The Arabian Peninsula Derek Hopwood, 2015-07-24 Although the Arabian Peninsula is the heartland of Islam and of the Arab world for decades it did not receive the attention it deserves from scholars and writers The School of Oriental and African Studies University of London and the Middle East Centre of St Antony's College Oxford jointly organized a series of seminars culminating in a conference at which the papers in this volume first published in 1972 were discussed Together they constitute an authoritative statement of our present knowledge of several areas of the Peninsula with particular emphasis on the Gulf States Three chapters trace the history of Oman from pre Islamic times to the recent past and in so doing emphasize the theme of continuing conflict between sultan and imam Other chapters examine the Gulf and the Peninsula from the standpoint of inter Arab and of international relations The third section of the book is devoted to a discussion of the increasing rate of social change in the area and the final section deals with problems of oil and state and of economic development

*Diversity across the Arabian Peninsula* Fabio Gasparini, Kamala Russell, Janet C.E. Watson, 2024-10-17 This edited volume brings together a diverse and rich set of contributions on the Arabian Peninsula Ranging from history field linguistics and cultural studies these essays address the diversity of languages ways of life and natural environments that have marked the region throughout its history The book stems from the intellectual exchange and collaboration fostered by a virtual workshop that met regularly in 2020-21 and which drew participants from within and beyond the academy The contributions gathered in this volume highlight the need for a better understanding of a region that hosts a vast amount of culturally and linguistically diverse material often in a precarious state of conservation Diversity Across the Arabian Peninsula argues for the importance of holistic community based and interdisciplinary approaches to linguistic endangerment and deep social and cultural changes there is no documentation of language without attention to language use the material lifeworld and its ecology and social and cultural setting Such research is enriched and made more impactful through collaboration with communities and scholars from the Global South The essays in this volume thus spearhead a contextualized study of South Arabian linguistic varieties and their connection with the natural and cultural world they inhabit

Nakhleh, 1979      **A Pocket Guide to the Arabian Peninsula**, 1981      **Beyond Exception** Ahmed Kanna, Amélie Le Renard, Neha Vora, 2020-08-15 Over the nearly two decades that they have each been conducting fieldwork in the Arabian Peninsula Ahmed Kanna Amélie Le Renard and Neha Vora have regularly encountered exoticizing and exceptionalist discourses about the region and its people political systems and prevalent cultural practices These persistent encounters became the springboard for this book a reflection on conducting fieldwork within a field that is marked by such representations The three focus on deconstructing the exceptionalist representations that circulate about the Arabian Peninsula They analyze what exceptionalism does how it is used by various people and how it helps shape power relations in the societies they study They propose ways that this analysis of exceptionalism provides tools for rethinking the concepts that have become commonplace structuring narratives and analytical frameworks within fieldwork in and on the Arabian Peninsula They ask What would not only Middle East studies but studies of postcolonial societies and global capitalism in other parts of the world look like if the Arabian Peninsula was central rather than peripheral or exceptional to ongoing sociohistorical processes and representational practices The authors explore how the exceptionalizing discourses that permeate Arabian Peninsula studies spring from colonialist discourses still operative in anthropology and sociology more generally and suggest that deexceptionalizing the region within their disciplines can offer opportunities for decolonized knowledge production      *The Arabian Peninsula*, 1969

**The Dilemma of Development in the Arabian Peninsula** Osama Abdul Rahman, 2023-07-07 This book first published in 1987 and by one of Saudi Arabia's most distinguished academics reviews the experience of the Arab oil producers in social economic and political development in the key period of the Seventies and Eighties It is broadly pessimistic about the prospects for future development and sceptical about past achievements It argues that the petro bureaucracy in the Arabian Peninsula has failed to establish the basic principles of effective development because it has been mesmerised by the vast oil revenues it has attempted to administer The book suggests that in many respects the oil revenues have obstructed serious development because they have made the Arabian economies totally dependent on one expendable resource and this has made them too vulnerable to external pressures and interests Furthermore the oil revenues have encouraged fantasy and wishful thinking which have skewed the development process and stimulated pseudo development The book makes clear that until the petro bureaucracy adopts a realistic approach to development there can be no prospect of real development in the Arabian Peninsula
