The Multidimensionality of Regions in World Politics Paul J. Kohlenberg, Nadine Godehardt, 2020-09-02 This book examines what counts regarding the role and conceptualization of regions in world politics It presents a fresh look at which narratives awake persist fall dormant or re emerge amidst diverse interlocking processes of environmental technological and global political changes It puts forward a thorough and multidimensional conceptualization of regions as embedded in changing overlapping environments and requires more attention to regions shifting materiality temporality and technological underpinnings Combing the approaches questions and analyses of Critical IR and Political Geography it calls for a renewed emphasis on the puzzle of how the contextual environment of regions may become more or less multidimensional or how some aspects of a region s contextual environment may be mutually constitutive in non intuitive ways Ultimately it sheds light on the politics of regions and the regional scale in international politics in order to overcome the often underlying territorial fixity of territory and space within IR approaches This book will be of key interest to scholars and students of international relations international political sociology political geography regionalism geopolitics and area studies
ARCHIT OF REGIONS Suzanne K. Fish, Stephen A. Kowalewski, 1990-02-17 Eight case studies present a variety of environments and cultural contexts including the Basin of Mexico the Valley of Oaxaca and Mesopotamia as well as the smaller scale societies of West Texas the Southwestern desert and the woodlands of the eastern United States
Reimagining Regional Analyses Tina L. Thurston, 2009-10-02 Reimagining Regional Analysis explores the interplay between different methodological and theoretical approaches to regional analysis in archaeology The past decades have seen significant advances in methods and instrumental techniques including geographic information systems the new availability of aerial and satellite images and greater emphasis on non traditional data such as pollen soil chemistry and botanical remains At the same time there are new insights into human impacts on ancient environments and increased recognition of the importance of micro scale changes in human society These factors combine to compel a reimagining of regional archaeology The authors in this volume focus on understanding individual trajectories and the historically contingent relationships between the social the economic the political and the sacred as reflected regionally Among topics considered are the social construction of landscape use of spatial patterning to interpret social variability paleoenvironmental reconstruction and human impacts and social memory and social practice This book opens a discourse around the spatial patterning of the contingent recursive relationships

between people their social activities and the environment **Regional Archaeology in the Muisca Territory** Carl Henrik Langebaek Rueda,1995 Regional settlement analysis providing demographic and economic reconstructions of the chiefdoms encountered by the Spanish Conquistadores in the eastern Andean cordillera of Colombia and of the earlier societies from which they sprang The full regional settlement dataset is provided electronically Complete text in English and Spanish

The Pleistocene Old World Olga Soffer,2013-11-11 Regional approaches to past human adaptations have generated much new knowledge and understanding Researchers working on problems of adaptations in the Holocene from those of simple hunter gatherers to those of complex sociopolitical entities like the state have found this approach suitable for comprehension of both ecological and social aspects of human behavior This research focus has however until recently left virtually un touched a major spatial and temporal segment of prehistory the Old World during the Pleistocene Extant literature on this period by and large presents either detailed site specific accounts or offers continental or even global syntheses that tend to compile site specific information but do not integrate it into whole c nstructs of functioning so ciocultural entities This volume presents our current state of knowledge about a variety of regional adaptations that charaeterized prehistoric groups in the Old World before 10 000 B P The authors of the chapters consider the behavior of humans rather than that of objects or features and present data and models for variaus aspects of past cultures and for culture change These presentations integrate findings and understandings derived from a number of related disciplines actively involved in researching the past Data and interpretations are offered on a range of Old world regions during the PaLeolithic induding Africa Asia Australia and Europe and chronological coverage spans from the Early to Late Pleisto cene

Archaeological Research in the Lesser Slave Lake Region Raymond Joseph LeBlanc,2004-01-01 This book examines evidence gathered from 81 sites in the region and includes information on occupation from late Holocene times as well as ancient trade networks cultural influences from north and south and the Cree living in the region at the time of European contact Published in English **Hinterlands and Regional Dynamics in the Ancient Southwest** Alan P. Sullivan,James Bayman,2007-01-01 Hinterlands and Regional Dynamics in the Ancient Southwest is the first volume dedicated to understanding the nature of and changes in regional social autonomy political hegemony and organizational complexity across the entire prehistoric American Southwest With geographic coverage extending from the Great Plains to the Colorado River and from Mesa Verde to the international border the volume s ten case studies synthesize research that enhances our understanding of the ancient Southwest s highly variable demographic land use and economic histories For this volume hinterlands are those areas whose archaeological records do not disclose the ceramic architectural and network evidence that initially led to the establishment of the Hohokam Chaco and Casas Grandes regional systems Employing a variety of perspectives such as the cultural landscapes approach heterarchy and the common pool resource model as well as technical methods such as petrographic and stylistic attribute analyses the volume s contributors explore variation in hinterland

