Parker, Henrik Simojoki, 2023 This book brings together two topics which have both been of increasing interest in different countries The first refers to the quality of Religious Education as a school subject RE in general the second is about the education of teachers of RE and its possible contribution to better quality RE There have been many public and often controversial debates concerning both of these topics The chapters contained in this volume however are not meant to continue such debates even if it is inevitable that they will contribute to these debates as well but to make use of research especially research on teacher education in the field of RE in order to provide insights based not just on political or personal opinions but on rigorous academic scholarship **Theology and Religious Studies in Higher Education** D.L. Bird, Simon G. Smith, 2009-01-22 Theology and religious studies co exist in the majority of departments in higher education institutions within the UK yet there has been very little debate or discussion on how these two disciplines relate to one another in this context and on a more general level This new collection of essays aims to redress the balance and to add to fruitful discussion in this area Including essays by some of today s leading academics on the sometimes contentious relationship between religious studies or the study of religions and theology this volume is international in scope with contributions from scholars from the UK USA South Africa Netherlands Sweden and Iran Many of the essays offer a contextualised account of the evolving relationship between the disciplines The contributors address such issues as the place of theology within today s

universities the problem of clashing methodologies in theology and religious studies the possibility for a theological religious studies approaching the study of religions without theology interdisciplinary approaches for bridging the theology religious studies divide and the place of biblical studies in the theology religious studies debate **Teaching Critical Religious Studies** Jenna Gray-Hildenbrand, Beverley McGuire, Hussein Rashid, 2022-08-11 Are you teaching religious studies in the best way possible Do you inadvertently offer simplistic understandings of religion to undergraduate students only to then unpick them at advanced levels This book presents case studies of teaching methods that integrate student learning classroom experiences and disciplinary critiques It shows how critiques of the scholarship of religious studies including but not limited to the World Religions paradigm Christian normativity Orientalism colonialism race gender sexuality and class can be effectively integrated into all courses especially at an introductory level Integrating advanced critiques from religious studies into actual pedagogical practices this book offers ways for scholars to rethink their courses to be more reflective of the state of the field This is essential reading for all scholars in religious studies **Teaching Religious Education** Elaine McCreery, Sandra Palmer, Veronica Voiels, 2008-05-21 Many trainee primary teachers are uncertain as to the place and purpose of RE in primary schools This book is designed to alleviate such fears and give trainees the security and confidence to teach RE effectively Trainees are encouraged to recognise their own religious position and understand how they handle their own beliefs and commitments in the classroom In addition they will learn how to be sensitive to children s religious viewpoints allowing children to share their beliefs in a secure and supportive environment A range of strategies help readers to provide engaging and appropriate RE across the primary age phase **Religious Meaning-making Skills** John Boyers, 2000 **Proceedings of the 2nd Annual Conference of Islamic Education 2023 (ACIE 2023)** Depict Pristine Adi, Setya Chendra Wibawa, Mashudi, Taha Romadhan Zaghloul, Figru Mafar, Muhammad Ardy Zaini, Moh. Rofid Fikroni, 2023-12-29 This is an open access book This is the second annual conference of Islamic education organized by Faculty of Tarbiyah and Teacher Training UIN Kiai Haji Achmad Siddiq Jember This conference is a forum held to bring together various academics researchers lecturers and practitioners especially in the scope of Islamic education to discuss various issues on enhancing technological literacy for sustainable education in digital era This event can give you a valuable opportunity to share ideas ideas research results theories and various other contributions in the academic world It can also encourage you to increase the network of collaborative relationships between researchers and other writers to build partnerships *Inspiring Faith in Schools* Marius Felderhof, 2016-05-23 Inspiring Faith in Schools addresses the privileging of secularism that appears to affect RE in countries influenced by modern western thought The authors argue that a more engaging form of RE would emerge if religious life were to inhabit centre stage Currently religious faith is made to hover in the wings awaiting the call to face the inquisitorial challenge of the modern day enquirer The consequent relationship between pupil and the Divine as the purpose of study is then already intrinsically irreligious as indicated in the Book of Job by

putting God in the dock whereas it is the pupil who should be cross examining his or her life What are the ways of exciting and engaging the young so that they begin to entertain the possibility of religious life as a genuine option for themselves Leading scholars in philosophy and theology from the UK Australia Canada and the USA come together to address these questions together with RE experts Marius Felderhof writes an Afterword summing up the challenges faced by such a re visioning of RE *Issues in Religious Education* Lynne Broadbent, Alan Brown, 2004-11-23 This book is designed to give students and newly qualified teachers a contextual and theoretical background to this subject by exploring and challenging assumptions about the place of religion in education The book is divided into the following sections section one sets out the context for religious education in the curriculum It looks at political social and religious influences on legislation particularly in faith schools and raises questions about assessment section two focuses on Religious Education in the classroom exploring our understanding of religion and the concept of development in Religious Education section three examines Religious Education as a whole school issue considering its relationship to literacy citizenship collective worship and spiritual ethical and moral development *The Oxford Handbook of Religion and Education* Liam Francis Gearon, Arniika Kuusisto, 2025-04-29 The Oxford Handbook of Religion and Education offers a multi disciplinary work of scholarship and research highlighting the global significance of a critical interface of cultural and social political and theological importance Drawing on historical perspective and contemporary reflection the collection provides a uniquely transformative analysis of why the interface of religion and education is of such critical significance With contributions from some of the leading thinkers in the field this Handbook presents a cumulatively powerful argument to reassess the complexities of the intersection of religion and education With ambitious and yet accessible intellectual engagements the Handbook here furthers a central thesis that the interface of religion and education is not merely a matter of arcane disputation about a domain of ancient origin or a rudimentary matter of formal educational process but a vibrant domain of critical contestation fundamental to knowing understanding and living in the modern world *The Bloomsbury Handbook of Religious Education in the Global South* Yonah Hisbon Matemba, Bruce A. Collet, 2022-02-10 The Bloomsbury Handbook of Religious Education in the Global South presents new comparative perspectives on Religious Education RE across the Global South Including 23 chapters written by scholars from the Global North and South this is the first authoritative reference work on the subject The handbook is thematically organised into seven sections The first three sections deal with provision response to changes in contemporary society and decolonizing RE The next four sections explore young people and RE perspectives on teachers RE in higher education and finally challenges and opportunities for RE The term Global South is used here primarily to signify the deep economic divide with the Global North but the concept is also examined in historical geographical political social and cultural terms including the indelible influence of religion in all four broadly defined regions Exploring RE from local cross national as well as regional and sub regional perspectives the handbook examines RE from its diverse past present

realities and envisioned future revealing not only tensions contestations injustices and inequalities of power but importantly how inclusive forms of RE can help solve these problems **International Journal of Nusantara Islam** Hadrianus
