**The American Store Window** Leonard S. Marcus, 1978      *The Professionalization of Window Display in Britain, 1919-1939* Kerry Meakin, 2024-09-05 This book provides the first comprehensive history of window display as a practice and profession in Britain during the dynamic period of 1919 to 1939 In recent decades the disciplines of retail history business history design and cultural history have contributed to the study of department stores and other types of shops However these studies have only made passing references to window display and its role in retail society and culture Kerry Meakin investigates the conditions that enabled window display to become a professional practice during the interwar period exploring the shift in display styles developments within education and training and the international influence on methods and techniques Piecing together the evidence visual and written about people events organisations exhibitions and debates Meakin provides a critical examination of this vital period of design history highlighting major display designers and artists The book reveals the modernist aesthetic developments that influenced high street displays and how they introduced passers by to modern art movements      *The American Stationer and Office Outfitter*, 1917      **The Culture of the Copy** Hillel Schwartz, 2013-12-27 A novel attempt to make sense of our preoccupation with copies of all kinds from counterfeits to instant replay from parrots to photocopies The Culture of the Copy is a novel attempt to make sense of the Western fascination with replicas duplicates and twins In a work that is breathtaking in its synthetic and critical achievements Hillel Schwartz charts the repercussions of our entanglement with copies of all kinds whose presence alternately sustains and overwhelms us This updated edition takes notice of recent shifts in thought with regard to such issues as biological cloning conjoined twins copyright digital reproduction and multiple personality disorder At once abbreviated and refined it will be of interest to anyone concerned with problems of authenticity identity and originality Through intriguing and at times humorous historical analysis and case studies in contemporary culture Schwartz investigates a stunning array of simulacra counterfeits decoys mannequins and portraits ditto marks genetic cloning war games and camouflage instant replays digital imaging parrots and photocopies wax museums apes and art forgeries not to mention the very notion of the Real McCoy Working through a range of theories on biological mechanical and electronic reproduction Schwartz questions the modern esteem for authenticity and uniqueness The Culture of the Copy shows how the ethical dilemmas central to so many fields of endeavor have become inseparable from our pursuit of copies of the natural world of our own creations indeed of our very selves The book is an innovative blend of microsociology cultural history and philosophical reflection of interest to anyone concerned with problems of authenticity identity and originality Praise for the first edition The author brings his considerable synthetic powers to bear on our uneasy preoccupation with doubles likenesses facsimiles replicas and re enactments I doubt that these cultural phenomena have ever been more comprehensively or more creatively chronicled A book that gets you to see the world anew again The New York Times A sprightly and disconcerting piece of cultural history Terence Hawkes London

Review of Books In The Culture of the Copy Schwartz has written the perfect book original and repetitive at once Todd Gitlin  
Los Angeles Times Book Review      **Designing the Department Store** Emily M. Orr,2019-11-28 The book builds an original argument for the department store as a significant site of design production and therefore offers an alternative interpretation to the mainstream focus on consumption within retail history Emily M Orr presents a fresh perspective on the rise of modern urban consumer culture of which the department store was a key feature By investigating the production processes of display as well as fascinating information about display making s tools and technologies the skills of the displayman and the meaning and context of design decisions which shaped the final visual effect are revealed In addition the book identifies and isolates display as a distinct moment in the life of the commodity and understands it as an influential channel of mediation in the shopping experience The assembly and interpretation of a diverse range of previously unexplored primary resources and archives yields fascinating new evidence showing how display achieved an agency which transformed everyday objects into commodities and made consumers out of passersby      **American Gas-light Journal and Chemical Repertory** ,1922

The Window in Photographs Karen Hellman,2013-10-01 Photographers have been irresistibly drawn to the window as a powerful source of inspiration throughout the history of the medium As one of the first camera subjects the window is literally and figuratively linked to the photographic process itself By bringing together key works arranged thematically rather than chronologically and presenting pairings within broader stylistic movements this volume examines the motif of the window as a symbol of photographic vision The Window in Photographs includes more than eighty color plates spanning the history of photography all drawn from the J Paul Getty Museum s permanent collection The theme is presented in a wide range of contexts from one of the earliest images by William Henry Fox Talbot or Julia Margaret Cameron s 1864 allegorical use of the motif to works by members of the Photo Secession including Gertrude K sebier and Fred Holland Day The documentary thread of the street photographer can be followed in Eug ne Atget s record of the old quartiers of Paris and later twentieth century photographs by William Eggleston Walker Evans and Lee Friedlander Alfred Stieglitz and Paul Strand chose to utilize the theme of the window for its more graphic possibilities More recently photographers Shizuka Yokomizo and Gregory Crewdson explored conceptual aspects of the window to investigate themes of voyeurism and invented narrative while Uta Barth and Yuki Onodera created more abstract visions      **The Urban Department Store in America,**

**1850-1930** Dr Louisa Iarocci,2014-12-28 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Iarocci reaches beyond the analysis of the brick and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces      "The Urban Department Store in America, 1850?930 " Louisa Iarocci,2017-07-05 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is

the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants *Proceedings of the American Pharmaceutical Association at the Annual Meeting* American Pharmaceutical Association. Annual Meeting, American Pharmaceutical Association, 1903 Vols for 1853 1911 include list of members **The American Artisan and Hardware Record** ,1915 **Visual Merchandising** Louisa Iarocci, 2017-07-05 Situated at the crossroads of visual culture and consumerism this essay collection examines visual merchandising as both a business and an art It seeks to challenge that scholarly ambivalence that often celebrates the spectacle but denies the agenda of consumerism The volume considers strategies in the imaging of selling from the mid nineteenth century to the present in terms of the visual interaction that occurs between the commodity and the consumer and between body and space Under the categories of Promotion Product and Place contributors to the volume examine the strategies in the presentation of retail goods and environments that range from print advertising to product design to store display and architecture Visual Merchandising The Image of Selling is located directly at the nexus of business practice and cultural myth where the spectator never loses sight of their status as buyer and the object of desire is always still a commodity *American Druggists' Circular and Chemical Gazette* ,1913 **The American Artisan** ,1915 **Architectures of Display** Anca I. Lasc, Patricia Lara-Betancourt, Margaret Maile Petty, 2017-09-11 Through an international range of case studies from the 1870s to the present this volume analyzes strategies of display in department stores and modern retail spaces Established scholars and emerging researchers working within a range of disciplinary contexts and historiographical traditions shed light on what constitutes modern retail and the ways in which interior designers architects and artists have built or transformed their practice in response to the commercial context *The American Gas Light Journal* ,1907 **Merchants Record and Show Window** ,1917 *The American Florist* ,1925 **SATISFACTION GUARANTEED REV PB** Strasser S, 2004-10-17 This sweeping history provides the reader with a better understanding of America s consumer society obsession with shopping and devotion to brands Focusing on the advertising campaigns of Coca Cola Kellogg s Wrigley s Gillette and Kodak Strasser shows how companies created both national brands and national markets These new brands eventually displaced generic manufacturers and created a new

desire for brand name goods The book also details the rise and development of department stores such as Macy s grocery store chains such as A P and Piggly Wiggly and mail order companies like Sears Roebuck and Montgomery Ward Foreign Agriculture ,1963
