The Structurist, 1999 *Biocentrism and Modernism* Oliver A.I. Botar, 2017-07-05 Examining the complex intersections between art and scientific approaches to the natural world Biocentrism and Modernism reveals another side to the development of Modernism While many historians have framed this movement as being mechanistic and against nature the essays in this collection illuminate the role that nature centric ideologies played in late nineteenth to mid twentieth century Modernism The essays in Biocentrism and Modernism contend that it is no accident that Modernism arose at the same time as the field of modern biology From nineteenth century discoveries to the emergence of the current environmentalist movement during the 1960s artists architects and urban planners have responded to currents in the scientific world Sections of the volume treat both philosophic worldviews and their applications in theory historiography and urban design This collection also features specific case studies of individual artists including Raymond Duchamp Villon Paul Klee Wassily Kandinsky and Jackson Pollock *Jacques Lacan and the Logic of Structure* Ellie Ragland, 2015-06-26 Lacan postulated that the psyche can be understood by means of certain structures which control our lives and our desires and which operate differently at different logical moments or stages of formation Jacques Lacan and the Logic of Structure offers us a reading of the major concepts of Lacan in terms of his later topological theory and aims to show how this was always a concern for Lacan and not only an issue in the last seminars Ellie Ragland discusses how various stages of formation can be uncovered topologically within language itself and operate to place certain properties fantasy the drive jouissance discourse and ethics in language itself In this way she explores not only how language actually works in tandem with the properties but also gives a different idea of what knowledge actually is and what implications that may have for reimagining and reworking differential diagnostic structures Jacques Lacan and the Logic of Structure is a compelling exponent of the innovative approaches Lacan takes to rethinking what psychoanalysis is and what it can do to enlighten psychoanalysts and treat patients It will be essential reading to psychoanalysts psychoanalytic psychotherapists training graduate students in the fields of film literary gender and cultural studies **George Whalley** George Whalley, 1985-01-01 Bloodrites of the Post-Structuralists Anne Norton, 2013-04-15 How do you write history when it is no longer linear In Bloodrites of the Post Structuralists respected political theorist Anne Norton reminds us of the real interplay between words laws scriptures myths and texts and the world of flesh Drawing from sources as diverse as foundational myths from Sarah in the bible Marat in his death bath and thinkers like Hegel and Foucault Norton reinterprets the relationship between word and flesh and places it in historical context The French and English Revolutions as well as the period of anti colonialism and post colonialism are used to frame her discussion of word and body and their historical significance Structural Models and African Poetics Sunday O. Anozie, 2016-08-19 In this pioneering work first published in 1981 Sunday O Anozie examines the relevance of structuralism and semiology to literary criticism in general and to African poetics in particular Behind the growing body of African

literature lies an immense reservoir of oral tradition for which the proper tools of analysis and interpretation have yet to be found This book represents the first comprehensive full scale exposition analysis and critique of structuralism by a non Western and non European scholar From an African viewpoint it examines the roles to be played by structuralism and post structuralism in the development of the general principles governing poetics and literary creativity in Africa This title will be of interest to students of literature and literary theory

Sex for Structuralists Shanna de la Torre,2018-08-03 This book argues that structuralism makes itself useful when it engages with the non Oedipal logics of femininity and psychosis Building from the psychoanalytic belief that norms repress unconscious desire while structures open onto the creative resources of the symbolic Sex for Structuralists looks to key texts in myth trauma and unconscious fantasy by Sigmund Freud Jacques Lacan and Claude L vi Strauss It also examines innovative writings by contemporary Lacanian thinkers in order to discover what becomes of structuralism when the ground upon which it ostensibly stands namely that of the zero symbol or the incest prohibition drops out from under it

Ricoeur and the Post-Structuralists Johann Michel,2014-10-31 In this important and original book Johann Michel paves the way for a greater understanding of Paul Ricoeur s philosophy by exploring it in relation to some major figures of contemporary French thought Bourdieu Derrida Deleuze Foucault and Castoriadis Although the fertile dialogue between Ricoeur and various structuralist thinkers is well documented his position in relation to the post structuralist movement is less widely understood Does Ricoeur s philosophy stand in opposition to post structuralism in France or on the contrary is it in fact a unique variation of that movement This book defends the latter statement Michel speaks of post structuralisms in the plural form and engages them in a dynamic confrontation between Ricoeur and his contemporaries in the French intellectual scene The result is a better understanding of Ricoeur s thought and also of the distinctive issues that emerge through confrontation between Ricoeur and each of these post structuralist thinkers

Historic Structures F.W. Galan,2014-10-03 In this first book length study of Czech structuralism and semiotics in English F W Galan explores one of the most important intellectual currents of the twentieth century filling the gap between what has been written of the Russian formalism of the twenties and the French structuralism of the sixties and seventies He records the evolution within the Prague Linguistic Circle of those theories which concern literature s change in time and the place of

literature in society In doing so he reveals how the work of the Prague Linguistic Circle in the years 1928 to 1946 vindicate structuralism against its critics charges that the structuralist approach in linguistics literary theory film studies and related fields is inherently unhistorical Overcoming this apparent methodological impasse was the main challenge confronted by the scholars of the Prague School Roman Jakobson and Jan Mukarovsky in particular

Structure and the Book of Zechariah Mike Butterworth, 1992-01-01 This synthetic study has two primary tasks The first is to elucidate the structure of the book of Zechariah But in order to do this a satisfactory method of analysis must be found Thus the author begins by drawing up suitable literary criteria that will help to frame a reliable way of proceeding The method is then tested on the book of Zechariah and the results are compared with those of other biblical scholarship Although this is a study in rhetorical criticism it approaches the text from the standpoint of the authors and redactors intentions The result is a convincing and wide ranging analysis of the various and complex structural patterns of Zechariah

Screenplay and Narrative Theory George Varotsis, 2015-10-01 Screenplay and Narrative Theory draws attention to the notion that in order to comprehend complex narrative dynamics which are encountered in a great variety of narrative genres forms and formats a more comprehensive theory of narrative is required George Varotsis explains how a work of narrative functions synergistically and systemically as well as elucidates the heuristic problem solving mechanisms that are employed in various structural levels of thought processes which allow the coherent accumulative derivative we call a story to emerge The transition from an empirical to theoretical perspective is achieved by introducing characteristics of complex narrative systems a network of narrative components i e characters structure goals motivations theme plot and subplots narrative action etc which are arranged hierarchically over three fundamental levels of structure i e deep intermediate and surface structure that interact parallel to one another in non linear ways Varotsis tackles questions about how stories semantically emerge in the underlying dynamics that allow a work of narrative to function as a unified whole
