Struggle For Democracy By Greenberg 6th Edition:

American Crossroads Jesse Wisniewski, 2011-08-25 Should Christians be concerned with faith and evangelism and not political affairs In answering this question American Crossroads provides a thought provoking look at what it means to submit to the governing authorities of the United States of America Just as God called for Christians to submit to the Roman government that forced its will upon the people Rom 13 1 so too is God calling for us to submit to the existing form of government in the United States a government that lives and thrives upon the will and involvement of people Today by submitting to the government Christian citizens are led to influence the American political process that depends upon the involvement of all citizens for its well being and survival *Answering the Call of the Court* Vanessa A. Baird, 2008-08-13 The U S Supreme Court is the quintessential example of a court that expanded its agenda into policy areas that were once reserved for legislatures Yet scholars know very little about what causes attention to various policy areas to ebb and flow on the Supreme Court s agenda Vanessa A Baird s *Answering the Call of the Court* How Justices and Litigants Set the Supreme Court Agenda represents the first scholarly attempt to connect justices priorities litigants strategies and aggregate policy outputs of the U S Supreme Court Most previous studies on the Supreme Court s agenda examine case selection but Baird demonstrates that the agenda setting process begins long before justices choose which cases they will hear When justices signal their interest in a particular policy area litigants respond by sponsoring well crafted cases in those policy areas Approximately four to five years later the Supreme Court s agenda in those areas expands with cases that are comparatively more politically important and divisive than other cases the Court hears From issues of discrimination and free expression to welfare policy from immigration to economic regulation strategic supporters of litigation pay attention to the goals of Supreme Court justices and bring cases they can use to achieve those goals Since policy making in courts is iterative multiple well crafted cases are needed for courts to make comprehensive policy Baird argues that judicial policy making power depends on the actions of policy entrepreneurs or other litigants who systematically respond to the priorities and preferences of Supreme Court justices **Real Democracy** Frank M. Bryan, 2010-03-15 Relying on an astounding collection of more than three decades of firsthand research Frank M Bryan examines one of the purest forms of American democracy the New England town meeting At these meetings usually held once a year all eligible citizens of the town may become legislators they meet in face to face assemblies debate the issues on the agenda and vote on them And although these meetings are natural laboratories for democracy very few scholars have systematically investigated them A nationally recognized expert on this topic Bryan has now done just that Studying 1 500 town meetings in his home state of Vermont he and his students recorded a staggering amount of data about them 238 603 acts of participation by 63 140 citizens in 210 different towns Drawing on this evidence as well as on evocative witness accounts from casual observers to no lesser a light than Aleksandr Solzhenitsyn Bryan paints a vivid picture of how real democracy works Among the many fascinating questions he explores

why attendance varies sharply with town size how citizens resolve conflicts in open forums and how men and women behave differently in town meetings In the end Bryan interprets this brand of local government to find evidence for its considerable staying power as the most authentic and meaningful form of direct democracy Giving us a rare glimpse into how democracy works in the real world Bryan presents here an unorthodox and definitive book on this most cherished of American institutions

Why Presidential Speech Locations Matter Shannon Bow O'Brien, 2018-04-10 This book explores speeches by American presidents Domestic public presidential speechmaking helps us understand the pressures priorities and targeted audiences of different presidencies Many administrations generally work to reinforce already existing support though some may try to reach out to new areas Census areas help us better understand where presidents prioritize speeches in certain areas of the country Designated Market Areas or media markets allow us to look at presidential speechmaking without geographical constraints and focus on areas of population concentrations Electoral College results show that most administrations prefer to give speeches in places where they have the most electoral support to reinforce their bases The chapter on vacation locations explores how some presidents use Camp David or their homes as places to actively speak while some administrations just use them as retreats Foreign speeches allow us to see that most presidents prefer to speak in openly free countries more than other places

Struggle Democracy Edward S. Greenberg,1999 *Two Presidents Are Better Than One* David Orentlicher,2013-03-11 Can Orentlicher be serious in calling for a plural executive The answer is yes and he presents thoughtful and challenging arguments responding to likely criticisms Any readers who are other than completely complacent about the current state of American politics will have to admire Orentlicher s distinctive audacity and to respond themselves to his well argued points Sanford Levinson author of Framed America s 51 Constitutions and the Crisis of Governance In this refreshingly provocative book David Orentlicher explains why it is due time for us to reconsider dominant ideas about the presidency now arguably our most powerful political institution William E Scheuerman Indiana University When talking heads and political pundits make their What s Wrong with America lists two concerns invariably rise to the top the growing presidential abuse of power and the toxic political atmosphere in Washington In Two Presidents Are Better Than One David Orentlicher shows how the imperial presidency and partisan conflict are largely the result of a deeper problem the Constitution s placement of a single president atop the executive branch Accordingly writes Orentlicher we can fix our broken political system by replacing the one person one party presidency with a two person two party executive branch Orentlicher contends that our founding fathers did not anticipate the extent to which their checks and balances would fail to contain executive power and partisan discord As the stakes in presidential elections have grown ever higher since the New Deal battles to capture the White House have greatly exacerbated partisan differences Had the framers been able to predict the future Orentlicher argues they would have been far less enamored with the idea of a single leader at the head of the executive branch and far more receptive to the alternative proposals for a plural executive that they rejected Analyzing the histories of other countries with a plural executive branch and past examples of bipartisan cooperation within Congress Orentlicher shows us why and how to implement a two person two party presidency Ultimately Two Presidents Are Better Than One demonstrates why we need constitutional reform to rebalance power between the executive and legislative branches and contain partisan conflict in Washington David Orentlicher is Samuel R Rosen Professor at Indiana University Robert H McKinney School of Law A scholar of constitutional law and a former state representative David also has taught at Princeton University and the University of Chicago Law School He earned degrees in law and medicine at Harvard and specializes as well in health care law and ethics

Presidential Road Show Diane J. Heith, 2015-12-03 In *The Presidential Road Show* Public Leadership in an Era of Party Polarization and Media Fragmentation Diane J Heith evaluates presidential leadership by critically examining a fundamental tenet of the presidency the national nature of the office The fact that the entire nation votes for the office seemingly imbues the presidency with leadership opportunities that rest on appeals to the mass public Yet presidents earn the office not by appealing to the nation but rather by assembling a coalition of supporters predominantly partisans Moreover once in office recent presidents have had trouble controlling their message in the fragmented media environment The combined constraints of the electoral coalition and media environment influence the nature of public leadership presidents can exercise Using a data set containing not only speech content but also the classification of the audience Diane J Heith finds that rhetorical leadership is constituency driven and targets audiences differently Comparing tone content and tactics of national and local speeches reveals that presidents are abandoning national strategies in favor of local leadership efforts that may be tailored to the variety of political contexts a president must confront Current Publications in Legal and Related Fields
