

However, those for Britain and France are somewhat dated by publications of the past several years.

Flamm does not discuss how the computer industry grew out of the business machine industry, nor does he discuss, at the other end, the changed environment of the microcomputer. Neither is full justice given to the computer software and service industries, separate from the hardware systems industry. In all fairness, however, the account here should be considered in tandem with that in his companion volume, *Targeting the Computer* (Washington, DC, 1987). As a historian without formal training in economics, I will not try to assess Flamm's final section but will merely describe its contents: the pace of technological progress, economies of scale and scope, reaping the benefits of research investment, technological differentiation and competition, the Japanese challenge, the role of government in computer innovation, and implications for current high-technology industries.

The Anti-Redeemers: Hill-Country Political Dissenters in the Lower South from Redemption to Populism. By Michael R. Hyman. Baton Rouge: Louisiana State University Press, 1990. Pp. ix, 252. \$39.95, cloth; \$16.95, paper.

The economic, political, and social metamorphoses of the pre- to post-Civil War South have captured the attention of countless scholars, but surprisingly little work has concentrated on the predominantly white regions, typically referred to as the "Upcountry" or "Hill-Country." Although the "Cotton South" has traditionally borne the brunt of our research endeavors, historians have only recently begun to study the political economy of those areas that, in the antebellum period, sat on the periphery of the cotton economy. The works of Charles Flynn, Lacy Ford, Steven Hahn, and David Weiman have shown that in order to understand more completely the economic and political developments of the postbellum South, an analysis of the upcountry must be included. Michael Hyman's study of post-Reconstruction political dissent among ordinary upcountry citizens fits nicely into this burgeoning literature.

"The study's main objective is to understand the political ideology of white small producers in the post-Reconstruction South by examining their ideas and attitudes concerning the relationship of government to socioeconomic developments" (pp. 25-26). At the root of political dissent in the postwar upcountry, according to Hyman, was the rapid process of commercialization which exposed farmers to the usual villains: "increasing debt, decreasing self-sufficiency, and declining cotton prices" (p. 13). As market relations spread throughout the upcountry, elites ("merchants and related interests") began to consolidate their political power in order to capture control of the rapidly developing market economy. It was "the appropriation of political power by special interest groups [that] threatened the most cherished political beliefs of hill-country small producers, as well as their economic well-being" (p. 30). In order to demonstrate how and why these small producers reacted to the usurpation of political power in the post-Reconstruction South, Hyman studies a broad array of public policy issues of the 1870s and 1880s.

Perhaps the most interesting and convincing chapter focuses on the local political conflicts that surrounded the decision to support railroad construction and/or to build county roads and courthouses. In his telling of Jackson County's (Georgia) courthouse imbroglio of the late 1870s, Hyman cleverly portrays the political frustration that many upcountry residents must have felt as they were overcome by more powerful interests. The Jackson story is worthy of a brief retelling. In August 1877, Jackson County's grand jury recommended the building of a new courthouse and suggested that a suitable building could be constructed for \$6,000. Since the grand jury recommended building

Literary Censor ,1800 **The Left Hand of God** Paul Hoffman,2010-08-19 The Left Hand of God by Paul Hoffman is the gripping first instalment in a remarkable trilogy Listen The Sanctuary of the Redeemers on Shotover Scarp is named after a damned lie for there is no redemption that goes on there and less sanctuary The Sanctuary of the Redeemers is a vast and desolate place a place without joy or hope Most of its occupants were taken there as boys and for years have endured the brutal regime of the Lord Redeemers whose cruelty and violence have one singular purpose to serve in the name of the One True Faith In one of the Sanctuary s vast and twisting maze of corridors stands a boy He is perhaps fourteen or fifteen years old he is not sure and neither is anyone else He has long forgotten his real name but now they call him Thomas Cale He is strange and secretive witty and charming violent and profoundly bloody minded He is so used to the cruelty that he seems

immune but soon he will open the wrong door at the wrong time and witness an act so terrible that he will have to leave this place or die His only hope of survival is to escape across the arid Scablands to Memphis a city the opposite of the Sanctuary in every way breathtakingly beautiful infinitely Godless and deeply corrupt But the Redeemers want Cale back at any price not because of the secret he now knows but because of a much more terrifying secret he does not The Left Hand of God is a must read It is the first instalment in a gripping trilogy by Paul Hoffman Imagine if Phillip Pullman s His Dark Materials met Umberto Eco s Name of the Rose Fans of epic heroic fiction will love this series Praise for Paul Hoffman This book gripped me from the first chapter and then dropped me days later dazed and grinning to myself Conn Iggulden Tremendous momentum Daily Telegraph A cult classic Daily Express *Redeemer Nation* Ernest Lee Tuveson,1980-02-15 Ernest Tuveson here shows that the idea of the redemptive mission which has motivated so much of the United States foreign policy is as old as the Republic itself He traces the development of this element of the American heritage from its beginning as a literal interpretation of biblical prophecies Pointing to the application of the millenarian ideal to successive stages of American history notably apocalyptic events like the Civil War Tuveson illustrates its pervasive cultural influences with examples from the writings of Jonathan Edwards Harriet Beecher Stowe Timothy Dwight and Julia Ward Howe among others

The Anti-Theology of Jesus Michael Berner,2007-05 The Anti Theology of Jesus offers a brief yet compelling review of orthodox Christology as well as a critique of the modern culture that has re scripted the biblical Jesus to fit into its comfort zone Practical Life Class and the Color Line Joseph Gerteis,2007-10-24 This ms studies class and race boundaries and interracial political coalitions in two significant 19th century social movements the Knights of Labor and the Populist movement **Greenbackers, Knights of Labor, and Populists** Matthew Hild,2010-02-25 Historians have widely studied the late nineteenth century southern agrarian revolts led by such groups as the Farmers Alliance and the People s or Populist Party Much work has also been done on southern labor insurgencies of the same period as kindled by the Knights of Labor and others However says Matthew Hild historians have given only minimal consideration to the convergence of these movements Hild shows that the Populist or People s Party the most important third party of the 1890s established itself most solidly in Texas Alabama and under the guise of the earlier Union Labor Party Arkansas where farmer labor political coalitions from the 1870s to mid 1880s had laid the groundwork for populism s expansion Third party movements fared progressively worse in Georgia and North Carolina where little such coalition building had occurred and in places like Tennessee and South Carolina where almost no history of farmer labor solidarity existed Hild warns against drawing any direct correlations between a strong Populist presence in a given place and a background of farmer laborer insurgency Yet such a background could only help Populists and was a necessary precondition for the initially farmer oriented Populist Party to attract significant labor support Other studies have found a lack of labor support to be a major reason for the failure of Populism but Hild demonstrates that the Populists failed despite significant labor support in many parts of the South Even

strong farmer labor coalitions could not carry the Populists to power in a region in which racism and violent and fraudulent elections were tragically central features of politics