identities subsistence ecology and sociopolitical organization as regional systems expanded and contracted between the 9th and 14th centuries AD The hinterlands of the prehistoric Southwest were home to a substantial number of people and were often used as resource catchments by the inhabitants of regional systems Importantly hinterlands also influenced developments of nearby regional systems under whose footprint they managed to retain considerable autonomy By considering the dynamics between hinterlands and regional systems the volume reveals unappreciated aspects of the ancient Southwest s peoples and their lives thereby deepening our awareness of the region s rich and complicated cultural past

Community Heritage in the Arab Region Arwa Badran, Shatha Abu-Khafajah, Sarah Elliott, 2022-11-07 This book investigates approaches to community heritage within the Arab region and the underlying theories associated with these approaches It aims within the context of the region to define community and heritage as well as examine the emergence and development of this field The volume s contributors deploy a wealth of case studies from the Middle East and North Africa to provide a unique forum for discussion comparability analysis and deeper understandings of current trends in community heritage In particular the volume explores the relationship between communities and their heritage the meanings and values placed upon it the nature and degree of community participation and engagement in its interpretation and management and how its different registers affect and produce sometimes unexpected community heritage formations It also examines the level of responsibility held within the profession towards this essentially democratic process of public participation in their heritage in a region shaped by controversial histories political turmoil and tourism driven economies The volume builds on current research and practice in community heritage globally by debating and re centring a suite of familiar and new issues related to hitherto under researched regional specific methodologies and developing fresh insight into the theoretical underpinning of these practices It will be of value to heritage scholars and practitioners as well as those interested in politics identity education and the dynamics of heritage based sustainable development

The end of the lake-dwellings in the Circum-Alpine region Francesco Menotti, 2015-07-30 After more than 3500 years of occupation in the Neolithic and Bronze Age the many lake dwellings around the Circum Alpine region suddenly came to an end Throughout that period alternating phases of occupation and abandonment illustrate how resilient lacustrine populations were against change cultural environmental factors might have forced them to relocate temporarily but they always returned to the lakes So why were the lake dwellings finally abandoned and what exactly happened towards the end of the Late Bronze Age that made the lake dwellers change their way of life so drastically The new research presented here draws upon the results of a four year long project dedicated to shedding light on this intriguing conundrum Placing a particular emphasis upon the Bronze Age a multidisciplinary team of researchers has studied the lake dwelling phenomenon inside out leaving no stones unturned enabling identification of all possible interactive socioeconomic and environmental factors that can be subsequently tested against each other to prove or disprove their validity By refitting the various pieces of the jigsaw a plausible but also rather

unexpected picture emerges **Cultural Transition in the Chilterns and Essex Region, 350 AD to 650 AD** John T. Structure and Regional Diversity in the Meadowood Interaction Sphere Karine Taché, 2011-01-01 This monograph offers the first major synthesis of the Meadowood phenomenon one of the earliest and largest interaction spheres in northeastern North America This volume breathes new life into our understanding of the Early Woodland phenomenon 3000-2400 BP

The Roman West, AD 200-500 Simon Esmonde Cleary, 2013-03-07 This book describes and analyses the development of the Roman West from Gibraltar to the Rhine using primarily the extensive body of published archaeological evidence rather than the textual evidence underlying most other

studies It situates this development within a longer term process of change proposing the later second century rather than the third century crisis as the major turning point although the latter had longer term consequences owing to the rise in importance of military identities Elsewhere more traditional forms of settlement and display were sustained to which was added the vocabulary of Christianity The longer term rhythms are also central to assessing the evidence for such aspects as rural settlement and patterns of economic interaction The collapse of Roman imperial authority emphasised trends such as militarisation and regionalisation along with economic and cultural disintegration Indicators of barbarian Germanic presence are reassessed within such contexts and the traditional interpretations questioned and alternatives proposed

The Archaeology Of Regions: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. The Archaeology Of Regions : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. The Archaeology Of Regions : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
