Encyclopedia of Women and American Politics Lynne E. Ford, 2010-05-12 Presents a comprehensive reference to the role of women in American politics and government including biographies related topics organizations primary documents and significant court cases **Kidnapped from that Land** Martha Sonntag Bradley, 1993 At dawn several hundred police and government officials closed in on a fundamentalist religious settlement in the southwest desert to serve warrants and rescue the children from bondage and immorality That was in 1953 at the Mormon community in Short Creek Arizona

Bradley history Brigham Young U gives an account of that raid and the two previous ones in 1935 and 1944 with a sympathetic focus on the disruption of the community and the separation of the families She also considers the legal issues around polygamy then and now Annotation copyright by Book News Inc Portland OR **Northern Arizona University** Lee C. Drickamer, Peter J. Runge, 2011 Any university is composed of faculty students and staff But these living components change over time and in varying degrees while the campus buildings are more permanent remaining for decades a century or longer This book looks at the buildings that have graced the campus of Northern Arizona University from its opening in 1898 to the present The school began with a single building Old Main and it was joined by five other structures prior to World War I In the following decades the campus remained relatively small expanding to approximately twenty five structures by the late 1950s During the tenure of President J Lawrence Walkup 1957 1979 the university effectively doubled in size spreading southward and adding more than forty buildings including an entire south campus academic center Since 1979 the campus has witnessed the addition of more than thirty structures most as infill within the existing campus layout Arranged chronologically this extensively illustrated volume briefly describes the history of every building that has been a part of the university's physical layout The authors describe various structural aspects of each building and provide entertaining and informative anecdotes about events and people associated with the structures By combing the university's archives Drickamer and Runge have turned up photographs of each building as it looked shortly after construction and at present providing a fascinating visual time lapse With more than two hundred images of campus buildings many of them never before published Northern Arizona University Buildings as History provides a wonderful pictorial chronicle of the campus that will interest architectural historians as well as all those who have called NAU home *Hollywood and the Nazis on the Eve of War* Alexis Pogorelskin, 2024-07-25 This book establishes the profound significance of MGM's 1940 film *The Mortal Storm* the first major Hollywood production to depict the plight of Jews in Germany before the Holocaust Based on Phyllis Bottome's best seller also titled *The Mortal Storm* the film was made amidst the bitter debate that occurred between 1938 and 1941 over whether the United States should involve itself in another European war or remain an isolationist country as Charles Lindbergh among others urged In 1941 the film triggered the first hostile Congressional investigation of Hollywood where the studios were accused of allegedly propagandizing for war Lindbergh had secretly urged the Hollywood hearings inspired by his own growing antisemitism as his unpublished diary reveals Hollywood studios in turn regarded the growing European crisis with ambivalence They feared being accused in a film like *The Mortal Storm* of using the movies to represent the fate of Europe's imperiled Jews Louis B Mayer the head of MGM insisted the word Jew be removed from the film and non Aryan be used instead hoping to confuse American audiences about the film's real intent Jimmy Stewart who starred in the film took it on the road to urge American aid to Britain while Lindbergh prepared his own campaign to denounce American Jews for luring the country into war The book reveals how closely Hollywood and politics were entwined on the eve of war It also

reveals how closely the plight of Europe's Jews and American antisemitism were entwined at the same time Arizona History Magazine, 1987 Gateways to the Southwest Jay M. Price, 2016-05-26 Arizona is home to some of the region's most stunning national parks and monuments and has had a long tradition of strong federal agencies along with effective local governments developing and managing parklands Before World War II protecting sites from development seemed counterproductive to a state government dominated by extractive industries By the late 1950s this state that prided itself on being a tourist destination found its lack of state parks to be an embarrassment Gateways to the Southwest is a history of the creation of state parks in Arizona examining the ways in which different types of parks were created in the face of changing social values Jay Price tells how Arizona's parks emerged from the recreation and tourism boom of the 1950s and 1960s were shaped by the environmental movement of the 1970s and 1980s and have been affected by the financial challenges that arose in the 1990s He also explains how changing political realities led to different methods of creating parks like Catalina Pima Ruins and Kartchner Caverns In addition places that did not become state parks have as much to tell us as those that did By the time the need for state parks was recognized in Arizona most choice sites had already been developed and Price reveals how acquiring land often proved difficult and expensive State parks were of necessity developed in cooperation with the federal government other state agencies community leaders and private organizations As a result parks born from land exchanges partnerships conservation easements and other cooperative ventures are more complicated entities than the state park designation might suggest Price's study shows that the key issue for parks has not been who owns a place but who manages it and today Arizona's state parks are a network of lake based recreation historic sites and environmental education areas reflecting issues just as complex as those of the region's better known national parks Gateways to the Southwest is a case study of resource stewardship in the Intermountain West that offers new insights into environmental history as it illustrates the challenges and opportunities facing public lands all over America **The Journal of Arizona History**, 2011

Burton Barr Philip VanderMeer, 2014-11-06 Politics like poker requires timing and risk and Burton Barr of Arizona knew it The deal maker of Arizona politics would say You gotta know when to hold them For more than two decades Barr played his political cards with skill as he led Arizona through an era of enormous growth and success Considered perhaps the most influential person in Arizona's political development Burton Barr represented north central Phoenix in the Arizona House of Representatives for the twenty two years from 1964 to 1986 As the Republican House Majority Leader for twenty of those years he left his fingerprints on every major piece of legislation during those decades covering such issues as air pollution health care for indigents school aid the tax code prison reform child care groundwater management and freeway funding Burton Barr's political life unfolded during the very time his state and region shifted from being outliers to trendsetters His choices in policy making and his leadership style were both an outcome and a creator of his sociopolitical environment Arizona politics in the 1960s and 70s was a rich brew of key elements a time when the economy was being transformed the

nature and distribution of populations shifted partisan politics were in flux and the very lifeblood of the West water was being contested under increasing pressures of usage and depletion How Barr successfully responded to those challenges is the story of Arizona s development during those years At the heart of it Barr s political life and personality are inextricably bound up with the life of the West
