

Preface

=====

The wars that "made" nations and the wars waged between nations have been the traditional province of the historian. But it has been the bias of the Western tradition of political research to assume that once nations were "made," internal violence was a disagreeable and aberrational activity destructive to political life, rather than a revelation of some of its deepest sources. Today the analyst views a world of developmentally staggered political systems and mixed processes of interaction. Some states are enduring the crude "nation-making" type of internal incoherence; others are huffed by the play of international forces stronger than their own capacities of restraint; and yet other "made" nations experience organized violence because there is still social strife over principles of political organization, distribution of the national wealth, or the assimilation of regional residues. Simply stated: internal war is not a mere measles and mumps of politics. Instead, it is one of the striking aspects of political change in our times and—at least, for the foreseeable future—a major compartment of politics in general. Thus, in focusing on the phenomenon of internal war, this book is not a collection of rare and esoteric cases; it, too, is about politics in general.

The chief stimulus for this collection arose from a practical difficulty. One of us (G. A. K.), in attempting, on two occasions (at Harvard and at Brandeis), to teach a wide-ranging course in the historical sociology of internal war, found himself handicapped by the extreme scattering of the most useful materials. Despite modern library resources, teachers get uneasy when they have to send students racing from journal to journal and book to book to seek out the guts of a subject. Thus the natural idea arose of consolidating a body of theoretical and analytical writing on internal war as effectively as possible. A sympathetic collaboration was formed (G. A. K. and G. W. B., Jr.), and we attempted, here, to assemble the essays and chapters that have proved valuable in the classroom, enhanced by some new additions. Conversations and exchanges with other social scientists confirmed our
