The Animal Roundabout:

The Animal Roundabout Johnny Morris,1993 **Primitive Man** ,1928 The Mentality of Apes Wolfgang Kohler,2018-10-11 Wolfgang Kohler demonstrated that chimpanzees could solve problems by applying insight His research showed that the intellectual gap between humans and chimpanzees was much narrower than previously thought The work was revolutionary when originally published in 1917 in German but it was largely ignored for decades because it violated the conventional wisdom that animal behavior is simply the result of instinct or conditioning However Kohler s research showed this was not the case He used four chimps in his experiments Chica Grande Konsul and Sultan The experiments consisted of placing chimpanzees in an enclosed area and presenting them with a desired object that was out of reach In one experiment Kohler placed bananas outside Sultan s cage and two bamboo sticks inside his cage which needed to be put together to reach the bananas Kohler demonstrated the solution to Sultan by putting his fingers into the end of one of the sticks After some contemplation Sultan put the two sticks together and was able to reach the bananas As Jaan Valsiner shows in his introduction to this classic work Kohler s analysis of the intelligence of apes marked a turning point in the psychology of thinking and the continuing struggle between behaviorism and cognitive psychology Kohler achieved his two fold aim to determine the relationship between the intellectual capacity of higher primates and man and to gain insight into the nature of intelligent acts The Economy of the Animal Kingdom, Considered Anatomically, Physically, and Philosophically Emanuel Swedenborg,1845 Observations on Certain Parts of the Animal Economy John Hunter,1786 Observations on Certain Parts of the Animal Economy John Hunter,1786 Some observations of Hunter about the secondary sexual characteristics in birds the air sac in birds the structure of the placenta along with the original description of the olfactory nerves are included in this book **Observations on certain parts of the animal œconomy** John HUNTER (F.R.S.),1786
