trickster figure not only in cinema but in Western culture in general. Alongside original film analyses it touches upon a number of psychosocial issues including sovereignty of the individual, tricksterish qualities of the media and human relationships in the mercurial digital age. Further topics of discussion include common motifs in trickster narratives, the trickster and personal relationships, gonzo trickster and the art of comic insurrection. Employing a number of complementary approaches such as Jungian psychology, film semiotics, narrative structure theories, Victor Turner's concept of liminality and Mikhail Bakhtin's theory of the carnivalesque, this book is essential reading for students and scholars of film as well as anyone with an interest in analytical psychology and wider critical issues in contemporary culture. **The Sound of Music**

FAQ Barry Monush, 2015-02-01. FAQ The Sound of Music FAQ is a comprehensive encyclopedia-like reference to the world's most popular movie musical. Rather than focusing on the often-told stories of this classic movie, this book looks at the 1965 Oscar winner in relation to its source, including the true von Trapp family story and the Broadway musical from which it was derived. The Sound of Music FAQ explores such facts and trivia as the movie's phenomenal original run in cinemas during which it dominated the box office for a staggering amount of time and became the highest-grossing movie of the 1960s and of all time; its long and varied life on home video and primetime television; the bestselling soundtrack and many other related recordings; information behind the stunning Austrian locations; the critical feedback; the many stage revivals; and the continuing references, homages, reunions, and tributes related to it over the many decades since its release. Billboard

Her inspiring narrative offers compelling insights into daily life with Elijah's Asperger's syndrome and her own shadow syndrome, which affects many family members of autistics.

Encyclopedia of Television Series, Pilots and Specials Vincent Terrace, 1985. The Worst We Can Find Dale Sherman, 2023-06-15. Had you tuned in to the small television station KTMA on Thanksgiving Day 1988, you would have been one of the few witnesses to pop culture history being made. On that day, viewers in and around St. Paul, Minnesota, were treated to a genuine oddity in which a man and his robots, trapped within a defiantly DIY sci-fi set, cracked jokes while watching a terrible movie. It was a cockeyed twist on the local TV programs of the past in which a host would introduce old, cheaply licensed films. And though its origins may have been inauspicious, Mystery Science Theater 3000 captured the spirit of what had been a beloved pastime for generations of wags, wiseacs, and smartalecks and would soon go on to inspire countless more. *The Worst We Can Find* is a comprehensive history of and guide to MST3K and its various offshoots, including Rifftrax, Cinematic Titanic, and The Mads Are Back, whose lean crew of writers, performers, and puppeteers have now been

making fun of movies for over thirty years It investigates how riffing of films evolved recounts the history of these programs and considers how a practice guaranteed to annoy real life fellow moviegoers grew into such a beloved long lasting franchise As author Dale Sherman explains creative heckling has been around forever but MST3K and its progeny managed to redirect that art into a style that was both affectionate and cutting winning the devotion of countless fans and aspiring riffers
