Globalisation, Higher Education, the Labour Market and Inequality Antonia Kupfer, 2014-07-16 Globalisation Higher Education the Labour Market and Inequality addresses the global transformation of higher education in relation to changes in the labour market It focuses on the relative impact of elements

of globalisation on social inequality and provides insights into the ways in which these general forces of change are transformed into specific policies shaped by global forces and the various national values institutional structures and politics of the specified societies The book begins with a theoretical conceptualization for a comparative understanding of globalization higher education labour markets and inequality This is followed by a range of mainstream accounts from an international selection of contributors of the ways in which national systems have responded to the forces of globalisation and the increasing demand for higher education graduates in Australia the Czech Republic Germany Japan New Zealand and the UK Finally contributors explore more specific concerns such as the transition from higher education to the labour market in China and Sweden the division of the knowledge workers into traditional social groups in the US and the role and salience of Doctoral programmes in South Africa in developing a knowledge economy This book was originally published as a special issue of the Journal of Education and Work

International Handbook on Globalisation, Education and Policy Research
Joseph Zajda, 2005-12-05 The aim of this Handbook is to present a global overview of developments in education and policy change during the last decade It has the objective of providing both a strategic education policy statement on recent shifts in education and policy research globally and offers new approaches to further exploration development and improvement of education and policy making The Handbook attempts to address some of the above issues and problems confronting educators and policy makers globally Different articles seek to conceptualize the on going problems of education policy formulation and implementation and provide a useful synthesis of the education policy research conducted in different countries and practical implications The Handbook by focusing on such issues as the OECD 2001 model of the knowledge society and associated strategic challenge and deliverable goals OECD 2001 139 UNESCO driven lifelong learning paradigm and its relevance to education policy makers globally different models of policy planning and equity questions that are raised by centralization decentralization diversity uniformity and curriculum standardization issues the crises of educational quality the debate of standards and excellence and good and effective teaching will contribute to a better and more holistic understanding of the education policy and research nexus offering possible strategies for the effective and pragmatic policy planning and implementation at the local regional and national levels

Globalisation, Employment and Education in Sri Lanka Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration into the world economy Through a systematic comparison of these periods of economic change 1956 1977 and 1977 to the present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and equality of opportunity in Sri Lanka The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign interests in post secondary education

and a modest growth in private education at the primary and secondary levels as well as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice and to the interaction of exogenous and endogenous forces for educational change It deals with the tension between the high social demand for education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal across education policy and politics Asian education South Asian society youth policy sociology of education political economy of social change and globalisation

The Oxford Handbook of Skills and Training Chris Warhurst, Ken Mayhew, David Finegold, John Buchanan, 2017-02-09 Skills and workforce development are at the heart of much research on work employment and management But are they so important To what extent can they make a difference for individuals organizations and nations How are the supply and more importantly the utilization of skill currently evolving What are the key factors shaping skills trajectories of the future This Handbook provides an authoritative consideration of issues such as these It does so by drawing on experts in a wide range of disciplines including sociology economics labour industrial relations human resource management education and geography The Handbook is relevant for all with an interest in the changing nature and future of work employment and management It draws on the latest scholarly insights to shed new light on all the major issues concerning skills and training today While written primarily by leading scholars in the field it is equally relevant to policy makers and practitioners responsible for shaping the development of human capability today and into the future

Schooling Internationally Richard Bates, 2010-11-15 The well known international contributors to this book move beyond simply describing the issues and instead suggest ways in which the complex and often contradictory tensions within the world of international schooling and its global contexts must be examined critically

Economy, Work, and Education Catherine Casey, 2016-07-27 Economy Work and Education Critical Connections addresses effects of neoliberal capitalism in particular regard to work and education The book elaborates key aspects and problems of generalized policy models of knowledge based economies and learning societies in contexts of liberalized firm action accelerated competitiveness and labor market flexibility It discusses limits and paradoxes of higher skilled knowledge based economies which include significant disparities in labor market absorption of higher level skills a deterioration of qualitative conditions of work and a re subordination of workers This volume provides a research intensive crossing of these fields to contribute a closer disciplinary and scholarly dialogue

