**The Apple and the Arrow** Mary Marsh Buff,1967 Eleven year old Walter Tell awaits the skillful demonstration of his father William a Swiss freedom fighter who will shoot an apple from his head      **The Apple and the Arrow** Mary Buff,Conrad Buff,1951 Eleven year old Walter Tell awaits the skillful demonstration of his father William a Swiss freedom fighter who will shoot an apple from his head      From Game to War and Other Psychoanalytic Essays on Folklore Alan Dundes,2014-07-15 Although folklore has been collected for centuries its possible unconscious content and significance have been explored only since the advent of psychoanalytic theory Freud and some of his early disciples recognized the potential of such folklorist genres as myth folktale and legend to illuminate the intricate workings of the human psyche Alan Dundes is a renowned folklorist who has successfully devoted the better part of his career to applying psychoanalytic theory to the materials of folklore From Game to War offers five of his most mature essays on this topic Dundes begins with a comprehensive survey of the history of psychological studies of folklore in the United States He then presents a striking analysis of the spectrum of behavior associated with male competitive events ranging from traditional games such as soccer and American football to warfare He argues that all of these activities can be seen as forms of macho battle to determine which individual or team feminizes his or its opponents This is followed by a study of the saga of William Tell one of the most celebrated legends in the world A novel treatment of the biblical flood myth in terms of male pregnancy is the penultimate essay while the concluding article proposes an ingeniously imaginative interpretation of the underpinnings of anti-Semitism

**The Apple and the Arrow** Mary Buff,1979 Presents the legend of William Tell through the eyes of his son Walter that describes the boy's faith in his father his bravery in the face of danger and their struggles in the fight for Switzerland's freedom      Anger's Past Barbara H. Rosenwein,2018-10-18 Books have rarely been written about the history of any emotion except love and shame and this volume is the very first on the meaning of anger in the Middle Ages Well aware of modern theories about the nature of anger the authors consider the role of anger in the social lives and conceptual universes of a varied and significant cross section of medieval people monks saints kings lords and peasants They are careful to distinguish between texts the sources on which historians must rely and the reality behind the texts They are sensitive as well to the differences between ideals and normative behavior The first eight essays in the volume focus on anger in the Latin West while the last two turn to the fringes of Europe the Celtic and Islamic worlds for purposes of comparison Barbara H Rosenwein concludes the volume with an essay on modern conceptions of anger and their implications for understanding its role in the Middle Ages The essays reveal much that is new about medieval rituals of honor and status and illuminate the rationales behind such seemingly irrational practices as cursing feuding and the punishment of blinding      **The Mentor-world Traveler** ,1926      *The Rough Guide to Switzerland (Travel Guide eBook)* Rough Guides,2017-06-01 The Rough Guide to Switzerland is the ultimate guide to the country where tourism as we know it first took off The Alpine

landscape that so entranced Thomas Cook's pioneering group of package tourists in 1863 still draws tourists in their millions. Whether you're looking to check out the 365 days per year snowboarding scene in Zermatt, wander the medieval streets of exceptionally preserved Bern, or sleep on the straw in a Valais farm, you'll find plenty of insight and advice from our team of expert authors. Beyond the hinterlands, we uncover the surprisingly dynamic alternative scene in Switzerland's cities: its cutting-edge contemporary galleries and myriad film, music, and design festivals, not to mention the scientists at CERN attempting to discover the neutron-sized building blocks of our universe in the world's biggest experiment.
