The Architects Of London:

Architects and Architecture of London Kenneth Allinson, 2008-09-24 Architects and Architecture of London is a visual highly illustrated guide to London's greatest historic buildings and the lives of the architects who designed them Read about the architectural forefathers of London such as Inigo Jones and Sir Christopher Wren Nicholas Hawksmoor Robert Adam and John Nash Butterfield and Street Blomfield and Lutyens Learn about those who in the twentieth century have helped to form the London we now know right up to familiar names such as Rogers and Foster And then there are the others who in amongst the great and remembered architects stand as the forgotten majority talented architects such as Arthur Davis who designed the Ritz hotel In the constantly changing patterns of London's architecture why do some buildings stand as testament to their architect's while others obscure their names from history The book is organised by architect to provide an easy point of reference for today's designers and students and all those interested in the architectural history of London Architects and Architecture of London illuminates the city's two thousand year architectural history through the lives and works of historic architects who remain salient and significant in London's contemporary architectural geography What the press said about Ken Allinson's London's Contemporary Architecture An Explorer's Guide Highly recommended the book is crammed with maps and colour pictures with clear explanations about the design of the buildings Evening Standard The perfect accompaniment to a walk around the capital Homes and Gardens

The Architects of London and Their Buildings from 1066 to the Present Day Alastair Service, 1979 *The Architects and Architecture of London* Kenneth Allinson, 2008 The guide explains why London is the way it is It helps you link the historical and contemporary into a single pattern of significant places spaces and buildings It highlights old and new as a lively and vibrant pattern of on going creative activity rooted in established urban patterns

The Architects of London and Their Buildings from 1066 to the Present Day Alastair Service, 1979 **Architects' London Houses** Miranda H. Newton, 1992 This book details a selection of houses designed and lived in by contemporary architects in a capital city giving an insight into how and why architects design as they do It reveals the values and choices of modern designers freed from the inhibition of responsibility to an outside client Thirty houses built from the end of the 1930s have been chosen to illustrate a range of house types across half a century and representing different urban locations in London By concentrating solely on houses in London the constraints of land and construction costs density privacy and planning restrictions are comparable The approach of the book is both accessible and informative A brief biography of each architect puts the design in context and a general description of each site includes history topography and social context The architect's brief is considered and the design solution is fully described external form planning geometry construction interior design and exterior spaces are all discussed and comparisons are made between the houses The illustrations include drawn plans sections and original sketches or details by the architects the photographs show elevations and interiors Architects London Houses gives a view of some of the best and

most unusual domestic architecture built in London in recent years This highly illustrated book will be a fascinating and informative reference for architects designers and interested laymen BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Architects' & contractors' handbook and illustrated catalogue of materials and manufactures, ed. by J.D.
