The Problem of Slavery as History Joseph C. Miller, 2012-03-27 Why did slavery an accepted evil for thousands of years suddenly become regarded during the eighteenth century as an abomination so compelling that Western governments took up the cause of abolition in ways that transformed the modern world Joseph C Miller turns this classic question on its head by rethinking the very nature of slavery arguing that it must be viewed generally as a process rather than as an institution Tracing the global history of slaving over thousands of years Miller reveals the shortcomings of Western narratives that define slavery by the same structures and power relations regardless of places and times concluding instead that slaving is a process which can be understood fully only as imbedded in changing circumstances

Slavery's Ghost Richard Follett,Eric Foner,Walter Johnson,2011-11-01 Three thoughtful contributions attempt to deepen and extend an emerging discussion about the limits to African American freedom and autonomy Slavery Abolition President Abraham Lincoln freed millions of slaves in the South in 1863 rescuing them as history tells us from a brutal and inhuman existence and making the promise of freedom and equal rights This is a moment to celebrate and honor to be sure but what of the darker more troubling side of this story Slavery's Ghost explores the dire debilitating sometimes crushing effects of slavery on race relations in American history In three conceptually wide ranging and provocative essays the authors assess the meaning of freedom for enslaved and free Americans in the decades before and after the Civil War They ask important and challenging questions How did slaves and freedpeople respond to the promise and reality of emancipation How committed were white southerners to the principle of racial subjugation And in what ways can we best interpret the actions of enslaved and free Americans during slavery and Reconstruction Collectively these essays offer fresh approaches to questions of local political power the determinants of individual choices and the discourse that shaped and defined the history of black freedom Written by three prominent historians of the period Slavery's Ghost forces readers to think critically about the way we study the past the depth of racial prejudice and how African Americans won and lost their freedom in nineteenth century America

[Children of Fire](#) Thomas C. Holt,2011-09-27 Simply brilliant The first survey of African American history to rival John Hope Franklin and Evelyn Brooks Higginbotham's *From Slavery to Freedom* Henry Louis Gates Jr Ordinary people don't experience history as it is taught by historians The same people who lived through the Civil War and the eradication of slavery also dealt with

the hardships of Reconstruction so why do we almost always treat them separately In *Children of Fire* renowned historian Thomas C Holt challenges this form to tell the story of generations of African Americans through the lived experience of the subjects themselves with all of the nuances ironies contradictions and complexities one might expect Holt captures the entire African American experience from the moment the first twenty African slaves were sold at Jamestown in 1619 Each chapter focuses on a generation of individuals who shaped the course of American history hoping for a better life for their children but often confronting the ebb and flow of their civil rights and status within society Many familiar faces grace these pages Frederick Douglass W E B DuBois Martin Luther King and Barack Obama but also some overlooked ones Figures like Anthony Johnson a slave who bought his freedom in late seventeenth century Virginia and built a sizable plantation only to have it stolen away from his children by an increasingly racist court system Or Frank Moore a WWI veteran and sharecropper who sued his landlord for unfair practices but found himself charged with murder after fighting off an angry white posse Taken together their stories tell how African Americans fashioned a culture and identity amid the turmoil of four centuries of American history Provocative readable passionate Publishers Weekly [New Studies in the History of American Slavery](#) Edward E. Baptist, Stephanie M. H. Camp, 2006 These essays by some of the most prominent young historians writing about slavery fill gaps in our understanding of such subjects as enslaved women the Atlantic and internal slave trades the relationships between Indians and enslaved people and enslavement in Latin America Inventive and stimulating the essays model the blending of methods and styles that characterizes the new cultural history of slavery s social political and economic systems Several common themes emerge from the volume among them the correlation between race and identity the meanings contained in family and community relationships gender and life s commonplaces and the literary and legal representations that legitimated and codified enslavement and difference Such themes signal methodological and pedagogical shifts in the field away from master slave or white black race relations models toward perspectives that give us deeper access to the mental universe of slavery Topics of the essays range widely including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world the contradictions of the assimilation of enslaved African American runaways into Creek communities the consequences and meanings of death to Jamaican slaves and slave owners and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy Opening our eyes to the personal the contentious and even the intimate these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom salvation and damnation wealth and exploitation **“The” Historians' History of the World** Henry Smith Williams, 1907

New York and Slavery Alan J. Singer, 2008 Blending historical narrative with ideas for engaging young people as historians and thinkers Alan J Singer introduces readers to the truth about the history of slavery in New York State and by extension about race in American society Singer s perspective as a historian and a former secondary school social studies

teacher offers a wealth of new information about the past and introduces people and events that have been erased from history New York both the city and the state were centers of the abolitionist struggle to finally end human bondage however at the same time enslaved Africans built the infrastructure of the colonial city The author shows teachers how to develop ways to teach about this very difficult topic He shows them how to deal with racial preconceptions and tensions in the classroom and calls upon teachers and students to become historical activists conduct research write reports and present their findings to the public

Black History and Black Identity William D. Wright, 2002-02-28 This study contends that historians and intellectuals failed to understand the difference between race and ethnicity which has in turn impaired their ability to understand who Black people are in America The author argues that Black Americans are to be distinguished from other categories of black people in the country black Africans West Indians or Hispanics While Black people are members of the black race as are other groups of people they are a distinct ethnic group of that race This conceptual failure has hampered the ability of historians to define Black experience in America and to study it in the most accurate authentic and realistic manner possible This confusing situation is aggravated further by the fact that many scholars tend to describe Black people in an arbitrary manner as Africans African Americans Afro Americans black or Black which is insufficient for precision They sometimes downplay the historical evidence regarding African identity and the identity of Blacks in America Wright offers a new methodological basis for undertaking Black history namely the framework of historical sociology He argues that this approach will produce a more useful history for Black people and others in America

Stone, 2013-09-13 This dissertation examines the cultural and educational history of central Missouri between 1820 and 1860 and in particular the issue of master slave relationships and how they affected education broadly defined as the transmission of Southern culture Although Missouri had one of the lowest slave populations during the Antebellum period Central Missouri or what became known as Little Dixie had slave percentages that rivaled many regions and counties of the Deep South However slaves and slave owners interacted on a regular basis which affected cultural transmission in the areas of religion work and community Generally slave owners in Little Dixie showed a pattern of paternalism in all these areas but the slaves did not always accept their masters paternalism and attempted to forge a life of their own
