The War on Dirty Money Nicholas Gilmour,Tristram Hicks,2023-02-23 Billions of dollars are wasted each year trying to prevent dirty money entering a financial system that is already awash with it The authors challenge the global approach arguing that complacency self interest and misunderstanding have now created long standing absurdities International and government policy makers inadvertently facilitate tax evasion corruption environmental and organised crime by separating crime from its root cause The handful of crime fighters that do exist are starved of resources while an army of compliance box tickers are prevented from truly helping The authors provide a toolbox of evidence based solutions to help the frontline tackle financial crime
