Burn,2008-12-07 Jonathan Franzen is one of the most influential critically significant and popular contemporary American novelists This book is the first full length study of his work and attempts to articulate where American fiction is headed after postmodernism Stephen Burn provides a comprehensive analysis of each of Franzen s novels from his early work to the major success of *The Corrections* identifying key sources delineating important narrative strategies and revealing how Franzen s themes are reinforced by each novel s structure Supplementing this analysis with comparisons to key contemporaries David Foster Wallace and Richard Powers Burn suggests how Franzen s work is indicative of the direction of experimental American fiction in the wake of the so called end of postmodernism **The End of Negotiable Instruments** James Steven Rogers,2012-01-12 In *The End of Negotiable Instruments* Bringing Payments Systems Law Out of the Past author James Rogers challenges the basic assumptions of the law of checks and notes and its history and provides a well reasoned account of how the law could be changed to better suit the evolution of new payment technologies The modern American law of payment systems is in disarray Efforts to create a unified body of law for payment systems have so far been unsuccessful Part of the reason for that failure is the assumption that the existing law works well for the traditional paper based check system and that problems have been created only by the evolution of new technologies *The End of Negotiable Instruments* argues that this assumption is unfounded The basic law of checks is itself anachronistic There are no other books that undertake a similar analysis there are legal treatises on the law of checks and notes but all of them take for granted the basic assumptions challenged in this book Several articles were

published in the late twentieth century concerning the dispute over the application of certain doctrines of traditional negotiable instruments law to modern consumer finance transactions but none of this literature went on to consider the broader question of whether there is anything worthwhile left in negotiable instruments law

AFTER THE END - Dystopia Box Set: 34 Dystopias and Post-Apocalyptic Works Edgar Allan Poe, William Hope Hodgson, Jack London, Ernest Bramah, Jonathan Swift, Cleveland Moffett, Sinclair Lewis, Anthony Trollope, Richard Jefferies, Samuel Butler, Edward Bellamy, Aldous Huxley, Ignatius Donnelly, Owen Gregory, H.
