The Babylonian Disputation Poems Enrique Jiménez, 2017-02-06 In *The Babylonian Disputation Poems* Enrique Jiménez studies a group of ancient Babylonian poems that feature discussions between animals and trees Using intertextual parallels and comparison with similar works in other literatures he espouses a new classification of the Babylonian disputation poems as parodies After examining neighboring traditions of literary disputation he argues that the Babylonian poems influenced them and that some may have been translated from Akkadian to Aramaic from Aramaic and Syriac to Arabic In addition *The Babylonian Disputation Poems* provides editions of several previously unpublished Babylonian disputations such as *Palm and Vine* and *the Series of the Spider* It also offers the first edition of the latest known Babylonian fable *The Story of the Poor Forlorn Wren* The present book is an exemplary model for editing and commenting upon ancient texts and almost every approach has been taken into account Markham J Geller *Journal for the Study of the Old Testament* 43 5 2019 [Major Poems of the Hebrew Bible](#) Jan Fokkelman, 2018-07-17 The Book of Job contains the only sustained through composed work in verse in the Hebrew Bible This makes it very suitable as a testing area for the rules of verse structure and all other aspects of prosody that were developed in *Major Poems of the Hebrew Bible Vol II* and are now also available in *Reading Biblical Poetry* This fourth and last volume completes the study that in Vol I started with Job 3 curses and complaint and continued with the first round of the debate chs 4 14 in Vol II Again the analysis follows two separate circuits on the one hand that of language style and structure on the other hand that of measuring proportions on at least five textual levels The poetry section of the Book of Job contains 412 strophes of which the protagonist Job speaks exactly half His portion of 206 strophes is also divided into equal halves in 103 short and 103 long strophes Even more than in the Psalms the norm figures 7 8 and 9 play an essential part in the composition of the poems and their average number of syllables per colon The forty poems of the book exhibit various forms of numerical perfection and the correct demarcation of strophes and stanzas is found to considerably improve and expand our understanding of its contents [The Five-Colored Clouds of Mount Wutai: Poems from Dunhuang](#) Mary Anne Cartelli, 2012-12-07 In *The Five Colored Clouds of Mount Wutai Poems from Dunhuang* Mary Anne Cartelli introduces a significant corpus of Chinese Buddhist poems from the Dunhuang manuscripts celebrating Mount Wutai They offer important literary evidence for the transformation of the mountain into the earthly paradise of the bodhisattva Ma ju r by the Tang dynasty **Six** Julie Marie Wade, 2016 Why SIX Because the collection is composed of six poems And because the perspective in this collection shifts like a kaleidoscope each image viewable from six possible angles And because these poems like the prevalent hexagons of the natural world honeycombs for instance derive strength from their compression and their accumulation I call six times just to be sure you heard this speaker announces on the first page These poems are also the six calls calls to attention calls to action calls to account for something of our own The speaker in SIX is insistent scrupulous and unflinching as she plumbs six essential aspects of human experience that have shaped us all

Reading in Time

Cristanne Miller,2012 This book provides new information about Emily Dickinson as a writer and new ways of situating this poet in relation to nineteenth century literary culture examining how we read her poetry and how she was reading the poetry of her own day Cristanne Miller argues both that Dickinson s poetry is formally far closer to the verse of her day than generally imagined and that Dickinson wrote circulated and retained poems differently before and after 1865 Many current conceptions of Dickinson are based on her late poetic practice Such conceptions Miller contends are inaccurate for the time when she wrote the great majority of her poems Before 1865 Dickinson at least ambivalently considered publication circulated relatively few poems and saved almost everything she wrote in organized booklets After this date she wrote far fewer poems circulated many poems without retaining them and took less interest in formally preserving her work Yet Miller argues even when circulating relatively few poems Dickinson was vitally engaged with the literary and political culture of her day and in effect wrote to her contemporaries Unlike previous accounts placing Dickinson in her era Reading in Time demonstrates the extent to which formal properties of her poems borrow from the short lined verse she read in schoolbooks

periodicals and single authored volumes Miller presents Dickinson's writing in relation to contemporary experiments with the lyric the ballad and free verse explores her responses to American Orientalism presents the dramatic lyric as one of her preferred modes for responding to the Civil War and gives us new ways to understand the patterns of her composition and practice of poetry Report of the Board of Education Connecticut.
