**Skepticism and Cognitivism** Oliver A. Johnson, 1978-01-01      **Skepticism and Cognitivism** Oliver A.

Johnson, 2024-03-29 Skepticism and Cognitivism addresses the fundamental question of epistemology Is knowledge possible It approaches this query with an evaluation of the skeptical tradition in Western philosophy analyzing thinkers who have claimed that we can know nothing After an introductory chapter lays out the central issues chapter 2 focuses on the classical skeptics of the Academic and Pyrrhonic schools and then on the skepticism of David Hume Chapters 3 through 5 are devoted to contemporary defenders of skepticism Keith Lehrer Arne Næss and Peter Unger In chapter 6 author Oliver A Johnson dons the mantle of skeptic himself and develops and adds theories to the skeptical arsenal He closes with an examination of the relationship between skepticism and cognitivism reaching and defending conclusions on the nature and extent of possible human knowledge This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978      *Ethical Naturalism* Susana Nuccetelli, Gary

Seay, 2011-12-08 Ethical naturalism is narrowly construed as the doctrine that there are moral properties and facts at least some of which are natural properties and facts Perhaps owing to its having faced early on intuitively forceful objections by eliminativists and non naturalists ethical naturalism has only recently become a central player in the debates about the status of moral properties and facts which have occupied philosophers over the last century It has now become a driving force in those debates one with sufficient resources to challenge not only eliminativism especially in its various non cognitivist forms but also the most sophisticated versions of non naturalism This volume brings together twelve new essays which make it clear that in light of recent developments in analytic philosophy and the social sciences there are novel grounds for reassessing the doctrines at stake in these debates      The Oxford Handbook of Epistemology Paul K. Moser, 2005-10-27

**Cognitive Poetics** Geert Brône, Jeroen Vandaele, 2009-05-05 For more than two decades now cognitive science has been making overtures to literature and literary studies Only recently however cognitive linguistics and poetics seem to be moving towards a more serious and reciprocal type of interdisciplinarity In coupling cognitive linguistics and poetics cognitive poetics aim to offer cognitive readings of literary texts and formulate specific hypotheses concerning the relationship between aesthetic meaning effects and patterns in the cognitive construal and processing of literary texts One of the basic assumptions of the endeavour is that some of the key topics in poetics such as the construction of text worlds characterization narrative perspective distancing discourse etc may be fruitfully approached by applying cognitive linguistic concepts and insights such as embodied cognition metaphor mental spaces iconicity construction grammar figure ground alignment etc in an attempt to support enrich or adjust traditional poetic analysis Conversely the tradition of poetics may support frame or call into question insights from cognitive linguistics In order to capture the goals gains and gaps of this rapidly growing interdisciplinary field of research this volume brings together some of the key players and critics of cognitive poetics The eleven chapters are grouped into four major sections each dealing with central concerns of the field i the cognitive mechanisms discursive means and mental products related to narrativity Semino Herman Culpeper ii the different incarnations of the concept of figure in cognitive poetics Freeman Steen Tsur iii the procedures that are meant to express or create discursive attitudes like humour irony or distance in general Antonopoulou and Nikiforidou Dancygier and Vandelanotte Giora et al and iv a critical assessment of the current state of affairs in cognitive poetics and more specifically the incorporation of insights from cognitive linguistics as only one of the contributing fields in the interdisciplinary conglomerate of cognitive science Louwerse and Van Peer Sternberg The ensuing dialogue between cognitive and literary partners as well as between advocates and opponents is promoted through the use of short response articles included after ten chapters of the volume Geert Brône Katholieke Universiteit Leuven Belgium Jeroen Vandaele University of Oslo Norway
