Sky At Night:

The Sky at Night Patrick Moore, 2010-11-01 When I became the producer of the Sky at Night in 2002 I was given some friendly advice It's a quiet little programme not much happens in astronomy How wrong they were It's been a hectic and enthralling time ever since with missions arriving at distant planets new discoveries in our Universe and leaps in technology which mean amateurs can take pictures as good as the Hubble Space Telescope What a privilege it is to work on a programme with such a huge heritage I am constantly amazed looking back at the flotilla of excellent programmes which have gone out over the past five decades The Sky at Night has always been at the sharp end of science broadcasting whether it's showing the first view from the far side of the Moon or pictures of a new comet which has swept into our sky Viewers can depend on Sir Patrick to tell them the latest news and explain what it means It's an outstanding achievement and Sir Patrick still holds the world record for being the same presenter on the longest running TV programme Our guests love coming down to Farthings Sir Patrick's home For them meeting him is like meeting their astronomical hero Over the past five decades the Sky at Night has managed to talk to the space scientists and astronomers making the landmark discoveries No matter how busy they are they make room for Sir Patrick

The Sky at Night Chris North, Sir Patrick Moore, 2012-04-12 Celebrating the 55th anniversary of The Sky at Night this book collects and answers questions sent in by viewers With sections on the solar system the bizarre and unexplained space missions and more this is an exciting journey into space for the novice astronomer and the lifelong stargazer alike Discover how scientists work out the gravity of planets what the Great Attractor is and the basic principles of space navigation Learn how to start observing the sky what event inspired Patrick Moore to take up astronomy and just how many of his cats are named after celestial bodies From comets to black holes and Orion to eclipses The Sky at Night is the ultimate introduction to the wonders and mysteries of the universe
