N.,2020-07-30 Commercial Practice is the work done for the earning acquisition and ownership of existence and within existence What one acquires the one is said to own resulting in the application of ownership to anything at all acquirable including the slave however the slave is held in possession disowned and hence cannot be said to be owned We cannot accurately say that one owns a slave nor that a slave has owner when the slave is held disowned The disowned thing has no owner The application of ownership to the slave has brought difficulty in telling the relationship between parent and child husband and wife employer and employee and citizen and state for instance as a person being owned sounds as the person being a slave We have redeemed the reality of ownership There are things one can own and things one cannot own although acquirable therefore there are things one has the Right to acquire and things one has no Right to acquire If you cannot own it and you acquire it then you have stolen it rendering you a criminal as theft is a crime Learn Commercial Practice it is the legitimate method of acquiring and possessing and ownership      Slaves for Hire John J. Zaborney,2012-10-12 In Slaves for Hire John J Zaborney overturns long

standing beliefs about slave labor in the antebellum South Previously scholars viewed slave hiring as an aberration a modified form of slavery involving primarily urban male slaves that worked to the laborer s advantage and weakened slavery s institutional integrity In the first in depth examination of slave hiring in Virginia Zaborney suggests that this endemic practice bolstered the institution of slavery in the decades leading up to the Civil War all but assuring Virginia s secession from the Union to protect slavery Moving beyond previous analyses Zaborney examines slave hiring in rural and agricultural settings along with the renting of women children and elderly slaves His research reveals that like non hired out slaves these other workers experiences varied in accordance with sex location occupation economic climate and crop prices as well as owners and renters convictions and financial circumstances Hired slaves in Virginia faced a full range of oppression from nearly full autonomy to harsh exploitation Whites of all economic occupational gender ethnic and age groups including slave owners and non slave owners rented slaves regularly Additionally male owners and hirers often transported slaves to those who worked them and acted as agents for white women who wished to hire out their slaves Ultimately widespread white mastery of hired slaves allowed owners with superfluous slaves to offer them for rent locally rather than selling them to the Lower South establishing the practice as an integral feature of Virginia slavery **Success Library** Orison Swett
