claimed many lives and inflicted tremendous psychological pain throughout the Americas. The extreme polarization that resulted from pitting capitalism against communism held most of the creative and productive energy of the twentieth century captive. Many artists responded to Cold War struggles by engaging in activist art practice using creative expression to mobilize social change. *The Art of Solidarity* examines how these creative practices in the arts and culture contributed to transnational solidarity campaigns that connected people across the Americas from the early twentieth century through the Cold War and its immediate aftermath. This collection of original essays is divided into four chronological sections: cultural and artistic production in the pre-Cold War era that set the stage for transnational solidarity; organizing early artistic responses to the rise of Cold War polarization and state repression; the centrality of cultural and artistic production in social movements of solidarity and solidarity activism beyond movements; and Essay topics range widely across regions and social groups from the work of lesbian activists in Mexico City in the late 1970s and 1980s to the exchanges and transmissions of folk music practices from Cuba to the United States to the uses of Chilean arpilleras to oppose and protest the military dictatorship. While previous studies have focused on politically engaged artists or examined how artist communities have created solidarity movements, this book is one of the first to merge both perspectives.

Posters for a Green New Deal Creative Action Network, 2020-09-01. The Green New Deal is the most exciting idea in American politics for decades, and as these powerful posters make clear, it's grabbed the attention not just of policy wonks but of artists who can translate these ideas into images that move us. Bill McKibben, bestselling author of *Deep Economy*, Posters with a Purpose: A clarion call for our time. The Green New Deal is a bold and far-reaching legislative plan to fight climate change, create millions of good-paying jobs, promote economic and racial equality, and so much more. In its ambition, it's a vision that mirrors President Franklin D. Roosevelt's New Deal, which helped pull the country out of the Great Depression. And just as WPA artists mustered support for the New Deal with their work, here are 50 powerful posters to champion the Green New Deal. The posters are original, colorful, and visually striking, with text on the back that explains each issue and how the Green New Deal seeks to address it. Perforated pages make them easy to tear out and hang or use as signs at marches and demonstrations, because it's not just a book to flip through. Climate change affects everything: the air we breathe, the water we drink, the food we eat, the places we call home, and the people we love. And the time to act on it is now.
