Madness, Masks, and Laughter Rupert D. V. Glasgow, 1995 *Madness Masks and Laughter* An Essay on Comedy is an exploration of narrative and dramatic comedy as a laughter inducing phenomenon The theatrical metaphors of mask appearance and illusion are used as structural linchpins in an attempt to categorize the many and extremely varied manifestations of comedy and to find out what they may have in common with one another As this reliance on metaphor suggests the purpose is less to produce The Truth about comedy than to look at how it is related to our understanding of the world and to ways of understanding our understanding Previous theories of comedy or laughter such as those advanced by Hobbes Kant Hegel Schopenhauer Bergson Freud and Bakhtin as well as more general philosophical considerations are discussed insofar as they shed light on this approach The limitations of the metaphors themselves mean that sight is never lost of the deep seated ambiguity that has made laughter so notoriously difficult to pin down in the past The first half of the volume focuses in particular on traditional comic masks and the pleasures of repetition and recognition on the comedy of imposture disguise and deception on dramatic and verbal irony on social and theatrical role playing and the comic possibilities of plays within plays and metatheatre as well as on the clichés puns witticisms and torrents of gibberish which betray that language itself may be understood as a sort of mask The second half of the book moves to the other side of the footlights to show how the spectators themselves identifying with the comic

spectacle may be induced to drop their own roles and postures laughter here operating as something akin to a ventilatory release from the pressures of social or cognitive performance Here the essay examines the subversive madness inherent in comedy its displaced anti authoritarianism as well as the violence sexuality and bodily grotesqueness it may bring to light The structural tensions in this broadly Hobbesian or Freudian model of a social mask concealing an anti social self are reflected in comedy s own ambivalences and emerge especially in the ambiguous concepts of madness and folly which may be either celebrated as festive fun or derided as sinfulness The study concludes by considering the ways in which nonsense and the grotesque may infringe our cognitive limitations here extending the distinction between appearance and reality to a metaphysical level which is nonetheless prey to unresolvable ambiguities The scope of the comic material ranges over time from Aristophanes to Martin Amis from Boccaccio Chaucer Rabelais and Shakespeare to Oscar Wilde Joe Orton John Barth and Philip Roth Alongside mainly Old Greek Italian French Irish English and American examples a number of relatively little known German plays by Grabbe Tieck Buchner and others are also taken into consideration BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Concept of Water Rupert D. V. Glasgow, 2009 Water is commonly taken for granted and treated with contempt yet it is the very foundation of human existence Assuming countless forms it is deeply associated both with life and death body and soul purity and pollution creation and destruction The Concept of Water seeks to bring together the various aspects of our deeply ambiguous relationship with water providing a systematic account of its symbolic and philosophical significance This involves looking at how water has been conceived and the role it has played in everyday thought mythology literature religion philosophy politics and science both across cultures and through history R D V Glasgow was born in Sheffield and currently lives in Zaragoza His previous books are *Madness Masks and Laughter* 1995 *Split Down the Sides* 1997 and *The Comedy of Mind* 1999

Travellers and Showpeople Jean Ryan Hakizimana, Louise Harrington, 2009-10-02 The late twentieth century has witnessed a particular prominence assigned to the discourses of difference and Otherness An examination of this othering discourse as related to Travellers Gypsies and Showpeople enumerates the projective function of the Othering process a form of rejection and marginalisation that is the institutionalization of ideas which are seldom challenged The history of Traveller and Gypsy Othering in Europe points to the constant re articulation of reductionist

stereotypes as applied to a wide range of nomadic peoples and the creation of a mythic Traveller Gypsy prototype that is based on a series of endlessly repeated generalizations which gradually assume the status of an objective truth This discourse of representation has culminated in powerful institutional attitudes many of which have influenced official and policy responses to these minorities This volume brings to surface the hidden histories and discourses of the peoples of the road those migratory peoples whose unique expressions of identity have often hitherto remained occluded We live in the era of the Other the era of difference the era of migration that stranger who waits silently at the border crossing battered suitcase in hand Travellers and Roma are the archetypal migrants Perennial outsiders they are the people who have lived on society's margins for centuries This volume explores the history of these traditionally migrant peoples within the frame of articulation that is Western literary and visual culture *The World Encyclopedia of Contemporary Theatre* Katherine Brisbane, Ravi Chaturvedi, Ramendu Majumdar, Chua Soo Pong, Minoru Tanokura, 2005-08-16 This volume features over 250 000 words and more than 125 photographs identifying and defining theatre in more than 30 countries from India to Uzbekistan from Thailand to New Zealand and featuring extensive documentation on contemporary Chinese Japanese Indian and Australian theatre **Focus On: 100 Most Popular Vaudeville Performers** Wikipedia contributors, *Patriotic Elaborations* Charles Blattberg, 2009-03-01 How might we mend the world Charles Blattberg suggests a new patriotism one that reconciles conflict through a form of dialogue that prioritizes conversation over negotiation and the common good over victory This patriotism can be global as well as local left as well as right Blattberg's is a genuinely original philosophical voice The essays collected here discuss how to re-conceive the political spectrum where deliberative democrats go wrong why human rights language is tragically counterproductive how nationalism is not really secular how many nations should share a single state a new approach to the Arab Israeli conflict and why Canada might have something to teach about the war on terror We also learn about the right way to deny a role to principles in ethics how to distinguish between the good and the beautiful the way humor works the rabbinic nature of modernism the difference between good bad great and evil why Plato's dialogues are not really dialogues and why most philosophers are actually artists Laurel & Hardy Harry Lime, 2019-02-28 Laurel and Hardy were a comedy duo who performed during the early Classical Hollywood era of American cinema comprising Englishman Stan Laurel June 16th 1890 February 23rd 1965 with American Oliver Hardy January 18th 1892 August 7th 1957 They became famous for their slapstick comedy during the late 1920s to the mid 1940s with Laurel playing the clumsy and childlike friend of the pompous bully Hardy The duo's signature tune known as The Cuckoo Song Ku Ku or The Dance of the Cuckoos was played over the opening credits of their movies having become as emblematic of the duo as their bowler hats **The Historic Record & AV Collector Quarterly**, 1997 Includes separate unnumbered section Historic record sales section *Focus On: 100 Most Popular English Male Comedians* Wikipedia contributors, *The New York Times Practical Guide to Practically Everything, Second Edition* Amy D.
