**Maurice Ashley**

## **Stuart England:**

Stuart England Angus Stroud, 2002-01-31 *Stuart England* is an invaluable introduction to the political religious and social history of seventeenth century England It provides a wide ranging and lively account of core events drawing on both contemporary sources and the latest interpretations by modern historians Starting with the legacy of Elizabeth I and ending with the reign of William III and Mary Stuart *England* covers all aspects of the monarchy high and low politics and the culture of the people Key topics include English society and religion ideas of monarchy and government finance and parliament foreign policy With comprehensive questions and analysis exercises diagrams and maps *Stuart England* provides an excellent and indispensable guide to English history of the seventeenth century

**A Political History of Tudor and Stuart England** Victor Stater, 2005-06-29 *A Political History of Tudor and Stuart England* draws together a fascinating selection of sources to illuminate this turbulent era of English history From the bloody overthrow of Richard III in 1485 to the creation of a worldwide imperial state under Queen Anne these sources illustrate England's difficult transition from the medieval to the modern Covering a period characterised by conflict and division this wide ranging single volume collection presents the accounts of Yorkists and Lancastrians Protestants and Catholics and Roundheads and Cavaliers side by side *A Political History of Tudor and Stuart England* provides a crucial opportunity for students to examine the institutions and events that moulded English history in the early modern era at first hand

**Conflict in Early Stuart England** Richard Cust, Ann Hughes, 2014-07-22 This important collection of essays based on extensive original research presents a vigorous critique of revisionist analyses of the period and reasserts the importance of long term ideological and social developments in causing the outbreak of the civil war

*Culture and Politics in Early Stuart England* Kevin Sharpe, 1993 In recent years new schools of historiography and criticism have recast the political and cultural histories of Elizabethan and early Stuart England However for all the benefits of their insights most revisionist historians have too narrowly focussed on high politics to the neglect of values and ideology and New Historicist literary scholars have displayed an insufficient grasp of chronology and historical context The contributors to this pioneering volume richly fusing these approaches apply a revisionist close attention to moments to the wide range of texts verbal and visual that critics have begun to read as representations of power and politics Excitingly broadening the range of areas and evidence for the study of politics these outstanding essays demonstrate how the study of high culture classical translations court portraits royal palaces the conduct of chivalric ceremony and low culture cheap pamphlets and scurrilous verses enable us to reconstruct the languages through which contemporaries interpreted their political environment The volume posits a reconsideration of the traditional antithetical concepts court and country verbal and visual critical and complimentary elite and popular examines the constructions of a moral and social order enacted in a wide variety of cultural practices and demonstrates how common vocabularies could in changed circumstances be combined and deployed to sustain quite different ideological positions This book opens a new

agenda for the study of the politics of culture and the culture of politics in early modern England Publisher's website

**Court Patronage and Corruption in Early Stuart England** Linda Levy Peck, 2003-08-29 This wide ranging volume goes to the heart of the revisionist debate about the crisis of government that led to the English Civil War The author tackles questions about the patronage that structured early modern society arguing that the increase in royal bounty in the early seventeenth century redefined the corrupt practices that characterized early modern administration [Stuart England](#) John Philipps Kenyon, 1978 [Representing Elizabeth in Stuart England](#) John Watkins, 2002-08-08 Publisher Description

*Literature and Political Intellection in Early Stuart England* Todd Wayne Butler, 2019 Todd Butler charts how some of the Stuart period's major challenges to governance evoked much greater disputes about the mental processes by which monarchs and subjects imagined and effected political action He draws upon a myriad of literary and political texts including the work of Francis Bacon John Donne Philip Massinger and John Milton [Stuart England, 1603-1714](#) Barry Coward, 1997 Introduces the history of Stuart England Suggested level senior secondary [The Stuart Age](#) Barry Coward, 2014-01-14 The Stuart Age provides an accessible introduction to many major themes of the period including the causes of the English Civil War the nature of the English Revolution the aims and achievements of Oliver Cromwell the continuation of religious passion in the politics of Restoration England and the impact on Britain of the Glorious Revolution In it Coward also covers the relevant history of Scotland and Ireland and gives comprehensive treatment of economic social intellectual as well as political and religious history **Life in Stuart England** Maurice Ashley, 1964 Panorama of seventeenth century British society

