autores,2020-12-01 Esta Enciclopedia de las Ciencias Morales y Políticas para el siglo XXI es un proyecto colectivo puesto en marcha gracias a la participación de muchos académicos y colaboradores externos de alto nivel. No es ni pretende ser un Diccionario de carácter exhaustivo y puramente técnico ya que su objetivo es muy diferente se trata de hacer balance y plantear perspectivas de futuro. Vivimos en un tiempo de anarquía conceptual y realidades confusas pero enviable a pesar de todo si lo comparamos con pocas recientes o preturas a efectos de dignidad humana recursos económicos y estabilidad social y política. Sin embargo los tiempos apuntan a peor y conviene acertar cuanto antes con el diagnóstico y ofrecer algunos remedios sensatos. Las más de trescientas voces de que consta este tomo están dedicadas a las Ciencias Políticas y Jurídicas. Sección Segunda de esta institución La obra es el resultado de la participación de miembros de la Real Academia de Ciencias Morales y Políticas de otras Reales Academias del Instituto de España catedráticos y otros profesores de Universidad altos funcionarios de los cuerpos más prestigiosos del Estado y profesionales reconocidos en su ámbito correspondiente. Los textos lógicamente heterogéneos suponen un esfuerzo notable por armonizar los elementos formales extensión de las voces referencias bibliográficas básicas y actualizadas que permiten al lector ampliar sus fuentes de información y un completo sistema de remisiones. A la vista de la pandemia la Enciclopedia no puede ser ajena a los primeros indicios de un mundo nuevo. Se incluye por ello una sección específica sobre las perspectivas de la COVID 19 económicas internacionales jurídicas laborales políticas sociológicas a cargo de académicos de número de Ciencias Morales y Políticas.

The European left and the financial crisis Michael Holmes, Knut Roder, 2019-08-27 This timely collection addresses key questions including How did political parties from the Left respond to the crisis? What does the crisis mean for the relationship between the Left and European Integration and what does it mean for socialism as an economic political and social project?

The Performance of Social Systems Francisco Parra-Luna, 2012-12-06 It can be said that the concept of performance of social systems is one of the most relevant since all social systems from the family through the enterprise to the Nation state are only interesting in obtaining as high a performance as possible. The difficulties encountered when dealing with the concept of performance have been recognized and few books until now ventured to tackle the task mainly because of the following three big problems the lack of a theoretical operational model the lack of valid data and the lack of computer facilities. Today these obstacles have been overcome and this is the first book based on different systemic perspectives value theory modelling observation and quantification which offers the possibility of defining and working out the concept. The book should be of great interest to sociologists political scientists economists organizational theorists managers and politicians.

El Sistema Político de los EEUU Elfi Victoria Siebert, 2004-09-15 Seminar paper del año 2004 en el tema Política Región USA Nota 9 of 10 Universidad Cardenal Herrera Facultad de Ciencias Sociales y Jurídicas Materia Sistemas Políticos Comparados Idioma Español Resumen La campaña electoral de las primarias presidenciales en noviembre de este año ya está en marcha y el demócrata John Kerry ha podido convencer en las primarias por lo tanto ser el candidato de su partido. No ha pasado apenas un día en los últimos tres a

os en el que los Estados Unidos no hayan salido en los periódicos grandes de todas las partes del mundo Su papel importante en las relaciones internacionales es indiscutible aunque parece que se ha alejado mucho el tiempo cuando un Presidente de los EEUU John F Kennedy admitió a Debemos afrontar el hecho de que Estados Unidos no es omnipresente ni omnisciente que sumamos el 6% de la población del mundo que no podemos imponer nuestra voluntad al otro 84% de la humanidad y que por consiguiente no puede haber una solución estadounidense para cada problema del mundo 1 De todas maneras la cuestión de la organización política de los EEUU siempre ha sido y permanece hoy en día como algo importante No se pueden comprender las gestiones políticas de todas las naciones sin conocimiento de su sistema político La organización política de los Estados Unidos desde sus raíces ideológicas hasta sus estructuras institucionales representa un sistema político armónico y equilibrado respecto a la distribución del poder e integrado en cuanto a la absorción de la heterogeneidad de sus habitantes y la diversidad territorial que en su conjunto da por resultado su estabilidad política El sistema norteamericano fue construido con el fin de evitar lugares de poder excesivo y con la intención de garantizar el control de los poderes existentes Elementos sistemáticos como el federalismo el bicameralismo y la separación de poderes políticos son entre otros una expresión de este punto de partida Analizaremos aquí como funciona el sistema americano que se creó hace más de dos siglos y en qué estado se encuentran los poderes que afectan al sistema As que observamos en un primer paso en el capítulo 2 las raíces del pensamiento ideológico que dio lugar a la fundación de la Constitución y en el capítulo 3 el proceso histórico constitucional del cual resultó el federalismo Estos dos aspectos los considero importantes para comprender dos elementos destacables por un lado la creencia americana en los valores del liberalismo y la individualidad y por otro lado la capacidad de los estadounidenses para encontrar un consenso sólido y un compromiso pese a sus intereses divergentes y sus diferencias

Survival of Ministers and Configuration of Cabinets in Chile and Uruguay Alejandro Olivares L., 2022-02-15 This book develops an analysis of ministerial recruitment in the process of government formation the process of dismissal and survival of cabinet ministers in Chile and Uruguay The two cases are countries that generally score the highest democracy indexes in Latin America but also they are considered as the most stable presidential systems in the Southern Cone of the region allowing readers to compare within and between cases The cases analyzed in this book are small countries with a similar history of democratic breakdowns which in temporal terms enable comparison Additionally given the reasons that triggered those processes both cases are normally studied together For pre coup democracy the cases include the governments of Chile between 1933 and 1973 and Uruguay between 1943 and 1973 This research does not analyze the military coup regime in either country Thus the period is resumed in the democratic transitions for both cases i.e. 1985 for Uruguay and 1990 for Chile Although literature on ministerial cabinets survival usually focus on parliamentary regimes from the Global North this rather new phenomenon in presidential democracies has quickly gained academic notoriety Research on cabinets and ministers in Latin American presidential systems tends to focus on the periods beginning with the return to

democracy after the 1980s This situation means that there is scant knowledge of the period prior to the coups By presenting an in depth study of two presidential systems from the Global South Survival of Ministers and Configuration of Cabinets in Chile and Uruguay will be a useful resource for political and social scientists willing to study cabinet formation and ministerial turnover in Latin America whether is on case study research or in a comparative perspective
