Linguistic Change in French Rebecca Posner, 1997 What is French and how has it changed over time Can we distinguish language

history from historical linguistics and language change from linguistic change These questions are explored using copious material from the history of the French language concentrating on changes in the relatively modern period in particular Posner explains how change comes about and how changes at different levels of language interact and the role of sociological and ideological factors is set against the internal mechanisms that trigger change This work makes a substantial contribution to the theory of linguistic change as well as to discussion of the relationship between language and history in French speaking areas including Canada and French Creole speaking countries *A History of the French Language Through Texts* Wendy Ayres-Bennett, 2005-06-27 This new history of the French language allows the reader to see how the language has evolved for themselves It combines texts and extracts with a readable and detailed commentary allowing the language to be viewed both synchronically and diachronically Core texts range from the ninth century to the present day highlight central features of the language whilst a range of shorter texts illustrate particular points The inclusion of non literary as well as literary texts serves to illustrate some of the many varieties of French whether in legal scientific epistolary administrative or liturgical or in more popular domains including attempts to represent spoken usage This is essential reading for the undergraduate student of French *Metaphor*, 1985-01-01 The aim of the present bibliography is to provide the student of metaphor with an up to date and comprehensive albeit not exhaustive overview of recent publications dealing with various aspects of metaphor in a variety of disciplines Where the emphasis is primarily on specific works about metaphor mainly in philosophy linguistics and psychology the list has been supplemented with references to studies where metaphor is explicitly recognized as an instrument of research or analysis e g in literature or in the elaboration of scientific and religious models or where its use is illustrated *Iconicity in Language* Juan Carlos Moreno Cabrera, 2020-03-26 In linguistics as in semiotics iconicity is the conceived similarity between the form of a linguistic sign and its meaning This book covers all aspects of linguistic iconicity in both spoken and signed languages including definitions of all the relevant concepts and explanations of significant iconic words and expressions and brief summaries of the contents and main proposals of 30 significant works in the history of iconicity research It also provides definitions and exemplifications of the principles governing linguistic iconicity and brief overviews of iconic words and expressions in 11 language families and in more than 50 spoken and signed languages all over the world The book contains 678 entries and more than 8 500 examples drawn from 400 languages and will appeal to scholars and students interested in general linguistics the history of linguistics language typology phonology morphology syntax semantics and semiotics **Syntactic Iconicity and Linguistic Freezes** Marge E.
