The Man-Made City Gerald D. Suttles,1990-03-21 With its extraordinary uniform street grid its magnificent lake side park and innovative architecture and public sculpture Chicago is one of the most planned cities of the modern era Yet over the past few decades Chicago has come to epitomize some of the worst evils of urban decay widespread graft and corruption political stalemates troubled race relations and economic decline Broad shouldered boosterism can no longer disguise the city s failure to keep pace with others its failure to attract new sunrise industries and world class events For Chicago as for other rust belt cities new ways of planning and managing the urban environment are now much more than civic beautification they are the means to survival Gerald D Suttles here offers an irreverent highly critical guide to both the realities and myths of land use planning and development in Chicago from 1976 through 1987 **The Invention of the American Art Museum** Kathleen Curran,2016-07-01 American art museums share a mission and format that differ from those of their European counterparts which often have origins in aristocratic collections This groundbreaking work recounts the fascinating story of the invention of the modern American art museum starting with its roots in the 1870s in the craft museum type which was based on London s South Kensington now the Victoria and Albert Museum At the turn of the twentieth century American planners grew enthusiastic about a new type of museum and presentation that was developed in Northern Europe particularly in Germany Switzerland and Scandinavia Called Kulturgeschichte cultural history museums they were evocative displays of regional history American trustees museum directors and curators found that the Kulturgeschichte approach offered a variety of transformational options in planning museums classifying and displaying objects and broadening collecting categories including American art and the decorative arts Leading institutions including the Museum of Fine Arts Boston and the Metropolitan Museum of Art in New York adopted and developed crucial aspects of the Kulturgeschichte model By the 1930s such museum plans and exhibition techniques had become standard practice at museums across the country **Carrie Mae Weems** Sarah Elizabeth Lewis,2021-06-01 Essays and interviews explore the work of Carrie Mae Weems and its place in the history of photography African American art and contemporary art In this October Files volume essays and interviews explore the work of the influential American artist Carrie Mae Weems her invention and originality the formal dimensions of her practice and her importance to the history of photography and contemporary art Since the 1980s Weems b 1953 has challenged the status of the black female body within the complex social fabric of American society Her photographic work film and performance investigate spaces that range from the American kitchen table to the nineteenth century world of historically black Hampton University to the ancient landscapes of Rome These texts consider the underpinnings of photographic history in Weems s work focusing on such early works as The

Sullivan-esque Ronald E. Schmitt, 2024-04-22 *Sullivan-esque* offers a visual and historical tour of a unique but often overlooked facet of modern American architecture derived from Louis Sullivan Highly regarded in architecture for inspiring the Chicago School and the Prairie School Sullivan was an unwilling instigator of the method of facade composition later influenced by Frank Lloyd Wright William Gray Purcell and George G. Elmslie that came to be known as Sullivan-esque Decorative enhancements with botanical and animal themes Sullivan's distinctive ornamentation mitigated the hard

geometries of the large buildings he designed coinciding with his form follows function aesthetic Sullivan's designs offered solutions to problems presented by new types and scales of buildings. Widely popular, they were also widely copied and the style proliferated due to a number of Chicago-based interests including the Radford Architectural Company and several decorative plaster and terra cotta companies. Stock replicas of Sullivan's designs manufactured by the Midland Terra Cotta Company and others gave distinction and focus to utilitarian buildings in Chicago's commercial strips and other confined areas such as the downtown districts of smaller towns. Mass-produced Sullivanesque terra cotta endured as a result of its combined economic and aesthetic appeal, blending the sophistication of high architectural art with the pragmatic functionality of building design. Masterfully framed by the author's photographs of Sullivanesque buildings in Chicago and throughout the Midwest, Ronald E. Schmitt's in-depth exploration of the Sullivanesque tells the story of its evolution from Sullivan's intellectual and aesthetic foundations to its place as a form of commercial vernacular. The book also includes an inventory of Sullivanesque buildings. Honorable Mention recipient of the 2002 PSP Awards for Excellence in Professional Scholarly Publishing.

My Fair Ladies Julie Wosk, 2015-07-28 The fantasy of a male creator constructing his perfect woman dates back to the Greek myth of Pygmalion and Galatea. Yet as technology has advanced over the past century, the figure of the lifelike manmade woman has become nearly ubiquitous, popping up in everything from *Bride of Frankenstein* to *Weird Science* to *The Stepford Wives*. Now Julie Wosk takes us on a fascinating tour through this bevy of artificial women, revealing the array of cultural fantasies and fears they embody. *My Fair Ladies* considers how female automatons have been represented as objects of desire in fiction and how living dolls have been manufactured as real-world fetish objects. But it also examines the many works in which the perfect woman turns out to be artificial—a robot or doll—and thus becomes a source of uncanny horror. Finally, Wosk introduces us to a variety of female artists, writers, and filmmakers from Cindy Sherman to Shelley Jackson to Zoe Kazan, who have cleverly crafted their own images of simulated women. Anything but dry, *My Fair Ladies* draws upon Wosk's own experiences as a young female *Playboy* copywriter and as a child of the feminine mystique era to show how images of the artificial woman have loomed large over real women's lives. Lavishly illustrated with film stills, artwork, and vintage advertisements, this book offers a fresh look at familiar myths about gender, technology, and artistic creation.

Global Yorùbá Toyin Falola, 2024-11-19 In *Global Yorùbá*, renowned scholar Toyin Falola covers the history, people, traditions, environment, religion, spirituality, cosmology, culture, and philosophy of one of Africa's largest cultural groups, the Yorùbá, all while considering the people's relationship with their immediate and distant neighbors. Falola examines how the Yorùbá people have adapted to their environment and tapped it to reinvent their civilization, shape their culture and traditions, and inform their socioeconomic relations with their neighbors. These interactions have guided the Yorùbá philosophy that developed over time, expressing their conviction regarding society's evolution and the place that humans occupy within it. This web of knowledge can present a more coherent account than any other text yet produced regarding Yorùbá civilization.

This volume demonstrates how global dynamics have been adopted in the creation of a Yor b community across different times and spaces

Visual Arts and Human Flourishing Professor Emerita Art History and Executive Director Emerita USC Museums Selma Holo, Selma Holo, 2024 In mid December 2018 a man stood before one of the most beloved paintings in Europe Botticelli's *The Birth of Venus* and had a heart attack Henri Neuendorf ArtNet News December 19 2018 <https://news.artnet.com/art-world/heart-attack-botticelli-uffizi-1425448> Venus is that painting you're thinking of the one with the shapely wheat-haired woman standing in a seashell with one hand covering her breasts and the other holding her long golden locks in front of her groin Floating above her right shoulder are two winged figures with their arms wrapped around each other who blow air on her like distant kisses On her left stands a woman the Hora of Spring who holds what looks like a drape and gazes directly at our goddess whose face tilted just so looks toward the viewer with a gentle yet mature glance as if she was born knowing all one needs to know of love and seduction Fortunately the man whose heart failed while looking back at our all-knowing Venus survived but he was not the first to collapse while viewing art in Florence and no doubt he will not be the last It has happened often enough that there is a medical term for the phenomenon named after the first notable man to succumb Stendhal Syndrome Apparently the French author of *On Love* a treatise on romantic passion reported that he fell ill in 1817 after viewing too much Florentine art Bamforth 945 Is it any wonder that Botticelli's winged figures hang on to each other so tightly To be awestruck is to be in imminent danger
