Palmer, 2003-12-04 The Struggle Against Slavery David Waldstreicher, 2001 From slave ships to plantations to freedom The Struggle Against Slavery traces the remarkable history of the heroic fight to end slavery from its North American beginnings in the early 1600s to its violent demise in the mid 1800s with the Civil War Captured in their own words from transcripts diaries memoirs newspaper clippings drawings and other documents are the stories of how slaves and free blacks fought against the dehumanization of slavery by developing anti racist arguments creating their own institutions physically escaping and fighting with weapons An exceptional social political and cultural history of the period The Struggle Against Slavery is filled with stirring tales of survival and strength bringing to life the African American experience in early America The Time of Slavery Elizabeth Sirimarco, 2007 Describes the history of slavery in the United States from the landing of the first enslaved Africans to the close of the Civil War through various primary source documents such as slave narratives advertisements newspaper accounts official documents and laws plus contemporary art and photos Provided by publisher *Beyond the Founders* Jeffrey L. Pasley, Andrew W. Robertson, David Waldstreicher, 2009-11-04 In pursuit of a more sophisticated and inclusive American history the contributors to Beyond the Founders propose new directions for the study of the political history of the republic before the Civil War In ways formal and informal symbolic and tactile this political world encompassed blacks women entrepreneurs and Native Americans as well as the Adamses Jeffersons and Jacksons all struggling in their own ways to shape the new nation and express their ideas of American democracy Taking inspiration from the new cultural and social histories these political historians show that the early history of the United States was not just the product of a few founding fathers but was also marked by widespread and passionate popular involvement print media more politically potent than that of later eras and political conflicts and influences that crossed lines of race gender and class Contributors John L Brooke The Ohio State University Andrew R L Cayton Miami University Ohio Saul Cornell The Ohio State University Seth Cotlar Willamette University Reeve Huston Duke University Nancy Isenberg University of Tulsa Richard R John University of Illinois at Chicago Albrecht Koschnik Florida State University Rich Newman Rochester Institute of Technology Jeffrey L Pasley University of Missouri Columbia Andrew W Robertson City University of New York William G Shade Lehigh University David Waldstreicher Temple University Rosemarie Zagarrri George Mason University **Documents for America's History, Volume 1** Melvin Yazawa, James A. Endless Holocausts David Michael Smith, 2023 The U S Empire has relied upon an almost unimaginable loss of life from its inception during the European

colonial period to the present And yet in the face of a series of endless holocausts at home and abroad the doctrine of American exceptionalism has plagued the globe for over a century In *Endless Holocausts* author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death far from being unfortunate exceptions to an otherwise benign historical record have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world At the same time Smith points to an extraordinary history of resistance by Indigenous peoples people of African descent people in other nations brutalized by U S imperialism workers and democratic minded people around the world determined to fight for common dignity and the sake of the greater good Back cover *A History of Southland College* Thomas Kennedy, 2009-11 In 1864 Alida and Calvin Clark two abolitionist members of the Religious Society of Friends from Indiana went on a mission trip to Helena Arkansas The Clarks had come to render temporary relief to displaced war orphans but instead found a lifelong calling During their time in Arkansas they started the school that became Southland College which was the first institution of higher education for blacks west of the Mississippi and they set up the first predominately black monthly meeting of the Religious Society of Friends in North America Their progressive racial vision was continued by a succession of midwestern Quakers willing to endure the primitive conditions and social isolation of their work and to overcome the persistent challenges of economic adversity social strife and natural disaster Southland's survival through six difficult and sometimes dangerous decades reflects both the continuing missionary zeal of the Clarks and their successors as well as the dedication of the black Arkansans who sought dignity and hope at a time when these were rare commodities for African Americans in Arkansas **Civil Rights Since 1787** Jonathan Birnbaum, Clarence Taylor, 2000-06 Editors Birnbaum writer and Taylor history Florida International U have gathered an impressive array of documentary materials from a variety of sources including excerpts from books and articles and recent newspaper articles Their material divided into the broad categories of slavery reconstruction segregation the second reconstruction backlash redux and towards a third reconstruction traces the ongoing black struggle for civil rights from the arrival of the first Africans to America today Each major section begins with a brief introduction by the editors Annotation copyrighted by Book News Inc Portland OR *Exhibiting Slavery* Vivian Nun Halloran, 2009-10-23 *Exhibiting Slavery* examines the ways in which Caribbean postmodern historical novels about slavery written in Spanish English and French function as virtual museums simultaneously showcasing and curating a collection of primary documents within their pages As Vivian Nun Halloran attests these novels highlight narrative objects extraneous to their plot such as excerpts from the work of earlier writers allusions to specific works of art the uniforms of maroon armies assembled in preparation of a military offensive and accounts of slavery's negative impact on the traditional family unit in Africa or the United States In doing so they demand that their readers go beyond the pages of the books to sort out fact from fiction and consider what relationship these featured objects have to slavery and to contemporary life The self referential function of these texts produces a museum effect that simultaneously

teaches and entertains their readers prompting them to continue their own research beyond and outside the text
