Catalog of Copyright Entries Library of Congress. Copyright Office,1956 *Beethoven* Barry Cooper,2008-10-08

Barry Cooper's new volume incorporates the latest international research on many aspects of Beethoven's life and work and presents these in a truly integrated narrative. Offering a wealth of fresh conclusions and intertwining life and work in illuminating ways, *Beethoven and His World* will establish itself as the reference on one of the world's greatest composers. H. P. Clive,2001 Following the author's acclaimed biographical dictionaries on Schubert and Mozart, *Beethoven and His World* offers an extremely comprehensive and up-to-date survey of the composer's relations with a multitude of persons with whom he associated on a personal or professional basis: relatives, friends, acquaintances, librettists, poets, publishers, artists, patrons, and musicians. With more than 450 entries, the dictionary is the result of a wide-ranging examination of primary and secondary sources and critically assesses the use which scholars have made of the considerable documentation now available. In particular, there are numerous references to Beethoven's correspondence and conversation books which have recently been published in excellent new editions. The book places the composer and his music in a fuller context and a wider perspective than might be possible in a traditional biography; it will appeal to all music lovers, both the scholar and the non-specialist alike. Adolf Busch, *Guide to Chamber Music* Melvin Berger,2013-06-17 Authoritative guide presents 231 of the most frequently performed pieces by 55 composers. A must for music lovers and musicians alike. No lover of chamber music should be without this Guide. John Barkham Reviews The Art of the Violin Pierre Baillot,1991-06-01 Never before available in English, this classic work is a major contribution to the art and technique of violin playing and an important document in the history of performance practice. A contemporary of Kreutzer and Rode, Pierre Marie Francois de Sales Baillot provides in his treatise many insights into the style of nineteenth-century fingering, bowing, ornamentation, and expressiveness that are not apparent from the directions and markings found in scores of that time. Such information will be invaluable for performers interested in understanding the intentions of composers such as Viotti, Haydn, Mozart, Beethoven, and Mendelssohn. This complete unabridged translation, which includes an extensive introduction by the translator Louise Goldberg and a foreword by Zvi Zeitlin, will be indispensable for musicologists, performers, and lovers of eighteenth and nineteenth-century classical music.