between interested thinkers across fields who too often must labor and converse apart It offers the vantage point afforded by traversing old boundaries and exploring concerns shared by many scholars and researchers in international circles in pursuit of social and cultural innovation in the governance of work and education and advancing wider social debate **World Yearbook of Education 2008** Debbie Epstein, Rebecca Boden, Rosemary Deem, Fazal Rizvi, Susan Wright, 2013-01-11 This volume examines higher education in globalized conditions through a focus on the spatial historic and economic relations of power in which it is embedded Distinct geometries of power are emerging as the knowledge production capability of universities is increasingly globalized Changes in the organization and practices of higher education tend to travel from the West to the rest Thus distinctive geographies of knowledge are being produced intersected by geometries of power and raising questions about the recognition production control and usage of university produced knowledge in different regions of the world What flows of power and influence can be traced in the shifting geographies of higher education How do national systems locate themselves in global arenas and what consequences does such positioning have for local practices and relations of higher education How do universities and university workers respond to the increasing commodification of knowledge How do consumers of knowledge assess the quality of the goods on offer in a global marketplace The 2008 volume of the World yearbook addresses these questions highlighting four key areas Producing and Reproducing the University How is the university adapting to the pressures of globalization Supplying Knowledge What structural and cultural changes are demanded from the university in its new role as a free market supplier of knowledge Demanding Knowledge Marketing and Consumption How can consumers best assess the quality of education on a global scale Transnational Academic Flows What trends are evident in the flow of students knowledge and capital with what consequences The 2008 volume is interdisciplinary in its approach drawing on scholarship from accounting finance and human geography as well as from the field of education Transnational influences examined include UNESCO and OECD GATS and the effects of digital technologies Contrasting contexts include Central and Eastern Europe Finland China and India and England With its emphasis on the interrelationship of knowledge and power and its attention to emergent spatial inequalities Geographies of Knowledge Geometries of Power Framing the Future of Higher Education provides a rich and compelling resource for understanding emergent practices and relations of knowledge production and exchange in global higher education

Globalisation and Education Policy Reform in Botswana Richard Tabulawa, 2023-07-21 This book uses the global local dialect approach to explicate education policy reform in Botswana and interrogates the practical effects of the various education policies on curriculum pedagogy and governance of the Botswana General Education system Considering the effect of three reform policies since Botswana's Independence in 1966 the book evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs

from those same discourses The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis and that each policy has improved access to general education but collectively have failed to improve its quality making suggestions for how this can be improved in the future As the first book of its kind to delve into education in Botswana from a single authored critical lens the book will be a highly relevant reading for academics researchers and post graduate students of African education comparative education education policy and curriculum studies Local Economic and Employment Development (LEED) Better Use of Skills in the Workplace Why It Matters for Productivity and Local Jobs OECD, International Labour Organization, 2017-11-02 This joint OECD ILO report provides a comparative analysis of case studies focusing on improving skills use in the workplace across eight countries *The SAGE Handbook of Research in International Education* Mary Hayden, Jeff Thompson, Jack Levy, 2007-01-03 The editors of the SAGE Handbook of Research in International Education have brought together an impressive array of scholars whose cutting edge research addresses the growing field of international education from the experiences of K 12 schools around the world to the field of teacher education This book raises important questions and should be read by a broad audience Kenneth Cushner Executive Director of International Affairs and Professor of Education Kent State University The editors of this admirable handbook have set out to produce a report on international education Their consummate success in doing so gives those of us working in the field a new and invaluable resource The editors may be academics but this is a book largely written by about and for those whose job it is to teach internationally No one working in international education will fail to be provoked challenged or inspired by the compelling arguments advanced within this authoritative volume Peter MacKenzie Principal Hiroshima International School The book is well organized in carefully integrated sections and chapters and the references alone are a valuable bibliographical tool An indispensable work highly recommended for education reference collections and the libraries of individual researchers J B Thomas Emeritus Professor of Educational Studies Loughborough University Interest in the field of international education has never been more intense than at present There are a rapidly increasing number of schools worldwide set up specifically to meet the demands of those parents who through their own professional activities wish to have their sons and daughters educated in schools that offer programmes based on international values Such schools have embraced the promotion of international education as one of their major goals and consequently an increasing number of organisations currently offer curricula that claim to be international in nature Such global movements have created a parallel increase in the incorporation of forms of international education within national school systems throughout the world This has resulted in wider forms of collaboration between schools in the public and private sectors nationally and internationally generating a much more substantial base of professional experience in the implementation of schemes for international education than had previously existed This book analyses the origins contributions and interpretations of international education The authors identify approaches to research that will progress our knowledge and understanding of the field and