**A Companion to Stuart Britain** Barry Coward, 2008-04-15 Covering the period from the accession of James I to the death of Queen Anne this companion provides a magisterial overview of the long seventeenth century in British history Comprises original contributions by leading scholars of the period Gives a magisterial overview of the long seventeenth century Provides a critical reference to historical debates about Stuart Britain Offers new insights into the major political religious and economic changes that occurred during this period Includes bibliographical guidance for students and scholars

[The Guitar in Stuart England](#) Christopher Page, 2017-11-16 This is the first history of the guitar during the reign of the Stuarts a time of great political and social upheaval in England In this engaging and original volume Christopher Page gathers a rich array of portraits literary works and other previously unpublished archival materials in order to create a comprehensive picture of the guitar from its early appearances in Jacobean records through its heyday at the Restoration court in Whitehall to its decline in the first decades of the eighteenth century The book explores the passion of Charles II himself for the guitar and that of Samuel Pepys who commissioned the largest repertoire of guitar accompanied song to survive from baroque Europe Written in Page's characteristically approachable style this volume will appeal to general readers as well as to music historians and guitar specialists *English Students at Leiden University, 1575-1650* Daniela Prögler, 2016-05-13 The oldest and most renowned Dutch university Leiden was an attractive proposition for travelling

foreign students in the seventeenth and eighteenth centuries. Alongside offering an excellent academic program and outstanding facilities, Leiden was also able to cater to the desires of noble students providing various extra-curricular activities. Leiden was the most popular continental university among English students and this book investigates the 831 English students who studied there between 1575 and 1650. The preference of English students for Leiden was on the one hand related to close Anglo-Dutch relations of the period and these are investigated with respect to politics, economy, religion, culture, as well as to the large stranger communities residing in the respective countries. On the other hand, Leiden's attraction resulted from its academic achievements which are traced back to the conditions in the United Provinces, the limited influence of the Calvinist Church, Leiden's professors, as well as the university's facilities. The core of this study is an exhaustive quantitative study of the composition of the Leiden student population in general and that of its English segment in particular. Information is provided on the duration of the studies of English students at Leiden, their age, social background, and fields of study. We learn about the careers of English students both prior to and after their time at Leiden and of the motivation that led the English to choose Leiden over other continental universities. More than a study of one group of students at one university, this book is a valuable contribution to the history of early modern universities and will appeal to a wide international readership interested in cultural and intellectual history as well as in Anglo-Dutch relations. **The**

**Politics of the Ancient Constitution** Glenn Burgess, 1992-09-02. The Politics of the Ancient Constitution is a close examination of the political ideas of common lawyers in early Stuart England and includes important surveys of the ideas of Sir Edward Coke and John Selden. It provides an original interpretation of the lawyers' theory of the ancient constitution and on this basis it provides a novel interpretation of the basic structure of political thought and ideology in pre-Civil War England. In this way, the book is able to make a substantial contribution to debates over the ideological origins of the English Revolution. *Marriage in Seventeenth-Century English Political Thought* Belinda Roberts Peters, 2004-09-08. This study traces the decline of marriage as a metaphor for political authority, subjection, and tyranny in Seventeenth-century political thought. An image that bound consent and contract with divine right, absolutism, and irrevocably connected royal prerogatives with subjects' liberties, its disappearance in the middle decades of the century coincided with the full emergence of patriarchalist and social contract theories. If both these accepted the importance of fathers of families, neither would suggest that political government could be comparable to marriage. **London's News Press and the Thirty Years War** Jayne E.

