Structures Of Power In Modern France:

Structures of Power in Modern France G. Raymond, 1999-10-11 Traditionally France has been viewed as host to a unique set of tensions between the centre and the periphery dating back to the Revolution and beyond which has shaped its structures of power and marked its evolution as a modern society This survey provides a fresh overview of those tensions between a centralising state and the constituencies challenging it and asks whether that model can remain viable or whether it is not in fact undergoing a process of profound change

Democracy in Modern France Nick Hewlett, 2005-12-08 With its unique blend of political history and political theory this book is a welcome addition to the series on Politics Culture and Society in the New Europe Nick Hewlett begins his fascinating study with a discussion of the various ways in which the concept of democracy has been interpreted He continues by tracing the effect of France's revolutionary tradition on the theory and practice of democracy since the Enlightenment looking in particular at both republican democracy and direct democracy Hewlett examines the implications for democracy of profound social and political conflict in France and offers an unusual critique of the institutions and structures of formal politics suggesting that their relationship with democracy is more tenuous than is often assumed The political philosophy of new liberals such as Luc Ferry and Marcel Gauchet is also discussed in detail Thought provoking original and closely argued this book explores some key aspects of politics in France whilst making a strong case for greater direct participation of ordinary people in politics Nick Hewlett is Professor of French Studies and Director of the Centre for European Research at Oxford Brookes University He is author of *Modern French Politics Conflict and Consensus since 1945* 1998 co author of *Contemporary France* with Jill Forbes and François Nectoux 1994 and 2001 and co editor of *Currents in Contemporary French intellectual Life* with Christopher Flood 2000 and *Unity and Diversity in the New Europe* with Barrie Axford and Daniela Berghahn 2000

Marginality, Power and Social Structure Rutledge M. Dennis, 2005-04-08 The articles in this book are intended to be a much needed corrective to the literature on marginality In the recent past and at present the concept of marginality has been used with little specificity and when used with specificity the delineation of the complex dimensions of the term has been less than satisfactory To illustrate the many ways in which marginality exists and operates in many societies Rutledge Dennis has assembled a rich array of articles designed to highlight the history and evolution of the concept of marginality along with the theorists issues and situations which prompted the use of the term and the issues for which the term is applicable today The very title of the volume comes into play here because though many of the early marginality theorists took the term into the realm of psychology the contributors to this volume who discussed the theory highlighted the social structural foundation of marginality Dennis sought a marriage of theory and research while assembling the articles for this volume For this reason he actively sought papers which used divergent research strategies to uncover the existence of marginality in its various forms and contexts Thus some of the papers utilize ethnographic and life history approaches whereas others use statistical analysis

and historical data analysis In addition to theoretical and methodological concerns a major theme for this volume is the combination of both theory and method towards an investigation of issues and problems emanate from the social structure and are closely linked to power and domination

State Formation and the Structure of Politics in Mamluk

Syro-Egypt, 648-741 A.H./1250-1340 C.E. Winslow Williams Clifford,2013 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250 1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk rulers did not as was maintained fo a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans

Social Relations, Politics, and Power in Early Modern France Barbara B.

Diefendorf,2016-09-01 The study of history is a fundamentally sociable practice with the exchange of ideas taking place in writing over the seminar table and often in informal discussions over food These essays grew out of a web of sociability centered around French historian Robert Descimon and focus on the nexus of social relations politics and power in France as it moved from the age of religious wars into the age of absolutism Using a wide variety of historical approaches and methods these essays offer new insights into the evolving role of early modern elites and the social familial and cultural influences that shaped their values and priorities

Culture & Power David Swartz,2024-05-31 Pierre Bourdieu is one of the world s most important social theorists and is also one of the great empirical researchers in contemporary sociology However reading Bourdieu can be difficult for those not familiar with the French cultural context and until now a comprehensive introduction to Bourdieu s oeuvre has not been available David Swartz focuses on a central theme in Bourdieu s work the complex relationship between culture and power and explains that sociology for Bourdieu is a mode of political intervention Swartz clarifies Bourdieu s difficult concepts noting where they have been misinterpreted by critics and where they have fallen short in resolving important analytical issues The book also shows how Bourdieu has synthesized his theory of practices and symbolic power from Durkheim Marx and Weber and how his work was influenced by Sartre Levi Strauss and Althusser Culture and Power is the first book to offer both a sympathetic and critical examination of Bourdieu s work and it will be invaluable to social scientists as well as to a broader audience in the humanities

Dismantling Democratic

States Ezra N. Suleiman,2013-12-03 Bureaucracy is a much maligned feature of contemporary government And yet the aftermath of September 11 has opened the door to a reassessment of the role of a skilled civil service in the survival and viability of democratic society Here Ezra Suleiman offers a timely and powerful corrective to the widespread view that bureaucracy is the source of democracy s ills This is a book as much about good governance as it is about bureaucratic organizations Suleiman asks Is democratic governance hindered without an effective instrument in the hands of the

legitimately elected political leadership Is a professional bureaucracy required for developing but not for maintaining a democratic state Why has a reform movement arisen in recent years championing the gradual dismantling of bureaucracy and what are the consequences Suleiman undertakes a comparative analysis of the drive toward a civil service grounded in the New Public Management He argues that government reinvention has limited bureaucracy's capacity to adequately serve the public good All bureaucracies have been under political pressure in recent years to reduce not only their size but also their effectiveness and all have experienced growing deprofessionalism and politicization He compares the impact of this evolution in both democratic societies and societies struggling to consolidate democratic institutions Dismantling Democratic States cautions that our failure to acknowledge the role of an effective bureaucracy in building and preserving democratic political systems threatens the survival of democracy itself