extend and even redraw it on the basis of the research evidence presented Content includes A historical overview of the ways in which the term international education has been interpreted The theoretical interpretation of international education in its current context International education in practice exploration of the issues in terms of students curricula pedagogies and organising formal institutions Conceptual challenges for international education in the future This handbook is an essential resource for those who are involved in the practice and academic study of international education It will be of particular interest to researchers and teachers in universities governmental and private curriculum development agencies examination authorities administrators and teachers in schools This volume is another valuable SAGE contribution to the expanding literature on international education Not all handbooks are described as essential reading but this one will be and will become an indispensable work of reference highly recommended for education libraries both academic and governmental and for the bookshelves of individual researchers and all involved in international education the three editors and their fellow authors can take a collective pride in having given us an excellent volume which very successfully completes a chronological and theoretical journey through the issues practices and future questions presented by international research and practice in international education Journal of Research in International Education *Third International Handbook of Globalisation, Education and Policy Research* Joseph Zajda, 2021-09-17 This handbook presents a global overview of current research in education and education policy reforms during the last decade It provides an accessible practical and comparative source of current research that examines the intersecting and diverse discourses of this important issue It first examines globalisation education and policy research and reforms in higher education including coverage of main trends in education and policy reforms globally as well as specific policy issues such as gender equity minorities and human rights Next the handbook offers a comparative perspective that evaluates the ambivalent and problematic relationship between globalisation the state and education reforms globally It features coverage on curricula issues and education reforms in schools around the world the curriculum in the global culture as well as globalisation and education futures with respect to social justice and human rights The handbook contributes to a better and a more holistic understanding of the education reforms and research nexus offering possible strategies for the effective and pragmatic policy planning and implementation at the local regional and national levels It will serve as a vital sourcebook of ideas for researchers practitioners and policy makers in education

Lifelong Learning in Europe Ellu Saar, Odd Bjorn Ure, 2013 Based on a 5 year research project conducted by experts in 13 countries this comprehensive book analyses the ways in which national characteristics frame the Lifelong Learning agenda Shifting Understandings of Skills in South Africa Simon A. McGrath, 2004 The South African preoccupation with worker skills and skills acquisition is addressed and analyzed in this compilation of essays on the multiple and shifting meanings of the word skill within the country Development Centre Seminars Growth and Competition in the New Global Economy OECD Development Centre, 1999-01-22 This publication offers a stimulating well informed tour of the issues which

policy makers will have to resolve if the integration of the NEEs into the world economy is to be facilitated

Knowledge Production in European Universities Kwiek Marek, 2012-11-23 The book studies transformations of European universities in the context of globalization and Europeanization the questioning of the foundations of the Golden Age of the Keynesian welfare state public sector reforms demographic changes the massification and diversification of higher education and the emergence of knowledge economies Such phenomena as academic entrepreneurialism and diversified channels of knowledge exchange in European universities are linked to transformations of the state and changes in public sector services The first contextual part of the book studies the changing state university relationships and the second empirically informed part draws from several recent large scale comparative European research projects *Implementing National Qualifications Frameworks Across Five Continents* Michael Young, Stephanie Matseleng Allais, 2016-04-08 This book assesses the impact and implementation of national qualifications frameworks in sixteen different countries It presents two major lessons for policy makers thinking of introducing a National Qualifications Framework NQF First that an NQF is only a way of framing existing provision it cannot on its own lead to the acquisition of skills or knowledge Second as an attempt to standardize learning something that is only to a limited extent standardizable NQFs have disadvantages as well as advantages The research was funded by the International Labour Organization ILO and the European Training Foundation ETF and partly as a result of the ILO ETF Report the Editors were asked by the World Bank to help them in advising the government of India on introducing a NQF for vocational qualifications Building on the findings of the report the editors of this book presented an NQF implementation strategy to the Government of India on behalf of the World Bank It laid out the steps and stages that would be involved and took account of the earlier experiences of introducing an NQF Although this strategy was prepared specifically for the Government of India others who have read it felt it deserved wider circulation The report has therefore been included in this volume Since this research was undertaken the number countries especially developing countries implementing or introducing a NQF has continued to increase This book will be of interest to policy makers and researchers This book was originally published as a special issue of the Journal of Education and Work [The Routledge International Encyclopedia of Education](#) Gary McCulloch, David Crook, 2013-11-26 The Routledge International Encyclopedia of Education is a unique and major resource for the field of education It is a comprehensive single volume work arranged alphabetically and comprising around 600 entries The entries range from definitions of key educational concepts and terms to biographies of key educators and specially written substantial essays on major educational topics The volume includes authoritative and critical commentary on historical and contemporary themes examinations of continuities changes and emerging issues and discussions of the educational traditions and features of major countries and continents The following special features are also included Unrivalled coverage of education in a single volume Entries by leading international educational researchers Contributors drawn from all over the globe including Australia Brazil Canada China Finland India Israel Japan New Zealand

South Africa the United Kingdom and the United States A distinguished international advisory board Fully cross referenced and indexed Suggestions for further reading Offering insight into the world of education in an interesting informed and sometimes provocative way The Routledge International Encyclopedia of Education is an invaluable work of reference for educators students researchers and policy makers in education and related fields internationally
