Student Spaces Joel K. Sims,2011-12-02 There are many factors that go into designing successful schools There is probably no single factor more important than considering the primary occupants of the buildings students Student Spaces explores K 12 schools from all over the world that incorporate areas that students find both beneficial and enjoyable While books have long featured school designs that provide commentary by adults this book provides comments from students who have utilized the spaces and enjoyed the benefits first hand Having spent over twenty five years designing k 12 schools I am excited about the examples we have put together Probably the most common response I have received from those that have seen a draft of this e book is Why didn t I get to go to a school like that I trust this e book will help elevate the quality of school design around the world and in the future more people will say Oh I went to a school like that Joel K Sims AIA Founder President Schooldesigner com **Vox Lycei 1993-1994** Lisgar Collegiate Institute, Comprehensive Healthcare

Simulation: Nursing Jared M. Kutzin,KT Waxman,Connie M. Lopez,Debra Kiegaldie,2024-02-28 Simulation based education is a rapidly expanding field The use of simulation was pioneered in anesthesiology and nursing over 50 years ago However recent advances have allowed simulation to become commonplace in many different educational environments These environments include undergraduate nursing education graduate nursing education and post graduate clinical education This book provides an in depth review of the common simulation techniques used in each setting and then dives deeper into each of the practice areas that nurses use for simulation The book offers an overview for novice simulation users as well as a resource for simulation users looking to expand into other uses Capturing the latest advances this book brings a comprehensive review of gradate and post graduate clinical simulation together in a single resource **Lisgar Collegiate**

Beyond the Bubble Test Linda

Darling-Hammond, Frank Adamson, 2014-06-16 Performance assessment is a hot topic in school systems and educators continue to analyze its costs benefits and feasibility as a replacement for high stakes testing Until now researchers and policymakers have had to dig to find out what we know and what we still have to learn about performance assessment Beyond the Bubble Test How Performance Assessments Support 21st Century Learning synthesizes the latest findings in the field and not a moment too soon Statistics indicate that the United States is in danger of falling behind if it fails to adapt to our changing world The memory and recall strategies of traditional testing are no longer adequate to equip our students with the skills they need to excel in the global economy Instead teachers need to engage students in deeper learning assessing their ability to use higher order skills Skills like synthesizing information understanding evidence and critical problem solving are not achieved when we teach to multiple choice exams Examples in Beyond the Bubble Test paint a useful picture of how schools can begin to supplement traditional tests with something that works better This book provides new perspectives on current performance assessment research plus an incisive look at what s possible at the local and state levels Linda Darling Hammond with a team of leading scholars bring together lessons learned new directions and solid recommendations into a single readily accessible compendium Beyond the Bubble Test situates the current debate on performance assessment within the context of testing in the United States This comprehensive resource also looks beyond our U S borders to Singapore Hong Kong and other places whose reform mindedness can serve as an example to us Cumulative List of Organizations