Gender, State and Social Power in Contemporary

Indonesia Kate O'Shaughnessy, 2009-01-13 This book examines gender state and social power in Indonesia focusing in particular on state regulation of divorce from 1965 to 2005 and its impact on women Indonesia experienced high divorce rates in the 1950s and 1960s followed by a remarkable decline Already falling divorce rates were reinforced by the 1974 Marriage Law which for the first time regulated marriage for both Muslim and non Muslim Indonesians and restricted access to divorce This law defined the roles of men and women in Indonesian society vesting household leadership with husbands and the management of the household with wives Drawing on a wide selection of primary sources including court records legal codes newspaper reports fiction interviews and case studies this book provides a detailed historical account of this period of important social change exploring fully the impact and operation of state regulation of divorce including the New Order government's aims in enacting this legal framework its effects in practice and how it was utilised by citizens both men and women to advance their own agendas It argues that the Marriage Law was a tool of social control enacted by the New Order government in response to the social upheaval and protests experienced in the mid 1970s However it also shows that state power was not hegemonic it was both contested and co-opted by citizens with men and women enjoying different degrees of autonomy from the state This book explores all of these issues providing important insights on the nature of the New Order regime social power and gender relations both during the years of its rule and since its collapse

Social

Structure and Mobility in Economic Development Seymour Lipset, 2018-04-27 The foundation of this volume is the notion that the several processes of change constituting economic and social development are systematically interrelated The essence of development is the appearance of rapid rates of increases in many different indices output per capita political participation literacy and the like These quantitative changes are however commonly accompanied by vast changes in the social structure markets emerge political bureaucracies arise and new educational systems appear Written by the leading authorities on the subject this group of papers tackles the causes and consequences of social mobility Each author brings his particular skills to bear on various aspects of the problem in studies of persons moving from rural to urban settings from one

kind of industry to another and from one prestige level to another Several of the papers review the theoretical and methodological issues involved in comparative research on social mobility while others compare and contrast traditional and modern stratification systems Various papers explore the economic religious and psychological basis of social mobility concluding with enquiry into the consequences of rapid mobility especially in terms of the political stability of developing nations Because social mobility is a central consideration in any study of economic and social change every student of change will use this pioneering reference source as a text for all future research Contributors include Otis Dudley Duncan Harold L Wilensky Michael G Smith Bert F Hoselitz Wilbert E Moore Natalie Rogoff Rams y Gideon Sjoberg Reinhard Bendix Harry Crockett David Matza Lester Seligman and Gino Germani Neil J Smelser is emeritus professor Department of Sociology University of California Berkeley Seymour Martin Lipset was professor of sociology and director of the Institute of International Studies at the University of California Berkeley

The Power and Patronage of Marguerite de Navarre Barbara Stephenson,2017-07-05 Although Marguerite de Navarre s unique position in sixteenth century France has long been acknowledged and she is one of the most studied women of the time until now no study has focused attention on Marguerite s political life Barbara Stephenson here fills the gap delineating Marguerite s formal political position and highlighting her actions as a figure with the opportunity to exercise power through both official and unofficial channels Through Marguerite s surviving correspondence Stephenson traces the various networks through which this French noblewoman exercised the power available to her to further the careers of political and religious clients as well as her struggle to protect the interests of her brother the king and those of her own family and household The analysis of Marguerite s activities sheds light on noble society as a whole

Maritime Power and the Power of Money in Louis XIV's France Benjamin Darnell,2023 A detailed analysis of the limitations of the system which relied on intermediaries and private suppliers to finance build and maintain the French navy Although Louis XIV s navy did not win in any recognisable sense during the wars of the later seventeenth and early eighteenth centuries it was nevertheless one of the largest military institutions of the entire early modern world at a key moment in the evolution of the modern state and modern warfare This book examines how Louis XIV s navy was financed

arguing that the way the state spends money and the relative efficiency and accountability of that spending is fundamental to understanding the effectiveness of a military system It outlines how the French crown depended on fiscal intermediaries and private suppliers explores how its failure to control the spending and activities of its contractors fundamentally limited France's strategic possibilities at sea and discusses how these structural problems were progressively and disastrously exposed as the state's financial situation deteriorated The book sets the activities of the French navy in the wider context of the wars of the period showing that France necessarily had to give precedence to the funding of its army Overall the book highlights the limitations of the contractor state demonstrating that early modern navies were both too complex and investment heavy to be entirely outsourced *Current Research in French Studies at Universities and Polytechnics in the United Kingdom and Ireland*, 1996
