Black Artists in Their Own Words Lisa E. Farrington, 2025 The first book to center Black artists voices on Black aesthetics revealing a century of evolving relationships to race identity and art What is Black art No one has thought harder about that question than Black artists yet their perspectives have been largely ignored Instead their stories have been told by intellectuals like W E B Du Bois and Alain Locke who defined a school of Black art in the early twentieth century For the first time Black Artists in Their Own Words offers an insightful corrective Esteemed art historian Lisa Farrington gathers writing spanning a century across the United States the Caribbean and the African continent including from renowned artists Henry Tanner Nancy Elizabeth Prophet Romare Bearden Wifredo Lam Renee Cox

and many more that reveals both evolutions and equivocations Many artists especially during the civil rights era have embraced Black aesthetics as a source of empowerment Others prefer to be artists first and Black second while some have rejected racial identification entirely Here Black artists reclaim their work from reductive critical narratives sharing the motivations underlying their struggles to create in a white dominated art world Harold Washington Naurice Roberts,1988 Follows the life and career of Chicago's first black mayor assessing his impact as lawyer state representative state senator mayor and national leader The 100 Greatest Americans of the 20th Century Peter Dreier,2012-06-26 A hundred years ago any soapbox orator who called for women's suffrage laws protecting the environment an end to lynching or a federal minimum wage was considered a utopian dreamer or a dangerous socialist Now we take these ideas for granted because the radical ideas of one generation are often the common sense of the next We all stand on the shoulders of earlier generations of radicals and reformers who challenged the status quo of their day Unfortunately most Americans know little of this progressive history It isn't taught in most high schools You can't find it on the major television networks In popular media the most persistent interpreter of America's radical past is Glenn Beck who teaches viewers a wildly inaccurate history of unions civil rights and the American Left The 100 Greatest Americans of the 20th Century a colorful and witty history of the most influential progressive leaders of the twentieth century and beyond is the perfect antidote
