Coin-Operated Americans Carly A. Kocurek, 2015-09-30 Video gaming it's a boy's world right That's what the industry wants us to think Why and how we came to comply are what Carly A Kocurek investigates in this provocative consideration of how an industry's craving for respectability hooked up with cultural narratives about technology masculinity and youth at the video arcade From the dawn of the golden age of video games with the launch of Atari's Pong in 1972 through the industry wide crash of 1983 to the recent nostalgia bathed revival of the arcade *Coin Operated Americans* explores the development and implications of the video gamer as a cultural identity This cultural historical journey takes us to the Twin Galaxies arcade in Ottumwa Iowa for a close look at the origins of competitive gaming It immerses us in video gaming's first moral panic generated by Exidy's *Death Race* 1976 an unlicensed adaptation of the film *Death Race* 2000 And it ventures into the realm of video game films such as *Tron* and *WarGames* in which gamers become brilliant boyish heroes Whether conducting a phenomenological tour of a classic arcade or evaluating attempts then and now to regulate or eradicate arcades and coin op video games Kocurek does more than document the rise and fall of a now booming industry Drawing on newspapers interviews oral history films and television she examines the factors and incidents that contributed to the widespread view of video gaming as an enclave for young men and boys A case study of this once emergent and now revived medium became the presumed enclave of boys and young men *Coin Operated Americans* is history that holds valuable lessons for contemporary culture as we struggle to address pervasive sexism in the domain of video games and in the digital working world beyond

The Jewish Decadence Jonathan Freedman, 2021-04-19 As Jewish writers artists and intellectuals made their way into Western European and Anglo American cultural centers they encountered a society obsessed with decadence An avant garde movement characterized by self consciously artificial art and literature philosophic pessimism and

an interest in nonnormative sexualities decadence was also a smear whereby Jews were viewed as the source of social and cultural decline In *The Jewish Decadence* Jonathan Freedman argues that Jewish engagement with decadence played a major role in the emergence of modernism and the making of Jewish culture from the 1870s to the present The first to tell this sweeping story Freedman demonstrates the centrality of decadence to the aesthetics of modernity and its inextricability from Jewishness Freedman recounts a series of diverse and surprising episodes that he insists do not belong solely to the past but instead reveal that the identification of Jewishness with decadence persists today [Archiveology](#) Catherine Russell,2018-03-15 In *Archiveology* Catherine Russell uses the work of Walter Benjamin to explore how the practice of archiveology the reuse recycling appropriation and borrowing of archival sounds and images by filmmakers provides ways to imagine the past and the future Noting how the film archive does not function simply as a place where moving images are preserved Russell examines a range of films alongside Benjamin s conceptions of memory document excavation and historiography She shows how city films such as Nicole V dr s s Paris 1900 1947 and Thom Andersen s Los Angeles Plays Itself 2003 reconstruct notions of urban life and uses Christian Marclay s The Clock 2010 to draw parallels between critical cinephilia and Benjamin s theory of the phantasmagoria Russell also discusses practices of collecting in archiveological film and rereads films by Joseph Cornell and Rania Stephan to explore an archival practice that dislocates and relocates the female image in film In so doing she not only shows how Benjamin s work is as relevant to film theory as ever she shows how archiveology can awaken artists and audiences to critical forms of history and memory *Explorations in the Sociology of Consumption* George Ritzer,2001-06-04 In this book one of the leading social theorists and cultural commentators of modern times turns his gaze on consumption George Ritzer author of the famous McDonaldization Thesis demonstrates the irrational consequences of the rational desire to consume and commodify He examines how McDonaldization might be resisted and situates the reader in the new cultural spaces that are emerging in society shopping malls casino hotels Disneyfied theme parks and Las Vegas the new cathedrals of consumption as he calls them The book shows how new processes of consumption relate to globalization theory In illuminating discussions of the work of Thorstein Veblen and the French situationists Ritzer unearths the roots of problems of consumption in older sociological traditions He indicates how transgression is bound up with consumption through an investigation of the obscene in popular and postmodern culture **Cities and Consumption** Mark Jayne,2005-12-09 *Cities and Consumption* investigates the mutual and dynamic relationship between urban development and consumption how are cities moulded by consumption how is consumption moulded by cities **The Routledge History of the Senses** Andrew Kettler,Will Tullett,2025-06-26 The *Routledge History of the Senses* presents readers with an overview of the field As well as pointing to directions for the future of the discipline it illustrates the extent to which the subject offers a considerable space for the exploration of diverse historical topics through the lens of sensory experience The handbook brings together essays and case studies from some of the leading academics on the history of the

senses Together they not only chart topics and arguments in existing scholarship but introduce fresh methodologies for future analyses Specifically the chapters collectively show that the senses of the historical body often portray the intensity of the invasion of capital upon the functions of the mind throughout global history As a global history this work arrives at a time when many sensory historians are looking for a touchstone for moving beyond the often heavily Western frameworks that dominate the existing literature on the historical senses Not only will this book appeal to students and scholars of the history of senses visual studies art history food studies and many of the social sciences but individual chapters also offer useful reading material for a wide range of history modules and contemporary topics **Without and Within** Mark Pimlott,2007

The Politics of Sex, Race and Working-Class Slang in Late Second Empire French Caricature Russell Stephens,2025-08-11 This study examines caricatures as they appeared within popular Parisian magazines in mid 19th century France at the time of the 1867 World s Fair Chapters compare the comic mockery of several of the most important satirists of this time including Am d e de No or Cham 1818 1879 as he was more popularly known and Honor Daumier 1808 1879 A major theme within the analysis is how these caricaturists secretly used argot street slang as documented in two slang dictionaries by Parisian litterateur Alfred Delvau 1825 1867 within their comic images to carry hidden encrypted messages in order to evade the censorship of the day The book focuses primarily on caricatures of Chinese visitors who were part of the 1866 diplomatic visit to Paris and images of Chinese at the 1867 Exposition Universelle showing how the satires which were published by Cham used argot to create highly sexualised images that were often racist in nature In contrast the volume proposes that Daumier used slang in his caricatures to challenge racism and to make secret reference to current political leaders and politics The book will be of interest to scholars working in art history visual culture media studies and communication studies

Walter Benjamin and the Critique of Political Economy Duy Lap Nguyen,2022-07-14 Exploring the connections between Walter Benjamin s philosophy of history and a Marxian Critique of Political Economy Duy Lap

Nguyen analyses Benjamin's early writings and their development into a distinct understanding of historical materialism. Benjamin's historically materialist conception of history is shown to be characterised by a focus on the religion of capitalism, the mythology of the state and messianic time. Revealing these factors, Nguyen joins up Benjamin's philosophical critique of the Kantian conception of history alongside the historical trajectory of capitalism he subscribed to. Influenced by the theory of fascism outlined by German Marxist theorist Karl Korsch, we see how Benjamin's own theory of revolution and redemption in capitalist society developed into a sophisticated critique. Essential to Benjamin's materialist critique was a recognition of the fallibility of the Enlightenment notion of progress as well as the need to overturn the political and economic catastrophes which enable capitalism and fascism to thrive. In mapping the exact course of Benjamin's critical historical materialism, Nguyen fully explicates the unique contribution he made to western Marxism.