E. Boys, 2014. A topical subject offering interesting parallels between the news revolution in the age of James I and Charles I and our internet age. An important contribution to the history of print and books, London's News Press shows that seventeenth-century England was very much part of a European-wide news community. The book presents a new print history that looks across Europe and the interconnecting political and religious groups with international networks. It tells the story of the printers and publishers engaged in the earliest illicit publications, their sources and connections in Germany as well as

the Netherlands and traces the way legitimacy was achieved These were the earliest printed periodical news publications Periodicity and its implications for trade and customers is explored as well as the roles of publishers and editors The period saw a much bigger circulation of news than had ever been experienced before The book also describes the lively nature of relationships that ensued between news networkers editors writers and readers along their interconnecting chains The subject is topical Our understanding of reading and communications is undergoing major changes with the rise and proliferation of social media James I and Charles I faced new media and an unprecedented growth in informed public opinion fuelled by a flow of information that was essentially beyond the reach of government control So there are parallels with the contemporary struggle to adapt and there is a corresponding growth in the publication of history books reflecting upon the origins of the public sphere and the development of public opinion

**JAYNE E E BOYS** is an independent scholar who lives in Suffolk and British Columbia

**Bad Queen Bess?** Peter Lake, 2016-01-07 *Bad Queen Bess* analyses the back and forth between the Elizabethan regime and various Catholic critics who from the early 1570s to the early 1590s sought to characterise that regime as a conspiracy of evil counsel Through a genre novel the libellous secret history to English political discourse various usually anonymous Catholic authors claimed to reveal to the public what was really happening behind the curtain of official lies and disinformation with which the clique of evil counsellors at the heart of the Elizabethan state habitually cloaked their sinister manoeuvres Elements within the regime centred on William Cecil and his circle replied to these assaults with their own species of plot talk and libellous secret history specialising in conspiracy driven accounts of the Catholic Marian and then latterly Spanish threats Peter Lake presents a series of mutually constitutive moves and counter moves in the course of which the regime's claims to represent a form of public political virtue to speak for the commonweal and true religion elicited from certain Catholic critics a simply inverted rhetoric of private political vice persecution and tyranny The resulting exchanges are read not only as a species of political thought but as a way of thinking about politics as process and of distinguishing between politics and religion They are also analysed as modes of political communication and pitch making involving print circulating manuscripts performance and rumour and thus as constitutive of an emergent mode of public politics and perhaps of a post reformation public sphere While the focus is primarily English the origins and imbrication of these texts within and their direct address to wider European events and audiences is always present The aim is thus to contribute simultaneously to the political cultural intellectual and religious histories of the period

**Kingship and Crown Finance Under James VI and I, 1603-1625** John Cramsie, 2002 This study analyses in detail how James fashioned and refashioned political regimes in England to further this agenda between 1603 and 1625 In so doing it treats crown finance as a study in kingship which reveals the dynamic sometimes fraught interaction of political ideas and practice By moving beyond older stereotypes and treatments of crown finance as an institutional topic Dr Cramsie provides fundamental insights into James himself and into his personal rule

**BOOK JACKET      The Routledge Companion to the**

**Tudor Age** Rosemary O'Day, 2012-07-26 This new Companion is an invaluable guide to one of the most colourful periods in history. Covering everything from the Reformation controversies over the succession and the prayer book to literature, the family and education, this highly accessible reference tool contains commentary on the key events in the reigns of the five Tudor monarchs from Henry VII to Elizabeth I. Opening with a general introduction, it includes a wealth of chronologies, biographies, statistics and maps, as well as a glossary and a guide to the key works in the field. Topics covered include: The establishment of the Tudor dynasty; monarchs and their consorts; rebellions against the Tudors; The legal system: central and ecclesiastical courts; Government: central and local; the Monarchy and Parliament; The Church: structure and changes throughout this tumultuous period; Ireland; timeline of key events; Population: numbers and distribution; The World of Learning: education, literature, religion; The key debates in the field. This book will be essential reading for all those with an interest in the Tudor Age.
