching the Harlem Renaissance Course Design and Classroom Strategies* addresses the practical and theoretical needs of college and high school instructors offering a unit or a full course on the Harlem Renaissance In this collection many of the field s leading scholars address a wide range of issues and primary materials the role of slave narrative in shaping individual and collective identity the long recognized centrality of women writers editors and critics within the New Negro movement the role of the visual arts and popular forms in the dialogue about race and cultural expression and tried and true methods for bringing students into contact with the movement s poetry prose and visual art *Teaching the Harlem Renaissance* is meant to be an ongoing resource for scholars and teachers as they devise a syllabus prepare a lecture or

lesson plan or simply learn more about a particular Harlem Renaissance writer or text *Lincoln, Inc.* Jackie Hogan, 2011-10-16 From Lincoln themed cocktails and waffle parlors to high tech museums and steamy romance novels the image of Abraham Lincoln so permeates the national imagination that we now find him in the unlikelyst of places In *Lincoln Inc* Jackie Hogan examines the uses and abuses of the sixteenth president in the United States today The book takes readers on a journey through the little white lies of Lincoln tourism and offers a front row seat as the martyr president is invoked in heated political debates over such issues as homosexuality abortion and the war on terror Readers enter classrooms that use an idealized Honest Abe to Lincolnize American schoolchildren And readers step into the alternate universe of Lincoln fiction that transforms the Rail Splitter by turns into a hapless time traveler a sentimental cyborg an axe wielding zombie slayer or a frontier heart throb But *Lincoln Inc* is more than a tour through the thriving Lincoln industry today Whether in staid biographies blockbuster films school pageants or sleeping pill advertisements Hogan shows how the use of the Lincoln image reveals the nation s shared fears and fascinations The book analyzes the ways we employ Lincoln today in our political ideological personal and national struggles the ways we simultaneously deify and commercially exploit him the ways he is packaged and sold in the marketplace of American ideas In learning about *Lincoln Inc* we learn about ourselves about who we think we are and who we wish we could be **Todd & Curti's the American Nation** Paul S. Boyer, 1995 This book explores seven broad themes central to American history global relations the Constitutional heritage democratic values technology and society cultural diversity geographic diversity and economic development They provide a context for the historical events which will help the student understand the connections between historical events and see how past events are relevant to today s social political and economic concerns Themes in American history Throughout the book the student is asked to think critically about the events and issues that have shaped U S history Helping the student develop critical thinking skills is a key goal of the text Critical thinking and the study of history **Lies My Teacher Told Me** James W. Loewen, 2008 Criticizes the way history is presented in current textbooks and suggests a more accurate approach to teaching American history **Writings on American History** ,1904 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1974 **The Student's Reference Work** Chandler Belden Beach, Graeme Mercer Adam, 1901 **Writings on American History, 1902** Ernest Cushing Richardson, Anson Ely Morse, 1904 **Summer Session** Purdue University, 1929 Announcement of courses *History Teacher's Magazine* ,1918 Children's Books in Print ,2007 ,2006
